STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to provide additional revenues for the province of Bengal in order to remove part of the existing deficit in the provincial revenues. It is proposed, subject to certain exemptions, to levy a small surcharge on electricity which is used for the purpose of lights and fans. The rates of surcharge are specified in the First Schedule. The exemptions are specified in the Second Schedule and include the exemption of persons who do not use more than 12 units of electricity in any one month. The rates of duty and the exemptions are so fixed that they will, it is believed, neither adversely affect the development of electrical facilities nor handicap the users of electricity.

Legislation on the same lines, passed in 1932, is in force in the Presidency of Bombay.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to provide additional revenues for the province of Bengal in order to remove part of the existing deficit in the provincial revenues. It is proposed to effect this by varying the rates of stamp duties as in the Bill.

2. Opportunity is taken at the same time to amend certain references to other enactments in Schedule IA of the Act which are now out of date.

J. A. WOODHEAD,
Member-in-charge.

CALCUTTA ;
The 11th January, 1935.

A. deC. WILLIAMS,
Secy. to the Govt. of Bengal.

PRESS COMMUNIQUE.

1. In order to supplement the revenues of Bengal, whose budgets since 1930-31 have shown large deficits, the Central Legislature voted in March last a grant to this province equal to half the net proceeds of the export duty on jute grown within her boundaries. The grant voted last year was for the year 1934-35, and its renewal for the ensuing year remains within the discretion of the Central Government and Legislature.

2. In connection with this grant the Hon'ble the Finance Member of the Government of India in his budget speech and in his speech during the general debate on the budget in the Legislative Assembly made the following statements:—

"While our financial position has been maintained in the sound manner which I have described, we have to recognise that the financial position in India is not merely a question of the Central Government budget, but that provincial finances also closely concern us. Not only does the Central Government at present act as the banker to the provinces, holding their balances and providing funds to meet their capital expenditure and deficits, but we have also in these days to consider our policy with some regard to the various proposals for Federal finance which are such an important part in the constitutional plan. I am not suggesting that we can in any way anticipate the new constitutional proposals, the form of which is still subject to consideration by the British Parliament, nor that we can attempt to take upon our shoulders the responsibility for dealing with the problems of Provincial Governments. There is, however, one case which has stood out in all the enquiries and proposals as requiring some special action, and that is the case of Bengal. The need for some special help has been recognised in the White Paper, and the Government of India is also prepared to accept a similar conclusion. At the same time if any action is to be taken, it is right that something should be done without delay, because Bengal has been since 1930 incurring deficits at the rate of about two crores per annum, and its debt on this account is piling up to figures which may become really unmanageable. If we are prepared to take account of this, and ask the Central Legislature to support us in raising funds to help Bengal, we can only fairly claim to be satisfied that the Bengal Government and Legislature are doing all that is possible to help themselves. Everything which I have to propose is subject to this condition."

"I must add a few words as to the significance in relation to Bengal of the proposal to render it possible to surrender part of the jute duty. I have already stated that it is necessary to stipulate, and indeed we feel sure that we shall be supported in this view by the Legislature and particularly by those

who represent other provinces, that if the special assistance, out of what are under the present constitution Central funds, is to be given, it is fair that we should satisfy ourselves that the Government of Bengal is taking every possible measure on its own account to restore financial equilibrium. On the other hand the present proposal is, as I have already stated on several occasions, only intended as a provisional proposal. It is not intended to be a permanent commitment, nor do we intend to take the line that it is to be regarded as a full and final settlement of the Bengal Government's financial position. Further enquiries will have to be made before any such settlement could be reached, nor can it be reached until the constitutional plan is determined by the British Parliament. There are several difficult points involved, amongst which I must mention the treatment of the debt which has already accrued against Bengal as a result of budget deficits which have been incurred since 1930."

"But the position is this, and I want the House to be very clear about this, because this is the issue which is before the House. We, as the Government of India, having given a very careful consideration to the position, had come to the conclusion that the position of the Bengal Government was such that it could not be expected, by its own efforts, to be able to restore financial equilibrium. That is the whole basis of our proposals and we feel that, in their position, the Bengal Government is in a special position, and that there is no province in India to-day which is in a comparable position. Now, that being our conclusion, the position was this. The Bengal Government was incurring deficits at the rate of almost 2 crores a year. They were piling up a debt which, as I said in my budget speech, would soon have reached unmanageable figures. Our position as the banker of that Government must have been this. We ought to have said to them either 'We cannot go on advancing you money to meet your deficits, you must put your house in order,' or 'we must recognise the fact that you yourselves are unable to put your house in order, and, therefore, we must try and devise some means to help you.' We felt that in any case the position, as it was, could not be allowed to continue: and as we had been convinced that they were unable to restore their own position in present conditions, we felt that the time had come when we must put forward some proposal which would enable us to bring it within the bounds of possibility that they could help themselves to fill up the remainder of the gap."

3. The condition laid down by the Hon'ble the Finance Member was endorsed by the Central Legislature, and the grant of an amount equivalent to one-half of the jute export duty was voted (for the year 1934-35) on the understanding that it would not be paid unless the Government of India were satisfied that the Bengal Government and the

Bengal Legislature were doing all that was possible to help themselves. The position at that time was as follows:—

	Rs.
Deficit on revenue account in the Bengal Estimates for the year 1934-35	2,09,22,000
Estimated amount of half the net proceeds of the jute Export duty	1,67,00,000
Reduced deficit	42,22,000

Final figures for the Budget Estimates for the year 1935-36 are not yet available; but the preliminary figures disclose no improvement in the revenue position, and the problem of balancing the budget in the year 1935-36 is very much the same as it was in the year 1934-35.

4. When a Government's expenditure exceeds its revenue, in order to effect adjustment, it must either retrench its expenditure or increase its taxation, or do both. Assisted by a Retrenchment Committee which they appointed in 1932, the Bengal Government have exhaustively considered the possibilities of retrenchment and measures for the reduction of expenditure have been adopted wherever retrenchment was considered feasible without seriously affecting the efficiency of the administration. The effect of those measures was analysed in the speech given by the Hon'ble the Finance Member when introducing the budget estimates for 1934-35 in the Legislative Council. His analysis showed that on a true comparison of the expenditure on revenue account in 1929-30 with that in 1933-34 the aggregate reduction in expenditure effected was no less than Rs. 94½ lakhs. Since then, rules have issued revising the scales of pay for the large majority of the services and posts under the rule-making power of the local Government, and their effect will be a saving eventually of approximately Rs. 45 lakhs per annum.

5. Apart from (a) an enhancement in registration fees, and (b) the introduction of a provincial tax on motor vehicles the proceeds of which, being earmarked for additional expenditure on communications, do not however relieve the revenue position, no additional taxation has been imposed in Bengal since the year 1922. The position as regards taxation has accordingly been examined, both generally and with particular reference to measures taken in other provinces, and the local Government have decided to introduce certain taxation Bills at the ensuing session of the Legislative Council. The additional revenues expected from these Bills will not completely fill the gap between revenue and expenditure that will remain after receipt of one-half of the jute export duty, but they will considerably reduce it.

This decision does not mean that the Government of Bengal have abandoned either their claim that the jute export duty should be a provincial source of revenue or their claim for an adjustment to cover the excess of expenditure over receipts on revenue account that has accumulated since 1930-31. On the contrary, they will continue to press

those claims, and they are satisfied that the case which they intend to put forward will certainly not be weakened by the adoption of the measures now proposed.

6. The taxation measures which it has been decided to place before the legislature have been published in the Gazette. They are—

7. *The Bengal Electricity Duty Bill, 1935.*—Legislation on the lines of this Bill has been in force in the Presidency of Bombay since 1932. The Bill provides, subject to certain exemptions, for the levy of a surcharge on electricity used for the purpose of lights and fans. The surcharge proposed is 6 pies per unit of energy. This is the surcharge in force in the Presidency of Bombay. The exemptions include Government, Railway Administrations and Local authorities, save in respect of premises used for residential purposes; Tramway Companies and all places or premises wherein any manufacturing process [as defined in clause (g) of section 2 of the Indian Factories Act, 1934] is carried on, save in respect of premises used for residential and office purposes; hospitals and dispensaries which are not maintained for private gain; and all consumers using not more than 12 units in any one month.

8. *The Bengal Tobacco (Sales Licensing) Bill, 1935.*—This Bill requires licences to be taken out for the sale of tobacco, but expressly provides that cultivators of tobacco may sell the produce of their own cultivation without taking out a licence. The Bill places no restrictions whatsoever on the sale by the cultivator of tobacco grown by himself or with the aid of the members of his family or by hired labour.

The fees which it is proposed to levy are modest:—

	Rs.
(a) Wholesale licences ...	6 per annum.
(b) Retail licences ...	3 per annum.
(c) Hawker's licences ...	1 per annum.

Tobacco is subject to internal taxation in most countries of the world and in several parts of India. In the city of Bombay a system of taxation has been in force since the year 1857. Under this system all tobacco imported into the town of Bombay and intended for consumption therein is subject to a town duty of Rs. 30 a maund levied at bonded warehouses, and retail sale is permitted under licence on payment of a nominal fee of Re. 1 per annum. In French India the privilege of vend of tobacco is sold by auction, and the site of each

shop is defined in the licence. In Portuguese India a licence fee is charged for wholesale and retail vend. In the State of Travancore cultivation of tobacco is prohibited, and a duty is levied on tobacco entering the State. In the State of Cochin cultivation is prohibited, and both wholesale and retail shops are sold by auction.

In 1933 the Bombay (District) Tobacco Bill was passed into law. This law, which applies to the whole of the Presidency of Bombay except the City of Bombay, requires licences to be taken out for the sale of tobacco and provides for the levy of licence fees on both wholesale and retail vend. A similar measure was passed into law in the Punjab in 1934. The Punjab Act, which also requires licences to be taken out for the sale of tobacco, extends to municipalities, notified areas, small towns, cantonments and railway stations and not to the whole province.

9. *The Court-Fees (Bengal Amendment) Bill, 1935.*—The Bill provides for a higher court-fee than that now levied on Probates, Letters of Administration and Certificates under the Indian Succession Act, 1925, when the value of the property or the amount of

the debt exceeds Rs. 2,50,000. The rates in the Bill have been in force in the Presidency of Bombay since 1932.

10. *The Indian Stamp (Bengal Amendment) Bill, 1935.*—This Bill provides for an increase in the rates of certain stamp duties. The rates proposed are, with one exception, in force in one or more of the other provinces.

11. *The Bengal Amusements Tax (Amendment) Bill, 1935.*—Under the Bengal Amusements Tax Act tickets of admission not exceeding 8 annas are not liable to the Amusements tax. The Bill provides for the imposition of a tax on tickets costing more than 3 annas. The tax proposed is half an anna on tickets above 3 annas and not exceeding 4 annas and one anna on tickets exceeding 4 annas and not exceeding 12 annas. At present tickets exceeding 8 annas and not exceeding 12 annas are liable to a tax of one anna. Amusement taxes on tickets exceeding 4 annas are in force in the Presidencies of Madras and Bombay.

12. It will be seen that throughout their proposals Government have been at pains to avoid imposing any further charge on the resources of the really poor man.

RESOLUTION—No. 915A.R.

Calcutta, the 28th December 1934.

In their resolution No. 122A.R., dated the 16th January 1933, the Government of Bengal published a provisional list of Scheduled Castes which they proposed to adopt as the basis of their scheme for carrying out the proposals as first embodied in the Communal Decision for the representation of the Depressed Classes, and subsequently modified in accordance with the terms of the Poona Agreement. The list was prepared on the basis of the social and political backwardness of the castes, and the necessity of securing special representation for them in order to protect their interests.

2. Government invited public bodies, caste associations or individuals to submit their views regarding the inclusion or non-inclusion of any caste or castes in the list. Commissioners of Divisions and District Officers were also asked to examine the cases of all castes numerous in their divisions or districts, and to express their opinion whether, having regard to the criteria enunciated by Government, the castes should or should not be included in the list. They were also asked to state whether they were of opinion that any caste in their division or district which had not been included in the list should be so included.

3. In response to their invitation, Government received many representations from public bodies, caste associations and individuals. These, and the recommendations of Divisional Commissioners and District Officers have now been carefully considered, and Government

have decided to recommend for the consideration of His Majesty's Government the attached list of castes as suitable for inclusion in the list of Scheduled Castes for Bengal.

Order.—Ordered that the resolution be published in the *Calcutta Gazette* and forwarded to newspapers in Calcutta and mufassal for publication.

Provided that a subscriber may, at his option, elect not to subscribe during leave:

(2) The option of a subscriber shall be intimated to the Account Officer before the subscriber proceeds on leave or if his leave is sanctioned retrospectively, as soon thereafter as possible and shall be final. Failure to make due and timely intimation shall be deemed to constitute an election to subscribe.

11. (1) The amount of subscription shall be fixed by the subscriber himself, subject to the following conditions:—

(a) It shall be expressed in whole rupees.

(b) It may be any sum, so expressed, not less than $6\frac{1}{4}$ per cent. of his emoluments (*i.e.*, one anna in the rupee) and not more than 15½ per cent. (*i.e.*, 2½ annas in the rupee).

(2) For the purposes of sub-rule (1) the emoluments of a subscriber shall be—

(iii) if the subscriber joined the Fund for the first time under the operation of rule 6 on a day subsequent to the said date, his emoluments shall be the emoluments to which he was entitled on such subsequent date.

(b) in the case of a subscriber who was not in Government service on the 31st March of the preceding year, the emoluments to which he was entitled on the first day of his service or, if he joined the Fund for the first time under the operation of rule 6 on a date subsequent to the first day of his service, the emoluments to which he was entitled on such subsequent date.

(3) The subscriber shall intimate the fixation of the amount of his monthly subscription in each year in the following manner:—

- (a) if he was on duty on the 31st March of the preceding year, by the deduction which he makes in this behalf from his pay bill for that month;
- (b) if he was on leave on the 31st March of the preceding year and elected not to subscribe during such leave, or was under suspension on that date, by the deduction which he makes in this behalf from his first pay bill after his return to duty;
- (c) if he has entered Government service for the first time during the year, or if he is compulsorily required to join the Fund from a particular date under rule 6, by the deduction which he makes in this behalf, from his pay bill for the month during which he joins the Fund;
- (d) if he was on leave on the 31st March of the preceding year, and continues to be on leave and has elected to subscribe during such leave, by the deduction which he causes to be made in this behalf from his salary bill for that month by written intimation to the Account Officer;
- (e) if he was on foreign service on the 31st March of the preceding year, by written communication to the Account Officer before the 1st April of the current year.

(4) If the amount of subscription payable contains a fraction of a rupee, it shall be rounded to the nearest whole rupee (eight annas counting as the next higher rupee).

(5) The amount of subscription so fixed shall remain unchanged throughout the year:

Provided that if a subscriber is on duty for a part of a month and on leave for the remainder of that month and if he has elected not to subscribe during leave, the amount of the subscription payable shall be proportionate to the number of days spent on duty in the month.

12. When a subscriber is transferred to foreign service or sent on deputation out of India, he shall remain subject to the rules of the Fund in the same manner as if he were not so transferred or sent on deputation.

Realisation of subscriptions.

13. (1) When emoluments are drawn from a Government treasury in India or from the Home or a Colonial treasury, recovery of subscriptions on account of these emoluments and of the principal and interest of advances shall be made from the emoluments themselves; except that, when emoluments other than sterling overseas pay are so drawn in India, deductions in respect of sterling overseas pay, when admissible, shall be made in India.

(2) When emoluments are drawn from any other source the subscriber shall forward his dues monthly to the Account Officer.

(3) If a Government servant fails to subscribe with effect from the date on which he is required to join the Fund under rule 6, the total amount due to the Fund on account of arrears of subscription shall, with interest thereon at the rate provided in rule 14, forthwith be paid by the subscriber to the Fund, or in default be ordered by the Account Officer to be recovered by deduction from the emoluments of the subscriber by instalments or otherwise, as the Local Government may direct.

Interest.

14. (1) Subject to the provisions of sub-rule (5) below, Government shall pay to the credit of the account of a subscriber interest at such rate as may be determined for each year according to the method of calculation prescribed from time to time by the Government of India.

Provided that, if the rate of interest determined for a year is less than 4 per cent., all existing subscribers to the Fund in the year preceding that for which the rate has for the first time been fixed at less than 4 per cent. shall be allowed interest at 4 per cent.

(2) Interest shall be credited with effect from the last day in each year in the following manner:—

- (iii) on all sums credited to the subscriber's account after the last day of the preceding year—interest from the date of deposit up to the end of the current year;
- (iv) the total amount of interest shall be rounded to the nearest rupee in the manner provided in rule 11 (4);

Provided that when the amount standing at the credit of a subscriber has become payable, interest shall thereupon be credited under this sub-rule in respect only of the period from the beginning of the current year or from the date of deposit, as the case may be, up to the date on which the amount standing at the credit of the subscriber became payable.

(3) In this rule, the date of deposit shall, in the case of a recovery from emoluments, be deemed to be the first day of the month in which it is recovered; and in the case of an amount forwarded by the subscriber, shall be deemed to be the first day of the month of receipt, if

it is received by the Account Officer before the fifth day of that month, but if it is received on or after the fifth day of that month, the first day of the next succeeding month.

(4) In addition to any amount to be paid under rule 29, 30 or 31, interest thereon up to the end of the month preceding that in which the payment is made, or up to the end of the sixth month after the month in which such amount became payable, whichever of these periods be less, shall be payable to the person to whom such amount is to be paid:

Provided that where the Account Officer has intimated to that person (or his agent) a date on which he is prepared to make payment in cash, or has posted a cheque in payment to that person, interest shall be payable only up to the end of the month preceding the date so intimated, or the date of posting the cheque, as the case may be.

(5) Interest shall not be credited to the account of a Muhammadan subscriber if he informs the Account Officer that he does not wish to receive it; but if he subsequently asks for interest, it shall be credited with effect from the first day of the year in which he asks for it.

(6) The interest on amounts which under sub-rule (3) of rule 13, sub-rule (5) of rule 16, sub-rule (3) of rule 19, sub-rule (3) of rule 21, sub-rule (1) of rule 23, sub-rule (1) or (2) of rule 24, rule 29 or rule 30 are repaid at the credit of the subscriber in the Fund, shall be calculated at such rates as may be successively prescribed under sub-rule (1) of this rule and so far as may be in the manner described in this rule.

15. (1) A temporary advance may be granted to a subscriber from the amount standing to his credit in the Fund at the discretion of the authority specified in sub-rule (3), subject to the following conditions:—

A subscriber may, at his option, repay more than one instalment in a month. Each instalment shall be a number of whole rupees, the amount of the advance being raised or reduced, if necessary, to admit of the fixation of such instalments.

(2) Recovery shall be made in the manner prescribed in rule 13 for the realisation of subscriptions, and shall commence on the first occasion after the advance is made on which the subscriber draws pay, or remuneration on foreign service, for a full month. Recovery shall not be made, except with the subscriber's consent, while he is on leave or in receipt of subsistence grant and may be postponed, on the subscriber's written request, by the sanctioning authority during the recovery of an advance of pay granted to the subscriber.

(3) If more than one advance has been made to a subscriber, each advance shall be treated separately for the purpose of recovery.

(4) (a) After the principal of the advance has been fully repaid, interest shall be paid thereon at the rate of one-fifth per cent. of the principal for each month or broken portion of a month during the period between the drawal and complete repayment of the principal:

Provided that Muhammadan subscribers whose deposits in the Fund carry no interest shall not be required to pay into the Fund any additional instalments on account of interest on advances granted to them from the Fund.

(b) Interest shall ordinarily be recovered in one instalment in the month after complete repayment of the principal; but, if the period referred to in clause (a) exceeds twenty months, interest may, if the subscriber so desires, be recovered in two equal monthly instalments. The method of recovery shall be that prescribed in sub-rule (2). Payments shall be rounded to the nearest rupee in the manner prescribed in rule 11.

- (d) pays or repays to the Fund the whole of any amount withheld or withdrawn from the Fund for any of the purposes mentioned in sub-clause (i) of clause (a) of rule 17 and sub-clauses (i) and (ii) of clause (b) of rule 17 with interest thereon at the rate provided in rule 14,

the Account Officer shall—

- (i) if the policy has been assigned to the Secretary of State in Council under rule 21 or under the corresponding rule heretofore in force, reassign the policy in the first Form set forth in the Fourth Schedule to the subscriber, or to the subscriber and the joint assured, as the case may be, and make it over to the subscriber together with a signed notice of the reassignment addressed to the Insurance Company;
- (ii) if the policy has been delivered to him under clause (b) of sub-rule (1) of rule 21, make over the policy to the subscriber:

Provided that, if the subscriber, after proceeding on leave preparatory to retirement, or after being, while on leave, permitted to retire or declared by a competent medical authority to be unfit for further service, returns to duty, any policy so reassigned or made over shall, if it has not matured or been assigned or charged or encumbered in any way, be again assigned to the Secretary of State in Council and delivered to the Account Officer, or again be delivered to the Account Officer, as the case may be, in the manner provided in rule 21, and thereupon the provisions of these rules shall, so far as may be, again apply in respect of the policy.

Provided further that, if the policy has matured or been assigned or charged or encumbered in any way, the provisions of sub-rule (3) of Rule 21, applicable to a failure to assign and deliver a policy shall apply.

(2) Save as provided by rule 27, when the subscriber dies before quitting the service, the Account Officer shall—

- (i) if the policy has been assigned to the Secretary of State in Council under rule 21 or under the corresponding rule heretofore in force, reassign the policy in the second Form set forth in the Fourth Schedule to such person as may be legally entitled to receive it, and shall make over the policy to such person together with a signed notice of the reassignment addressed to the Insurance Company.

- (ii) if the policy has been delivered to him under clause (b) of sub-rule (1) of rule 21, make over the policy to the beneficiary, if any, or, if there is no beneficiary, to such person as may be legally entitled to receive it.

24. (1) If a policy assigned to the Secretary of State in Council under rule 21 or under the corresponding rule heretofore in force, matures before the subscriber quits the service, and before his death, or if a policy on the joint lives of a subscriber and the subscriber's wife or husband, assigned under the said rule or under the corresponding rule heretofore in force, falls due for payment by reason of the death of the subscriber's wife or husband, the Account Officer shall, save as provided by rule 27, proceed as follows:—

- (i) if the amount assured together with the amount of any accrued bonuses is greater than the whole of the amount withheld or withdrawn from the Fund in respect of the policy with interest thereon at the rate provided in rule 14, the Account Officer shall reassign the policy in the Form set forth in the Fifth Schedule to the subscriber or to the subscriber and the joint assured as the case may be, and make it over to the subscriber, who shall immediately on receipt of the policy monies from the Insurance Company pay or repay to the Fund the whole of any amount withheld or withdrawn with interest, and in default, the provisions of sub-rule (3) of rule 21 applicable to a failure to assign and deliver a policy shall apply;
- (ii) if the amount assured together with the amount of any accrued bonuses is less than the whole of the amount withheld or withdrawn with interest, the Account Officer shall realise the amount assured together with any accrued bonuses and shall place the amount so realised to the credit of the subscriber in the Fund.

(2) Save as provided by rule 27, if a policy delivered to the Account Officer under clause (b) of sub-rule (1) of rule 21 matures before the subscriber quits the service, the Account Officer shall make over the policy to the subscriber:

Provided that if the interest in the policy of the wife of the subscriber, or of his wife and children, or any of them, as expressed on the face of the policy, expires when the policy matures, the subscriber, if the policy monies are paid to him by the Insurance Company, shall immediately on receipt thereof pay or repay to the Fund either—

- (i) the whole of any amount withheld or withdrawn from the Fund in respect of the policy with interest thereon at the rate provided in rule 14,
- or
- (ii) an amount equal to the amount assured together with any accrued bonuses,

whichever is less, and, in default, the provisions of sub-rule (3) of rule 21 applicable to a failure to assign and deliver a policy shall apply.

25. If the interest of the subscriber in the family pension fund ceases, in whole or part, from any cause whatsoever, the provident

fund account of the subscriber shall forthwith be re-imbursed by the amount of the refund secured by the subscriber from the family pension fund, which amount shall, in default of reimbursement, be deducted from the subscriber's emoluments by instalments or otherwise, as the Local Government may direct.

26. If the policy lapses, or is assigned otherwise than to the Secretary of State in Council under rule 21, charged or encumbered, the provisions of sub-rule (3) of rule 21 applicable to a failure to assign and deliver a policy shall apply.

27. If the Account Officer receives notice of—

- (a) an assignment (otherwise than an assignment to the Secretary of State in Council under rule 21), or
- (b) a charge or encumbrance on, or
- (c) an order of a Court restraining dealings with

the policy or any amount realised thereon, the Account Officer shall not—

- (i) reassign or make over the policy as provided in rule 23, or
- (ii) realise the amount assured by the policy or reassign, or make over the policy, as provided in rule 24,

but shall forthwith refer the matter to the Local Government.

28. Notwithstanding anything contained in these rules, if the sanctioning authority is satisfied that money drawn as an advance from the Fund under clause (1) of rule 15 or withheld or withdrawn from the Fund under clause (a) or clause (b) of rule 17, has been utilised for a purpose other than that for which sanction was given to the drawal, withholding or withdrawal of the money, the amount in question, shall, with interest at the rate provided in rule 14, forthwith be repaid or paid, as the case may be, by the subscriber to the Fund, or in default, be ordered to be recovered by deduction in one sum from the emoluments of the subscriber, even if he be on leave. If the total amount to be repaid or paid, as the case may be, be more than half the subscribers' emoluments recoveries shall be made in monthly instalments of moieties of his emoluments till the entire amount recoverable be repaid or paid, as the case may be, by him.

Note.—The term "emoluments" as used in this rule does not include subsistence grant.

Final withdrawal of Accumulations in the Fund.

29. When a subscriber quits the service the amount standing to his credit in the Fund shall become payable to him:

Provided that a subscriber, who has been dismissed from the service and is subsequently reinstated in the service shall, if required to do so by the Local Government, repay any amount paid to him from the Fund in pursuance of this rule, with interest thereon at the rate provided in rule 14, in the manner provided in the proviso to rule 30. The amount so repaid shall be credited to his account in the Fund.

30. When a subscriber—

- (a) has proceeded on leave preparatory to retirement, or, if he is employed in a vacation department, on leave preparatory to retirement combined with vacation, or

- (b) while on leave, has been permitted to retire or been declared by a competent medical authority to be unfit for further service,

the amount standing to his credit in the Fund shall, upon application made by him in that behalf to the Account Officer, become payable to the subscriber:

Provided that the subscriber, if he returns to duty, shall, if required to do so by the Local Government, repay to the Fund, for credit to his account, the whole or part of any amount paid to him from the Fund in pursuance of this rule with interest thereon at the rate provided in rule 14, in cash or securities, or partly in cash and partly in securities by instalments or otherwise, by recovery from his emoluments or otherwise, as the Local Government may direct.

*31. On the death of a subscriber before the amount standing to his credit has become payable, or where the amount has become payable, before payment has been made;

- (i) when the subscriber leaves a family—

(a) if a nomination made by the subscriber in accordance with the provisions of rule 8 or of the corresponding rule heretofore in force in favour of a member or members of his family subsists, the amount standing to his credit in the Fund or the part thereof to which the nomination relates shall become payable to his nominee or nominees in the proportion specified in the nomination.

(b) if no such nomination in favour of a member or members of the family of the subscriber subsists, or if such nomination relates only to a part of the amount standing to his credit in the Fund, the whole amount or the part thereof to which the nomination does not relate, as the case may be, shall, notwithstanding any nomination purporting to be in favour of any person or persons other than a member or members of his family, become payable to the members of his family in equal shares:

Provided that no share shall be payable to—

(1) sons who have attained legal majority;

(2) sons of a deceased son who have attained legal majority;

(3) married daughters whose husbands are alive;

(4) married daughters of a deceased son whose husbands are alive;

if there is any member of the family other than those specified in clauses (1), (2), (3) and (4);

Provided further that the widow or widows and the child or children of a deceased son shall receive between them in equal parts only the share which that son would have received if he had survived the subscriber and if, in a case where had he survived the subscriber, he would have been excluded from a share under clause (1) of the first proviso, he had not been so excluded.

* See also Appendix D.

- (ii) when the subscriber leaves no family, if a nomination made by him in accordance with the provisions of rule 8 or of the corresponding rule heretofore in force in favour of any person or persons subsists, the amount standing to his credit in the Fund or the part thereof to which the nomination relates, shall become payable to his nominee or nominees in the proportion specified in the nomination.

32. (1) When the amount standing to the credit of a subscriber in the Fund becomes payable, it shall be the duty of the Account Officer to make payment, as provided in section 4 of the Provident Funds Act, 1925.

(2) If the person to whom, under these rules, any amount or policy is to be paid, assigned, reassigned or delivered, is a lunatic for whose estate a manager has been appointed in his behalf under the Indian Lunacy Act, 1912, the payment or reassignment or delivery will be made to such manager and not to the lunatic.

(3) Any person who desires to claim payment under this rule shall send a written application in that behalf to the Account Officer. Payment of amounts withdrawn shall be made in India only. The persons to whom the amounts are payable shall make their own arrangements to receive payment in India.

Note.—When the amount standing to the credit of a subscriber has become payable under Rule 29, 30 or 31, the Account Officer shall authorise prompt payment of that portion of the amount standing to the credit of a subscriber in regard to which there is no dispute or doubt, the balance being adjusted as soon after as may be.

33. (a) If a Government servant who is a subscriber to any other Government Provident Fund, which is a non-contributory provident fund, is permanently transferred to pensionable service under the Local Government, the amount of subscriptions, together with interest thereon, standing to his credit in such other fund at the date of transfer shall be transferred to his credit in the Fund.

(b) If a Government servant who is a subscriber to the Contributory Provident Fund (Bengal) is permanently transferred to pensionable service under the Local Government and elects or is required to earn pension in respect of such pensionable service—

- (i) the amount of subscriptions, with interest thereon, standing to his credit in such contributory provident fund at the date of transfer shall be transferred to his credit in the Fund;
- (ii) the amount of Government contributions, with interest thereon, standing to his credit in such contributory provident fund shall be repaid to the Local Government and credited to Provincial Revenues; and
- (iii) he shall in exchange be entitled to count towards pension such part of the period during which he subscribed to such contributory provident fund as the Local Government may determine.

Sums of which payment has not been taken within six months after they become payable under these rules shall be transferred to "Deposits" at the end of the year and treated under the ordinary rules relating to deposits.

35. When paying a subscription in India, either by deduction from emoluments or in cash, a subscriber shall quote the number of his account in the Fund, which shall be communicated to him by the Account Officer. Any change in the number shall similarly be communicated to the subscriber by the Account Officer.

36. (1) As soon as possible after the close of each year, the Account Officer shall send to each subscriber a statement of his account in the Fund showing the opening balance as on the 1st April of the year, the total amount credited or debited during the year, the total amount of interest credited as on the 31st March of the year and the closing balance on that date. The Account Officer shall attach to the statement of account an enquiry whether the subscriber—

- (ii) if such consent is not forthcoming, withhold payment of the sum, part or balance, as the case may be, pending a decision of a competent Civil Court as to the person entitled to receive it.

any part thereof, any nomination, duly made in accordance with the rules of the Fund, which purports to confer upon any person the right to receive the whole or any part of such sum on the death of the subscriber or depositor, shall be deemed to confer such right absolutely, until such nomination is varied by another nomination made in like manner or is expressly cancelled by the subscriber or depositor by notice given in such manner and to such authority as is prescribed by those rules.

6. *Power to make deductions.*—When the sum standing to the credit of any subscriber or depositor in any Government or Railway Provident Fund which is a Contributory Provident Fund becomes payable, there may, if the authority specified in this behalf in the rules of the Fund so directs, be deducted therefrom and paid to Government or the Railway administration, as the case may be—

8. *Power to apply the Act to other Provident Funds.*—(1) The Local Government may, by notification in the local official Gazette, direct that the provisions of this Act shall apply to any Provident Fund established for the benefit of its employees by any local authority within the meaning of the Local Authorities Loans Act (IX of 1914), and, on the making of such declaration, this Act shall apply accordingly, as if such Provident Fund were a Government Provident Fund and such local authority were the Government.

(2) The Governor-General in Council may, by notification in the Gazette of India, direct that the provisions of this Act shall apply to any Provident Fund established for the benefit of the employees of any of the institutions specified in the Schedule, or of any group of such institutions, and, on the making of such declaration, this Act shall apply accordingly, as if such Provident Fund were a Government Provident Fund and the authority having custody of the Fund were the Government:

Note 1.—Explanations and Exceptions.

(f) *Piece-workers in Government Presses.*—The subscriptions of piece-workers in Government Presses are not subject to the minimum limit of $6\frac{1}{4}$ per cent. of pay. In their case the maximum limit of $15\frac{1}{2}$ per cent. shall be calculated on the highest earnings drawn for any day falling within the period 15th February to 14th March of the financial year preceding. If, however, a piece-worker has been absent during the whole of that period the limit of $15\frac{1}{2}$ per cent. shall be calculated on the highest earnings drawn for any day of the first subsequent press month (15th of one month to the 14th of the next month) in which he is employed.

(g) *Other piece-rate workers.*—The subscriptions of section writers, typists, and other piece-rate workers who are members of fixed establishments shall be calculated on their earnings for March of the preceding financial year.

* * * * *

21. (ii) An insurance policy shall be on the subscriber's own life, in which case it is immaterial what form the policy takes, i.e., it may be a life or an endowment, or double endowment policy, but it shall be such as is legally assignable to Government.

Note 1.—A guarantee policy which ensures the payment of the sum assured in the event of the policy-holder being retired by the Medical Board shall be accepted for the purposes of this rule.

A contingent annuity, which, in the event of his death, ensures a certain income to the insurer's wife or children, or both, shall also be accepted for the purposes of this rule.

Note 2.—If a policy of insurance is effected by a subscriber on his own life for the benefit of a sole beneficiary specially named therein, a formal assignment by both the insured and the sole beneficiary shall be permissible. An assignment of a policy effected by a subscriber on his own life for the benefit of more than one beneficiary whether existent or not at the date of the policy shall not, in view of the attendant legal difficulties, be permissible under this rule.

21A. (b) A married subscriber to the Fund may substitute, for subscriptions to the General Provident Fund, payments towards either (i) a policy of assurance effected on his own life, if the policy, on the face of it, is for the benefit of his wife or of his children or of any or all of these, provided that, if such policy matures not at death, but after a period of years, the date of maturity shall not be earlier than the earliest date on which the subscriber may, by the terms of his service, retire; or (ii) any policy of assurance effected on his own life which he has assigned to trustees by a deed of settlement for the benefit of his wife or of his children or of any or all of these.

(c) A married subscriber to the Fund may substitute, or continue to substitute, as the case may be, for contributions to the General Provident Fund, payments towards a policy of assurance on his own life to which he has already been subscribing, provided that he either (i) assigns his existing policy to trustees by a deed of settlement for the benefit of his wife or of his children or of any or all of these; or (ii) converts his policy into a policy of assurance effected on his own life, but expressed on the face of it to be for the benefit of his wife or of his children or of any or all of these, provided that if such policy matures not at death, but after a period of years, the date of maturity shall not be earlier than the earliest date on which he may, by the terms of his service, retire; or (iii) converts his policy into any policy of assurance, effected on his own life, and then assigns it to trustees by a deed of settlement for the benefit of his wife or of his children or of any or all of these, and provided that if he has, as a bachelor, been substituting for contributions to the Fund payments towards such policy of assurance, then such assignment, conversion or conversion and assignment, shall be effected before or within three months after his marriage.

Note 1.—If upon the conversion of an existing policy any portion of the surrender value of such policy is not applied in effecting the new policy, such portion shall be paid or repaid to the Fund and placed to the credit of the subscriber's account.

APPENDIX D.

[Rule 31.]

1. Any sum payable under rule 31 to a member of the family of a subscriber vests in such member under sub-section (2) of section 3 of the Provident Funds Act, 1925.

2. When a nominee is a dependant of the subscriber as defined in clause (c) of section 2 of the Provident Funds Act, 1925, the amount vests in such nominee under sub-section (2) of section 3 of the Act.

3. When the subscriber leaves no family and no nomination made by him in accordance with the provisions of rule 8 subsists, or if such nomination relates only to part of the amount standing to his credit in the Fund, the relevant provisions of clause (b) and of sub-clause (ii) of clause (c) of sub-section (1) of section 4 of the Provident Funds Act, 1925, are applicable to the whole amount or the part thereof to which the nomination does not relate.

APPENDIX E.

[Rule 17.]

Where a subscriber intends to take out a life assurance policy in any Company and to substitute premiums on such a policy for subscriptions to the General Provident Fund, he should satisfy himself that the

Company concerned is a sound one. Every Life Assurance Company working in India is required by law to deposit with Government copies of the following documents—

- (a) The actuary's report on the latest investigation made by him into its financial condition including a valuation of its liabilities,
- (b) Life assurance revenue account for the last financial year, and
- (c) Balance sheet as at the close of the last financial year.

These should be asked for. The subscriber should examine the documents and apply the following three tests to judge for himself the financial stability of the Company:—

- (1) whether the latest actuarial investigation disclosed a *divisible surplus*, namely a surplus a portion of which was allocated to policy holders,
- (2) whether the revenue account shows that the expenses of management, including commission, did not absorb more than a third of the premium income in the last financial year, and
- (3) whether in the latest balance sheet "loans on personal security" did not constitute an appreciable portion of the total assets of the Company.

Application from the Commissioners of the Darjeeling Municipality for a loan of Rs. 1,95,000.

[illegible]

(a) The ordinary surplus is ample to meet the charges of the proposed loan.

(b) When the capital works under contemplation are provided for by the proposed loan, it is intended to effect an immediate reduction of taxation to the extent of about Rs. 32,000 per year. Even if the proved surplus of a lakh were to disappear, reimposition of taxes at the present rate would yield enough to liquidate the entire loan.

The taxes mentioned in column 12 are levied at the following rates :—

Per cent.

Holding tax ..	9	on the annual valuation.
Water rate ..	3 $\frac{3}{4}$	ditto.
Lighting rate ..	3	ditto.
Latrine rate ..	8	ditto of 1st hundred.
	3	ditto of 2nd hundred.
	2	ditto of 3rd to 6th hundred.
	3 $\frac{1}{2}$	ditto above 6th hundred.

(c) Statement of outstanding loans is appended hereto.

(d) The figures in the loan applications have been carefully analysed in order to show nothing but strictly normal income and expenditure under normal heads.

Thus although there have been heavy excess receipts due to arrear collection all collections (a) over 98 per cent. of taxes and electric dues and (b) over 90 per cent. of property demand have been excluded and shown as abnormal income.

HOME DEPARTMENT.**King's Police Medal.****NOTIFICATION.**

(POLICE.)

New Delhi, the 1st January 1935.

No. F.-25/VII/34-Police. — His Majesty the King, Emperor of India, has been pleased to confer the King's Police Medal, and in two cases a bar to the Medal previously awarded, on the following officers and men of the Indian Police establishments:—

* * * * *

Bengal.

*3. *Ram Singhasan Singh, Head Constable.*—On receipt of information of a dacoity at the Hili Station at about 4 a.m. on 28th October 1933, the officer-in-charge, Phulbari police-station, despatched head constable Ram Singhasan Singh (then constable) to the spot. The constable set off at once and reached Charkai where he heard of some suspicious youths passing towards Chintamon en route to village Samjia. Following this clue, he overtook the dacoits a few miles further on and, pretending to be a jute "dalal," succeeded in allaying their suspicion. He kept the youths in view, sometimes going ahead and sometimes falling back, ostensibly making enquiries about the price of jute, but actually arranging with villagers and rural police to cut off their retreat. When the dacoits stopped to rest at Kutabpur, he pushed on to Samjia where he asked for help from the local zamindar who, at his suggestion, sent two men on cycles to provide the dacoits with carts and to arrange with the carters to bring the youths quickly to Samjia ghat. He also arranged with the ferryman to keep the big boat on the far side of the river, thus ensuring that it would be a long while after the arrival of the dacoits before the boat would be brought to Samjia ghat. On arrival the dacoits were arrested with the help of villagers, the constable himself, though unarmed, grappling with and arresting one of the dacoits who was armed with a revolver. From the time of his departure from the police station at 4 a.m. to the time of arrest the constable was without food. He displayed remarkable intelligence and resource in dispelling suspicion and thus succeeded in effecting, with the help of the villagers, the arrest of all seven dacoits and the recovery of their firearms and booty. He was in considerable danger throughout the period he maintained contact with them and displayed conspicuous courage in attacking an armed criminal.

4. *Mukunda Lal Bhattacharji, Officiating Inspector.*—In 1923 this officer was one of a police party who captured a gang of armed Punjabis about to commit a dacoity and subsequently rendered conspicuous services on three occasions in tracing and arresting

dangerous offenders. Since joining the Calcutta Police he has been responsible for investigating and prosecuting fifteen important cases. On one occasion he was engaged in the arrest of three armed absconders who had been located in a room and, on failing to get any response to his knocks on the door, moved to the window through which he was shot in the shoulder. In spite of his wound he gave the alarm on seeing one of the men escaping and gallantly kept the police party posted as to his movements. He is an officer whose devotion and courage in discharging his duties has marked him as one deserving recognition.

5. *Abu Ahiya Bazle Murshedi, Officiating Inspector of Police.*—This officer has been responsible for the arrest of nine important absconders and has taken part in the investigation of several serious cases. For the last few years he has been placed in charge of the protective arrangements during His Excellency the Viceroy's annual visits to Calcutta. He has rendered noteworthy services on two occasions of dangerous disturbance in Calcutta and in connection with an Arms Act case, in which two persons were arrested with loaded revolvers, himself arrested one of the accused who was attempting to escape. In an engagement with three armed absconders who shot a police officer in resisting arrest, the Inspector followed one of the wanted men who was attempting to escape on to the roof, in spite of shots fired by the absconder. The Inspector deserves recognition for the devotion and courage which have marked the discharge of his duties in general.

6. *Manindra Lal Das Gupta, Officiating Inspector of Police.*—This officer has been continuously on duty in a particularly lawless area since December 1932 where he has rendered very valuable services and earned the appreciation of Government. He has been in constant personal danger and has displayed remarkable courage and devotion to duty throughout.

* * * * *

N.B.—The awards in the case of officers marked with an asterisk are for conspicuous gallantry. Officers of and below the rank of Inspector of Police so marked are eligible for the allowances sanctioned in the Home Department letter No. F.-25/IV/28-Police, dated the 7th February 1930.

He was promoted to officiate as an Inspector in 1926 and was confirmed in that rank in 1927. In 1930 he received the appreciation and thanks of the Bengal Government for the bravery which he displayed during the April riots. During the last five years he has been responsible for many of the traffic schemes now working successfully in Calcutta and has earned commendation from all quarters for the excellence of the traffic arrangements which he has made on many important occasions. He is a capable organiser and has handled the various problems given to him with initiative, foresight and thoroughness, and his services have been of immense value to the Headquarters Staff.

26. *Babu Bejoy Krishna Das, Sub-Inspector of Police.*—Since his transfer to the Special Branch in 1924, where he has earned 22 rewards, he has proved himself a very keen and energetic officer. He has secured most valuable information on many occasions.

THE Bengal and Madras Straits Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Unconquered service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 80 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

Amendment of section 109.

5. In section 109 of the said Act the following words will be added at the end of clause (a) of the proviso, viz., "irrespective of whether or not such application or suit was filed or instituted, or the same was finally disposed of before or after the commencement of the Bengal Tenancy Amendment Act, IV of 1928."

Amendment of section 158A.

6. In section 158A the following proviso will be added at the end of clause (1), viz., "provided that in any area for which a record-of-rights has not yet been prepared or finally published the landlord, if he be a proprietor or permanent tenure-holder, may also so apply for the application of the procedure provided by the Public Demands Recovery Act, 1913, in cases where the rent is secured by registered lease containing all necessary particulars of the tenancy such as are required by clause (b) of section 148 and section 162 of this Act.

Ben. Act
III of
1913.

STATEMENT OF OBJECTS AND REASONS.

Section 48C requires an amendment to make clear the intention of the Legislature to give the *under-raiyat* the benefit of the protection now afforded by the proviso in all cases not yet finally decided including cases now pending in the original court or in a court of appeal or cases not yet instituted where notice was given under the old section 49 of the Bengal Tenancy Act. This has been rendered necessary by reason of the decision of a Special Bench of the Calcutta High Court reported in 37 C. W. N. 689, on a difference of opinion between two other Judges of the said court.

The amendment of section 109 is equally urgent and imperative to make clear a similar intention of the Legislature to apply the proviso in all cases not yet finally decided including cases pending either in the original court or in a court of appeal or cases not yet instituted, for it may be a question open to some doubt as to whether the Legislature intended to disturb rights that might be said to have already accrued under the old section 109 by reason of a final disposal even by default or withdrawal of an application or suit before the commencement of the Amending Act. (*Vide* 35 C. W. N. 1147.)

The proposed amendment of section 158A is to facilitate recovery of rents and cesses by proprietors and permanent tenure-holders so as to enable them to pay up in time the land revenue or cess of putni rents which are recoverable by summary processes. The information afforded by a record-of-rights could also be had with equal if not greater safety in cases secured by a registered lease containing all necessary particulars.

No. 295L.C.—11th January, 1935.—In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 14th December, 1934, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL TENANCY (AMENDMENT) BILL, 1934.

A
BILL*further to amend the Bengal Tenancy Act, 1885.*

Preamble.

WHEREAS it is expedient further to amend the Bengal VIII of Tenancy Act, 1885, in the manner hereinafter appearing; 1885.

AND WHEREAS the previous sanction of the Governor 5 and 6 General has been obtained under sub-section (3) of section Geo. V, c. 80A of the Government of India Act to the passing of this 61; 6 and 7 Geo. V, c. Act; 37; 9 and 10 Geo. V, c. 101.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Tenancy (Amendment) Act, 1934.

2. It shall come into force at once.

3. After section 148, clause (h), the following be added as clause (h1):—

“No fresh appointment of any natural or Court guardian would be necessary in execution cases arising out of the original suits where guardian has already been appointed.”

STATEMENT OF OBJECTS AND REASONS.

After amendment of Act VIII of 1885 in the year 1928 some inconvenience is experienced in execution cases. Some Courts in the mufassal insist upon the appointment of fresh natural guardian or Court guardian for the minors in execution cases as a result whereof poor tenants are unnecessarily saddled with costs for the same and delay is caused in the disposal of execution cases. Objects of this amending Bill is to remove that difficulty for the benefit of the poor tenant judgment debtors.

THE BENGAL FERRIES (AMENDMENT) BILL, 1934.

**A
BILL**

to amend the Bengal Ferries Act, 1885.

WHEREAS it is expedient to amend the Bengal Ferries Act, 1885, in the manner hereinafter appearing;

It is hereby enacted as follows:—

- | | |
|---|---|
| Short title. | 1. This Act may be called the Bengal Ferries (Amendment) Act, 1934. |
| Extent and commencement. | 2. It extends to the whole of Bengal.
And it shall come into force at once. |
| Amendment of section 9 of Ben. Act I of 1885. | 3. At the end of section 9 of the Bengal Ferries Act, 1885, the words "provided such term shall not exceed three years" shall be added. |

STATEMENT OF OBJECTS AND REASONS.

The object of this short amendment is to fix the maximum limit to the period to which a ferry should be leased. In some places the ferries are leased to farmers for long periods, namely, 10 to 15 years. In the district of Mymensingh the first class ferries have been leased for 15 years and the second class ferries have been leased for 10 years to a very rich ferry farmer. A great deal of exaction and exploitation is committed by these long termed ferry farmers upon the ignorant and helpless passengers during this long period in respect of ferry charges to be realised on goods and conveyances such as *dulis*, carts and *palanquins*, etc. Monopoly of any trade is harmful to the best interest of people at large. It is also financially injurious to the best interest of District Boards themselves. This power of granting long lease has been instrumental to scaring away the small farmers making rooms for only big ones with big purses.

Another reason for this amendment is that a Board should not be allowed to tie the hands of its successor in respect of the management of the Board's finance. This practice of allowing one Board to forestall the actions of a succeeding Board is bound to interfere with the efficient management of a Board and is against the principle of electing a new Board every third year or fourth year. If one Board is allowed to tie down the financial hand of all future Boards, where is the necessity of having a new Board few years after?

In the opinion of the mover a lease for a term not exceeding three years will be best suited to the legitimate interest of District Boards and ferry farmers alike.

THE BENGAL TENANCY (AMENDMENT) BILL, 1934.

**A
BILL**

further to Amend the Bengal Tenancy Act, 1885.

WHEREAS it is expedient to amend the Bengal Tenancy Act, 1885, in the manner hereinafter appearing ;

VIII of

5 & 6 Geo.
V. c. 61 ;
6 & 7 Geo.
V. c. 37 ;
9 & 10 Geo.
V. c. 101.

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Bengal Tenancy (Amendment) Act, 1934.

Amendment of
section 23 of
Act VIII of
1885.

2. To section 23 of the Bengal Tenancy Act, 1885 (hereinafter referred to as the said Act), the following explanation shall be added, namely :—

“ *Explanation.*—Erection of a mosque, temple, church or any other place of private or public worship, whether of masonry, bricks, stone or any other material whatsoever, shall not be deemed to render the land unfit for the purposes of the tenancy.”

Amendment of
section 44.

3. In section 44 of the said Act after clause (b), the following proviso shall be inserted, namely :—

“ Provided that the erection of a mosque, temple, church or any other place of private or public worship, whether of masonry, bricks, stone or any other material whatsoever, shall not be deemed to render the land unfit for the purposes of the tenancy.”

Amendment of
section 48C.

4. In section 48C of the said Act after clause (b), the following proviso shall be inserted, namely :—

“ Provided that the erection of a mosque, temple, church or any other place of private or public worship, whether of masonry, bricks, stone or any other material whatsoever, shall not be deemed to render the land unfit for the purposes of the tenancy.”

STATEMENT OF OBJECTS AND REASONS.

In the case of *Srish Chandra Ganguly vs. Kasom Mussali and others*, reported in 38 C. W. N., page 93, the Calcutta High Court has held that the erection of a mosque or any other place of public worship in a plot of land comprised in an agricultural holding is a misuse of the land and that in such a case the landlord is entitled to have a decree for ejectment under section 155 of the Bengal Tenancy Act.

Right of worship is an elementary right of man. Erection of a place of worship is only a corollary to that right. It is deplorable if certain provisions in the Bengal Tenancy Act admit of interpretation that militates against this elementary principle. Such provisions require immediate change. The proposals in this Bill are formulated with a view to remove any doubt about this primary right of the Bengal tenant.

c. 101.

Preliminary.

Short title,
extent and
commencement.

1. (a) This Act may be called the Bengal Medical (Amendment) Act, 1934.

(b) It shall extend to the whole of Bengal.

(c) It shall come into force immediately.

Amendment of
section 17.

2. (i) In section 17 insert the following as the first proviso, viz.—

“(1) Provided that the Governor in Council may after consulting the Medical Council permit the registration of :—

(a) any person who possesses a diploma or a certificate of any medical institution and was practising as a medical practitioner on the date when the Act came into force ; and

(b) any person who has obtained proper training in any medical institution and joined the medical profession before the 5th September, 1933.”

(ii) In proviso to section 17 between the word “Provided” and the words “that the Council may,” the word “also” shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

From some time past it has been felt that the provisions of the Bengal Medical Act, 1914, are causing much hardship to a large number of persons who, though properly trained and possessed of degrees, diplomas, certificates, etc., from sources other than those recognised by the authorities and though they had been actually practising Medicine, Surgery and Midwifery from before 1914, cannot get themselves registered and thus become qualified medical practitioners. Practitioners with similar qualification in other provinces, viz., Bombay, the Punjab, the United Provinces, Burma, etc., have been given the privilege of registration long ago either by amendments of the Acts of the respective provinces or by Government notification. In Bengal nothing in this direction has been done up-to-date. These practitioners of Bengal have therefore formed themselves into a corporate body under the name and style of the *Bengal Medical Union* and have been making representations which should not be ignored altogether. The redress sought for may be given by a simple amendment of the Bengal Medical Act and it is the object of the present Bill to make the amendment.

The Bengal Medical Act, 1914, in seeking to give protection to the public against quacks, omitted to make provision for the safety of those doctors who had obtained diplomas and certificates from various well-organised and efficient medical institutions before the passing of the Act, who had been practising with ability and reputation for a long time and who could by no stretch of language be called quacks. Yet, in the result these able, experienced and well-reputed doctors have been classed among the quacks. Many of them have been thrown out of employ from Hospitals, Tea Gardens, Ships, Steamers, etc., debarred from granting certificates of birth, death, or of illness and handicapped in many other ways. Their difficulties increased when the Poisons Act XII of 1919 came into force and prohibited them from procuring for their patients, the requisite drugs included in the schedule of poisons. The transitory provision by Government for an examination of these doctors by the State Medical Faculty was in force only for two years from the passing of the Bengal Medical Act, 1914. The time was too short for the majority to avail themselves of the concession, and moreover a good many did not even get the necessary information within the period. Such people are now on the brink of starvation. Many of them have outgrown the age at which a change of avocation is possible, and for obvious reasons, a fresh examination also is out of the question. The proposed proviso (1) (a) of the Bill is intended to meet the cause of the people.

The case of those who have obtained proper training in unrecognised medical institutions since 1914 stands on the same footing. Several unregistered doctors are serving in Tea Garden, Coal Mines, etc., and they have been highly spoken of by their superior highly qualified Indian and European Medical Officers. There are many who have been practising with greater reputation than their registered brethren of the profession in the rural areas. Some of these non-recognised institutions have since been recognised, but the students who completed their course therein and began to practise before such recognition have been left in the lurch. We therefore find good doctors trained at the same institution, one set of whom, —the older and more experienced set,—all unqualified for want of registration, while another set all qualified by registration. It is equitable under the circumstances to give such students at least one chance of being qualified. Hence the necessity for proviso (1) (b).

3. The words "one of the rest to be Vice-Chairman" shall be added after the word "Chairman" in sub-section (1) of section 45.

Powers of Chairman.

4. The words "which is consistent with the Act" shall be inserted after the word "meeting" in the third line of the proviso of sub-section (1) of section 51.

5. In the last line of the first paragraph of sub-section (2) of section 59, the words "the Chairman thus elected shall preside over election of the Vice-Chairman" shall be inserted after the word "and" and the words "a Vice-Chairman" shall be deleted.

Execution of contract.

6. The following proviso shall be added to section 103 (2) "provided that in cases of the Howrah, Dacca and Chittagong Municipalities the amount shall be five hundred rupees in place of rupees two hundred."

8. (a) The words "through mistake, oversight or fraud" shall be inserted after the word "assessed" in section 138 (1) (c).

(b) For the words "one month's" in the first line of sub-section (2) of section 138 the words "15 days" shall be substituted.

9. In sub-section (2) of section 148 the words "or after the expiration of one month from the date of service of the first notice of demand for payment at the rate" shall be omitted.

Officer may break open door.

10. For the word "reasonable" in the proviso of section 158 the words "one hour's" shall be substituted.

Amendment of section 165.

11. The provisos of section 165 shall be deleted.

STATEMENT OF OBJECTS AND REASONS.

1. Practical difficulties are being experienced regarding some sections of the Bengal Municipal Act, 1932, which are now necessary to be amended as per reasons noted below :—

2. (a) It has been contested in the election suits in connection with the last election of the Commissioners of the Dacca Municipality that many men having academical qualifications were enlisted as voters though actually they did not live there but at the time of election voted. The substitution of the word " occupy " will remove the above difficulty to some extent and this was the provision of the old rules also.

(b) This suggestion is made to avoid the vague meaning of the word " member " which may include sons and grandsons, nephews, etc., of a joint family.

3. The outgoing Chairman of the Dacca Municipality gave notice for election of Chairman only under section 45 (1) but under section 59 (2) the election of both Chairman and Vice-Chairman shall be made at the first meeting. There was great controversy over the matter. This suggestion is made to make it consistent with section 59 (2) and to avoid the ambiguity.

4. This is suggested so that the Municipal Commissioners may not pass any illegal resolution which according to the present wording of the section the Chairman will be bound to carry out.

5. This suggestion is made to make it consistent with the existing Government rules for the election of Chairman and Vice-Chairman.

6. If this is not done in big Municipalities like Howrah, Dacca and Chittagong innumerable urgent works will have to be detained for sanction of the meeting and acceptance of tenders at the meeting. So for the facility of work this suggestion is made.

7. This is suggested to give the actual figures of receipt and expenditure for nine months (i.e., three complete quarters). This was the provision of the old Act also.

8. (a) The existing sub-section is a dangerous one. Any case already decided by a sub-committee, can be open to reassessment by the Chairman of the Municipality. The insertion of words " through mistake, oversight or fraud " has been suggested to make it consistent with section 108 of the Old Act of 1884.

(b) The suggestion is made to expedite the progress of the work otherwise there will be unnecessary delay.

9. A notice under section 147 (2) is quite enough for the party to file objection. This provision is redundant.

10. The word " reasonable " is a vague one. To avoid dispute and litigation, a definite hour should be mentioned.

11. The words " of any movable property belonging to any other person " in section 156 will have no meaning if the provisos are retained. Moreover, this will remove difficulty in realising taxes, particularly from the female owners of a rented holding whose whereabouts are unknown and whose movable property is not sufficient to cover the taxes due. This suggestion is made to make it consistent with section 156.

SALT.

The 12th January 1935.

No. 1.—In exercise of the powers conferred by clause (b) of section 7 of the Indian Salt Act, 1882 (XII of 1882), and in supersession of the notification of the Government of India in the Finance Department (Central Revenues), No. 4, dated the 4th February 1928, the Governor-General in Council is pleased to remit the duty imposed under clause (a) of the said section on salt manufactured in or imported by land into the territories within the jurisdiction of the Commissioner, Northern India Salt Revenue, hereinafter referred to as the Commissioner, or with the special approval of the Governor-General in Council, within any other place, when such salt is used within those territories for any industrial purpose other than the preparation of refined salt or black salt otherwise known as saunchal salt, or as an ingredient, or preservative in any article of food or drink, subject to the following rules:—

1. Any person intending to use salt in an industrial process (hereinafter referred to as the manufacturer) and wishing to be admitted to the concession shall make an application to the Commissioner stating the industrial purpose for which he intends to use the salt and the approximate quantity of salt required in the year. If he wishes the concession to extend to more than one factory or works, a separate application shall be made for each such factory or works. A concession granted for one factory will not be transferred to another factory. If he intends to use any salt other than salt educed in the manufacture of saltpetre, for which a special low rate of duty has been fixed he must apply for sanction of the Commissioner, stating the reasons why such educed salt is not suitable for his purposes.

2. If the application is sanctioned, the manufacturer shall pay a supervision fee of Rs. 100 (Rupees one hundred) to cover the cost of requisite inspections and any other departmental expenses involved; provided that no fee shall be payable by a manufacturer admitted to the concession described in these rules who has already paid a fee in respect of his admission to a similar concession under

Article 8 in part 1 of Schedule II to the Indian Tariff Act, 1894 (VIII of 1894), provided also that if the concession is granted after six months of a financial year have expired, the supervision fee payable for the said year shall be Rs. 50 (Rupees fifty only) and that if the full annual fee of Rs. 100 (Rupees one hundred only) has been paid and a concession is surrendered before the expiry of six months of a financial year or in the case of a new grantee within six months of the grant, Rs. 50 (Rupees fifty only) shall be refunded.

All fees payable under the rules shall be deposited in the nearest district treasury under the head "III—Salt—Miscellaneous", and the treasury receipt forwarded to the Assistant Commissioner, Northern India Salt Revenue, in whose jurisdiction the factory or works are situated, hereinafter referred to as the Assistant Commissioner. The rebate of duty will only be allowed on salt used from the date of deposit of the inspection fee into the treasury.

3. After making this payment the manufacturer shall, in the first instance, provide himself with duty-paid salt from a salt works, depot or from a firm of salt dealers approved by the Commissioner. At the close of each half year the manufacturer shall submit to the Assistant Commissioner an application for the refund of the duty on the salt used, supported by the receipt of the firm from which the salt has been purchased, or by the permits issued for the removal of the salt, as the case may be. Receipts which must be in the form prescribed by these rules (Form No. A) will not be returned to the manufacturer. A stamped receipt for the amount claimed will be submitted in advance, along with the application for refund. On receipt of the cheque for the amount of rebate claimed, the firm will submit an unstamped receipt to the Assistant Commissioner in acknowledgment of having received the cheque.

4. For the purpose of these rules duty on salt purchased in the market shall be deemed to have been paid at the rate in force on the date of purchase.

5. (1) The application for refund of duty shall contain the following particulars:—

- (i) the balance of salt in store at the beginning of the half year;
- (ii) the quantity of salt purchased during the half year;
- (iii) the quantity of salt used during the half year and the quantity on which a refund of duty is applied for;
- (iv) the balance of salt in store at the close of the half year;
- (v) the quantity, weight and such other details of products manufactured during the half year as may be required by the Assistant Commissioner;
- (vi) a declaration stating the product manufactured and the name and situation of the factory or works, and that the salt on which a refund of duty is applied for has been used *bona fide* by the applicant in the process of manufacture of such product and has not been used for any other purposes.

(2) The particulars entered in accordance with clauses (i), (ii), (iii) and (iv) of sub-rule (1) shall distinguish between salt on which duty has been paid, or is deemed under Rule 4 to have been paid, at different rates.

6. On receipt of the application for refund, the Assistant Commissioner shall make such enquiry as he thinks fit and when satisfied that the figures contained in the application are correct shall issue orders for the refund of the duty on the salt used in the process of manufacture. In the absence of special sanction from the Commissioner under Rule 1, duty shall not be refunded at a higher rate than that leviable on salt educed in the manufacture of salpetre at the date of purchase of the salt. A return shall be submitted monthly by the Assistant Commissioner to the Commissioner giving a list of the refunds sanctioned. On receipt of these returns, the Commissioner may order such further enquiry as he considers necessary.

7. The manufacturer shall provide and set apart, for the storage of salt purchased for use in the factory or works, a store-room, which shall be, to the satisfaction of the Assistant Commissioner, securely constructed and fitted with a strong door capable of being locked. Salt manufactured within British India and salt imported by sea shall be stored separately in the store-room, as also shall salt on which duty has been paid, or is under Rule 4 deemed to have been paid, at different rates.

8. (1) The store-room shall not be opened except between the hours of sunrise and sunset and then only for one of the following purposes, namely:—

- (a) for the receipt of salt into store;
- (b) for the preparation by grinding or for the issue of salt required for purposes connected with manufacture;
- (c) to allow the stock of salt to be checked by weighment or otherwise by an officer of the Salt Department deputed for the purpose.

(2) The store-room shall not be opened except by or in the presence of the Manager of the factory or works or the store-keeper who shall retain the key in his own possession.

9. All spent-lye or other useless refuse containing salt shall be effectually destroyed on or near the premises in such manner as the Assistant Commissioner may direct.

10. The manufacturer shall maintain a register in Form B, which shall be written up daily and signed by the manufacturer or his manager and which shall show particulars of all salt purchased, expended and stored together with the weight or quantity of products manufactured. Separate registers shall be maintained for salt on which duty has been paid or is under Rule 4 deemed to have been paid at different rates. With the sanction of the Commissioner the weight or quantity of the product manufactured may be written up monthly instead of daily.

11. The premises of the factory or works may be entered upon and examined at any time by any officer of the Northern India Salt Revenue Department authorised by the Commissioner or by any officer of the Salt Department of a province other than those within the jurisdiction of the Commissioner, Northern India Salt Revenue, who may be specially empowered in this behalf by the Central Board of Revenue, and due facilities for examining the manufacturer's salt register as well as for checking the stock of salt received, expended and in hand, shall be afforded by the manufacturer and all other persons employed by him. Salt shall be stored in the bags in which it is received from the Salt Works or depot and the bags shall be arranged in tiers so as to facilitate checking and weighment.

12. The manager of the factory or works shall furnish the Assistant Commissioner with a monthly statement to be posted by the 10th of each following month, showing the opening balance of salt at the beginning of the month, the quantity purchased during the month, the quantity expended during the month, the balance at the close of the month and the weight or quantity or other particulars, as may be required, of the article produced for which salt was used. The manufacturer's book showing the weight or quantity of the article dealt with and the product manufactured shall be open at any time to the inspection of any officer of the Northern India Salt Revenue Department.

13. (i) On any breach of these rules by the Manufacturer, or there being reason to believe that the concession of a drawback of duty on the salt used by the said Manufacturer is being otherwise abused, the Government shall be competent to impose a preventive establishment at the cost and expense of the Manufacturer, or to cancel or withdraw the concession granted under these rules, and to forfeit the amount of inspection fee deposited for the year, and the Manufacturer shall on demand refund all duty, the remission of which shall have been wrongfully claimed and sanctioned.

(ii) The manufacturer shall also be responsible for any loss or damage that may be occasioned by the breach of rules referred to in clause (i) above.

PART IV

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

**BENGAL LEGISLATIVE COUNCIL
DEPARTMENT.**

NOTIFICATION.

No. 410L.C.—21st January, 1935.—The following report of the Select Committee on the Estates Partition (Amendment) Bill, 1933, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Estates Partition (Amendment) Bill, 1933.

We, the members of the Select Committee of the Bengal Legislative Council to which the Estates Partition (Amendment) Bill, 1933, was referred by a motion carried in the Bengal Legislative Council on the 14th December, 1934, have the honour to submit this our report with the Bill, annexed.

All matter recommended to be omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter recommended to be inserted has been underlined.

2. The Bill was published in the *Calcutta Gazette* of the 31st August, 1933.

3. We do not consider that the Bill requires republication.

4. The Committee met on the 18th December, 1934, and concluded its sitting on that day.

5. The changes recommended in the Bill are as follow :—

Long Title and Preamble.—We have omitted the word “further” in the Long Title and Preamble as being incorrect.

We have corrected a clerical error by the substitution of the word “appearing” for “reappearing.”

Clause 1.—We have recommended the substitution of the figures “1935” for the figures “1933” as the Bill will probably be passed in the year 1935.

Clause 2.—We have recommended the omission of this clause as being unnecessary.

Clause 3.—The main object of the Bill is to allow rent-free lands to be partitioned, without the consent of all the proprietors. But the effect of the amendment to section 82 of the Estates Partition Act as proposed in the Bill as introduced would be to make partition of all rent-free lands compulsory. We consider that in actual practice it would not be found convenient to the proprietors or the tenants to partition such lands in every case and that the Collector should be given discretion to deal with such lands according to the main principles (*mutatis mutandis*) laid down in the Act for the partition of rent-paying lands. The best method of giving such discretion to the Collector, in our opinion, is to repeal the whole of section 82 of the Act, and we have accordingly recommended the substitution of a new clause to this effect in place of clause 3 of the Bill as introduced.

We recommend that the Bill, as reported on by us, be passed.

Resolution and Report of the case of sinking of the I. S. V. "Manoung."

GOVERNMENT OF BENGAL.

Marine Department.

CALCUTTA, THE 18TH JANUARY 1935.

RESOLUTION—No. 102Mne.

The I. S. V. "Manoung" with a large number of passengers and some cattle on board sank in the river Hooghly off Fuldobi on the 7th June 1934. There was considerable loss of life. A Special Court of Enquiry was appointed by

Government under section 33 of the Inland Steam Vessels Act, 1917, to investigate the circumstances attending the loss of this vessel. The report of the Court is appended hereto.

2. In the opinion of the Court, the master of the vessel, Asraf Aii, was primarily to blame for the accident and the Court recommended that the Certificate of Competency as 2nd Class Master held by him should be cancelled permanently. The Court also made certain recommendations in regard to the life-saving appliances to be carried by inland steam vessels and recorded certain observations regarding the responsibility devolving upon the district board of Midnapore as lessors of the ferry service in which the vessel was employed.

3. Government have considered the report of the Court and accept the finding of the Court that the serang, Asraf

Ali, was primarily to blame for the disaster. Orders have accordingly been passed under section 45 of the Inland Steam Vessels Act, 1917, permanently cancelling the Certificate of Competency held by the Master of the vessel.

4. Government are advised that the evidence given before the Marine Court establishes a *prima facie* case against—

- (a) the Master of the vessel of offences under section 58 of the Inland Steam Vessels Act of 1917 and sections 280, 282 and 304A of the Indian Penal Code;
- (b) the owners of the vessel of offences under section 58 of the Inland Steam Vessels Act of 1917 and sections 282 and 304A of the Indian Penal Code;
- (c) the booking clerk of offences under sections 282 and 304A of the Indian Penal Code.

Government have accordingly directed the prosecution of the aforementioned persons.

5. The Court's recommendation regarding the revision of the existing rules for the carrying of life-saving appliances is still under examination by the Principal Officer, Mercantile Marine Department, Calcutta District.

6. A copy of the Court's report has been forwarded to the Local Self-Government Department of this Government and their attention has been invited to the comments recorded in answer (3) to question 12 regarding the lack of supervision on the part of the district board, Midnapore.

Order.—Ordered that a copy of the resolution, with a copy of the Court's report, be published in the *Calcutta Gazette*. Ordered also that a copy of the resolution, with the Court's report, be forwarded to the Political, the Judicial and the Local Self-Government Departments of this Government, for information.

By order of Governor in Council,

R. L. WALKER,

Addl. Dy. Secy. to the Govt. of Bengal.

Report.

This Court was appointed to enquire into the circumstances attending the sinking of the I. S. V. "Manoung" on the 7th June last in the Hooghly off Fuldobi. The Deputy Legal Remembrancer, Mr. Khondkar, represented the Crown before us and Mr. Hazra, Counsel, appeared for the serang and the owners of the vessel.

Twenty-five witnesses were examined by Mr. Khondkar and one of the owners, Mr. Gaebele, was examined by Mr. Hazra.

The following facts are admitted by both sides: The "Manoung" was an old Burma coasting vessel. She was purchased by the present owners Mr. Gaebele and one Mr. Fernandez on 16th May 1934. She was surveyed afresh in Calcutta on 1st June 1934 and the certificate (Ex. 1) was issued. The owners secured a lease from the District Board, Midnapore, to run the vessel as a ferry steamer from Petua Ghat to Kakdwip *via* Fuldobi. The service was actually commenced from the 4th June 1934. On the 7th June, the "Manoung" left Petua Ghat at 9-30 a.m., with passengers, their goods and cattle on board. A station master had been appointed by Mr. Gaebele for Petua Ghat. This was witness No. VII, Manindra Nath Datta, a callow inexperienced youth who did not know his job. There was no station house either. Consequently, the conductor of the "Manoung," witness No. VI, Krista, was entrusted with the duty of selling of tickets on board the vessel while the so-called station master, Manindra, was asked to stop unauthorised country boats from carrying passengers for hire on this route and thus poaching on the Steamer Company's monopoly. The "Manoung" was an unstable boat and had a list while in motion, first on one side and then on the other. All went more or less well, however, on the day of the disaster, till the vessel was a few miles (4 to 8) away from Fuldobi, when the steamer listed heavily on the port side once—never to rise again and capsized with all hands.

The evidence led before us reveals two sharply divided versions of the occurrence. The conflict in the evidence is on two broad points, viz., (1) the number of passengers and cattle on board and (2) the cause of the disaster.

On the one hand, the Steamer Company's employees and a few of the passengers state that there were 150 to 200 passengers and 20 to 25 cattle on board. The Serang Asraf Ali (witness No. V) and the conductor Krista allege that they actually counted the numbers and according to them, there were actually 152 passengers and 22 cattle. According to this batch of witnesses, a sudden squall of wind sprang up just before the disaster and this caused spray to come in on the starboard side of the ship. According to some of the passengers, the vessel shipped some water too on this side. The passengers and the cattle got panicky as a result and rushed to the port side of the vessel and in consequence the vessel capsized to port.

On the other hand, a large number of passengers have deposed that the "Manoung" was grossly overloaded at Petua Ghat. It was a hât day at Kakdwip and many of the passengers had a lot of luggage with them, betel leaves, cocoanuts, vegetables, ploughs, etc. The vessel was practically packed to suffocation and there was hardly any standing place even on board. So great was the rush that some intending passengers (variously estimated to be 15 to 150 in number) had to be left behind at Petua Ghat for want of space on board. Those who succeeded in getting in complained to Krista about the overcrowding and some got nervous as the vessel listed from one side to the other and implored Krista to let them down on shore at Petua Ghat. But the gangway was withdrawn and they were not allowed to get down. Only one passenger, witness No. XXII Ananta Pattanaik, an educated man, was successful in inducing Krista to allow him to get down. Apparently, he succeeded where others failed, because he perhaps impressed Krista by being able to hold an argument with him in English. As a matter of fact, witness No. VI Krista admits that four passengers were actually put down as they were nervous of the list. The number of passengers are estimated by this group of witnesses to be from 400 to 650. According to them, the number of cattle on board was 30 to 45. There was no squall, no spray or shipping of water and no rush of passengers from one side to the other but the ship was listing heavily from the start and it capsized and turned turtle, as it was

taking a turn at the place of the disaster.

Witness No. XXI, Dr. S. N. Sen, Meteorologist, proves that the self-recording anemometer at Saugor Island did not record any squall at about 12 noon on the 7th June last, the wind velocity being something like 14 miles per hour in gusts and the mean velocity being about 10 miles per hour. Saugor Island is not very far from the place of disaster and consequently it is improbable that there should have been any violent squall there. Dr. Sen admits in cross-examination that there may have been a purely local squall at the place of disaster even reaching a velocity up to 30/35 miles per hour without the same being recorded at Saugor. But as Dr. Sen says a squall of this velocity would not be dangerous even to country boats, and less so to a steam-launch and far less to a sea-going vessel like the "Manoung."

We have considered the two versions of the occurrence given before us very carefully and we have come to the unanimous conclusion that the version given by the employees of the Steamer Company and a few of the passengers does not represent the true state of affairs. The second version is in our opinion the substantially correct one, although the witnesses to this version may have exaggerated the numbers to a certain extent. Such exaggeration is after all to a certain extent but natural and does not, in our opinion, discredit the witnesses.

We prefer not to rely on the witnesses who prove the first version (which we may call the Steamer Company's version) for a variety of reasons. The employees, viz., the serang, the conductor and the so-called station master are after all highly interested witnesses. They would naturally try to clear their Company of all blame in the matter and also to clear themselves of all responsibilities for the disaster. As a matter of fact, we must remember that they apprehend they have legal liabilities over the affair, both civil and criminal. It is human nature therefore that they should minimise the numbers as much as they dare and ascribe any other reason for the disaster but overcrowding. Most of the passenger witnesses again, who support them, appear to have resiled from their previous statements before the Chairman of the Local

Board, Rai Bahadur Abanti Kumar Maiti (witness No. XXIII), who held an enquiry into this matter under the orders of the District Magistrate of Midnapore, who is the *ex-officio* Chairman of the District Board. We were not impressed with the rest of the witnesses of this batch either. Their version really does not tally with the circumstances and probabilities of the case.

As has been already mentioned, there is incontrovertible evidence that some passengers did get down at Petua on account of nervousness. It could not merely be on account of the list while the ship stood at the bank. This explanation by Krista does not explain the fact properly. It is evident that the ship must have been uncomfortably overcrowded as witness No. XXII Ananta alleges. There is also reliable evidence that some interding passengers had to be left behind. The only reasons for this must have been sheer want of space on board the ship. Krista and the serang claim to have actually counted the number of passengers coming on board. It was really the serang's duty to limit the number according to the certificate (Ex. 1). Krista, however, says that the serang did not count at all. As regards Krista also, it seems most unlikely that he should have done any counting. Passengers came on board over a long period of time and over the gangway as well as from country boats on both sides of the ship. It was practically impossible for Krista or anybody else to have kept anything like a correct estimate of the number coming on board in these circumstances. Krista would have had to virtually count the passengers again at the time of issuing tickets. It is too much to expect that he would do this duty twice over, specially as it was no duty of his strictly speaking. We do not believe that there was any counting of passengers at all at Petua Ghat but the passengers were allowed to get on board as they liked till every bit of available space on board was completely filled up.

As regards the reasons for the disaster, we are satisfied that there was no squall of any particular severity on the day and consequently no occasion for a panic amongst the passengers of the nature alleged by the serang and the other witnesses who came to support him. The story of the passengers

rushing from the starboard to the port side of the steamer and this fact materially contributing to the capsizing of the steamer also fails to impress us. From both versions of the occurrence, it is sufficiently clear that the disaster was a very sudden one which allowed no time to anyone to behave in such panicky manner. It is admitted even by the serang that there was no screaming by anybody. If there had been any such panic as alleged, most certainly we would have expected a regular howl from the panic-stricken passengers even before they rushed from one side of the ship to the other. This is specially so as there were quite a number of female passengers on board and even the men were just common ignorant cultivators and petty traders.

On these grounds we disbelieve the version of the serang and his supporters materially. The other version seems to us to be the more reasonable and probable one.

We have tried to estimate the number of passengers and cattle on board. The estimate given by the passengers seems to us to be unreliable guess work. We are satisfied, however, that the entire space available was crowded up. It appears that there was available for passengers an area of 800 square feet or so on the two decks. There was an additional space of 50 square feet or so (the hatch area) and another 50 square feet or so odd spaces on board, *e.g.*, passages, alley ways, etc. These latter spaces also could be and were, according to us, occupied by the passengers. This gives us a total space of 900 square feet. From the evidence, it appears to us that about one-third of the legitimate passenger area (*i.e.*, one-third of 800 square feet = 266 square feet) were occupied by the cattle. This left about 634 square feet for the passengers. The certificate (Ex. 1) allowed 3 square feet per passenger on smooth water. This would apparently allow reasonably comfortable accommodation for the passengers. It is clear to us that on this particular trip, the passengers were much more uncomfortably crowded than this allowance implies. Allowing for space occupied by passengers' luggage, some of which was placed on the decks, the bulk being in the hold, we feel that 2½ square feet per passenger would be a fair and safe estimate to adopt. At this rate 634 square feet would accommodate

about 254 passengers. In round figures, we should say therefore that there were at least 250 passengers on board. As regards cattle, the estimates of the conflicting groups of witnesses are less divergent. We do not therefore find that there were many more cattle beyond 22, the number admitted by the crew. A very conservative estimate of the numbers would therefore be 250 for passengers and 22 for cattle.

The ship was licensed to carry 133 passengers on partially smooth waters. The trip in question was over partially smooth waters. Krista admits it and the point was not seriously contested before us by Mr. Hazra during the recording of evidence. During argument, however, Mr. Hazra contested the point and argued that this particular stretch of the Hooghly has not been legally declared to be partially smooth waters inasmuch as rules have not been duly published under section 74 of the Inland Steam Vessels Act. Mr. Khondkar has not been able to point out in reply the exact notification in the local gazette declaring the limits of smooth and partially smooth waters on the Hooghly. But he has pointed out to us these limits as prescribed in rule 19, Part V of the Bengal Government Publication with title "Manual of Requirements as to the Survey of Vessels for Passenger Certificates (Certificates of Survey) under the Inland Steam Vessels Act, 1884," at page 117 (Edition of 1911). Mr. Hazra has not pointed out any other notification, rule or instruction laying down any different limits. The certificate (Ex. 1) uses the term "partially smooth waters." We are of the opinion that, in the circumstances, the owners and the serang were bound by these limits. I may mention here that witness No. VI Krista admits in his evidence that this was partially smooth water. We hold therefore that the trip was in partially smooth waters and the maximum number of passengers the steamer could carry on this trip under the license was 133. If any cattle were carried, a reasonable corresponding reduction must be made in this number.

We have found that 250 passengers and 22 cattle must have been carried at least on this fatal trip. For 22 cattle, a reasonable reduction of 66 passengers should have been made, assuming each head of cattle to occupy as much space

as 3 passengers. No such reduction was made however. On the other hand, as many as 250 passengers were carried. The steamer accordingly carried the equivalent of 316 passengers (66+250) on board instead of 133, an excess of 183. This, in our opinion, amounted to gross overloading.

We next take up the question of the causes that led to the disaster. We have already discredited and disbelieved the theory put forward by the serang. In our opinion three causes contributed to the disaster. Firstly, the vessel was a cranky one, admittedly listing from one side to another of itself. This was apparently due to an insufficiency of ballast in the hold. Secondly, the vessel was badly overcrowded. This resulted in making the ship more top-heavy than ever and consequently less stable. Thirdly, the immediate cause which proved to be the last straw on the back of the camel was the turn that the vessel was taking at the place of the disaster. The swell and the tide apparently affected the stability of the ship for the worse on the helm being put over at this particular spot and the ship capsized as a result of the cumulative effect of all these three causes.

Having disposed of the two main lines of controversy in regard to this disaster, we proceed to answer the questions set before us in this enquiry:—

Question 1.—When S. S. "Manoung" left Petua Ghat on her last voyage, was she properly manned?

Answer.—Our answer to this is in the affirmative.

Question 2.—Was she seaworthy and properly equipped with life-saving appliances?

Answer.—She was undoubtedly seaworthy as her past services as a coasting vessel amply show.

This ship carried six life-buoys. Rule 24, page 57 in Part IV of Manual of Requirements cited above, lays down that there must be one life-buoy for every 25 passengers. This ship was therefore properly equipped for this trip on partially smooth waters provided the maximum number of passengers 133 was adhered to. But on smooth waters, the ship was entitled to carry 266 passengers under the certificate and accordingly it should really have carried 11 life-buoys. Witness No. IV Commander Orchard

admits that the certificate of survey (Ex. 1) is in this respect incorrect.

Question 3.—What was the number of passengers on board?

Answer.—We cannot give an exact figure in answer to this. But we are of the opinion that there must have been at least 250 passengers on board.

Question 4.—How many heads of cattle were on board?

Answer.—As we have explained, there were at least 22 heads of cattle on board. The actual number seems to have been about 25.

Question 5.—Were any steps taken to ascertain that the number of passengers embarked did not exceed the number for which the vessel was certified? If so, what steps?

Answer.—We do not believe any such steps were at all taken.

Question 6.—What reduction was made in the number of passengers to be carried on account of cattle?

Answer.—No reduction was made on this ground.

Question 7.—Was there any cargo on board? If so, to what approximate amount and where stored?

Answer.—There was no cargo properly speaking. But there were some amount of passengers' luggages and goods. Some of it was stored in the after-hold and some on the deck. We are unable to form any approximate estimate of the amount thereof.

Question 8.—What fuel, water and stores were on board?

Answer.—The evidence on this point comes from the crew and Mr. Gaebeler entirely. There seems to have been about 9 tons of coal, about 2 tons of water and a little stores belonging to the crew.

Question 9.—To what cause or causes do you attribute the accident?

Answer.—This has been discussed above at length. The causes were threefold :—

(1) There was gross overcrowding.

(2) The ship was cranky and unstable—apparently on account of insufficient ballast.

(3) The ship was taking a turn at the spot and the tide and the swell reacted still more unfavourably on the already defective stability of the ship, thus capsizing the ship.

Question 10.—Was there loss of life, and if so, to what extent?

Answer.—There certainly was loss of life—and in our opinion, a considerable loss too. From the legal evidence before us, we are unable to give even an approximate estimate of the number.

Mr. Khondkar has produced through witnesses two lists of persons alleged to have died in this disaster. The first list contains 107 names and was prepared on 26th June 1934 by witness No. XXIII Rai Bahadur Abanti Kumar Maiti, Chairman of the Local Board, who held an enquiry locally. The second list, containing 201 names, was prepared on 5th September 1934 by witness No. XXV Paresh Nath Banerji, Sub-Inspector of Police. The defence naturally objected to these lists. The lists are not really legally admissible and we cannot pass any opinion whatsoever on the correctness or otherwise of these lists.

We get, however, from some of the witnesses that some of their relatives and acquaintances actually died as a result of this disaster. Thus witness No. X Rakhal Routh says four of his relatives died. Witness No. XI Mahendra Nath Pradhan speaks of one of his acquaintances having died. Witness No. XIII Gajendra Mandal says two of his relatives and four or five of his acquaintances died. Witness No. XXII Ananta says five of his neighbours died. Assuming these men to speak of different persons, 17 persons have been *proved* to have died. Naturally, we could not take all the evidence of this nature which might possibly have been produced on behalf of the Crown. The enquiry would then have assumed unwieldy proportions. Mr. Khondkar on behalf of the Crown did not attempt to exhaust all such evidence quite reasonably.

Question 11.—Did the life-saving appliances carried by the vessel materially contribute to the saving of life? If not, have you any recommendations to make concerning life-saving appliances carried in these small vessels?

Answer.—There is evidence to show that only two men were saved by one of

the life-buoys. The appliances therefore did not materially contribute to the saving of life.

We strongly recommend that the rules providing for the carrying of life-saving appliances should be revised and strengthened. The number of buoys required to be carried by these ships should be doubled. The members of the Court are also agreed that there should be some form of additional buoyant life-saving apparatus to be carried compulsorily by these passenger-carrying vessels. All of us except one member agree that in most cases light bamboo rafts to be carried in such a manner that they would float up as soon as a ship goes down would be the most suitable and the simplest contrivance. We do not, however, propose here to go into the details of the proposal, e.g., specific requirements of rafts or similar contrivances for different kinds of river craft (country boats and steam-launches big and small).

Question 12.—Do you attribute blame to anyone; if so, to whom and why?

Answer.—(1) The serang is to blame for this disaster primarily. In our opinion, he utterly failed in his duty of checking the number of passengers with a view to prevent overloading. He is also to blame for persisting in starting on his voyage with an overloaded steamer. The rules require that tickets are to be sold on land before a passenger is allowed to board a vessel. The serang, as the master of the ship, also failed in his duty in allowing passengers to embark on the vessel without tickets having been issued to them prior to the voyage.

(2) The owners of the ship are also to be blamed for failure to make proper arrangements for selling tickets on land and for controlling the number of passengers going on board, as we have seen, there was no station house built and no proper station master functioning at Petua Ghat. Their conduct is also reprehensible for running a cranky ship like the S.S. "Manoung" without proper ballast. Mr. Gaebele knew of the defect but took no steps apparently for inviting expert opinion as to how to remedy the same.

(3) We are also of opinion that the District Board were also hasty in giving the lease of the monopoly of the ferry to the Steamer Company without first

satisfying themselves that the service would be carried on efficiently and safely. The evidence of the Rai Bahadur and of Mr. Gaebele makes this abundantly clear. It also appears that the District Board should have set up some sort of machinery for supervising and controlling the ferry service so that efficiency and safety might be ensured. It appears that there were supervisors for this duty during the time country-boats were serving the ferry, but the supervisor at Petua Ghat was discharged some time ago when a steamer service was established with S.S. "Mavis" doing the trip. Evidently, the District Board was content to leave matters to the entire discretion of the Steamer Company. This, in our opinion, amounted to shirking of responsibilities. By accepting revenue from the ferry service, a moral duty and responsibility are cast on the District Board to look to the safety and comfort of the passengers. They cannot get away from this responsibility by leaving everything to be done by the Steamer Company.

It is not clear to us whether the District Board had a statutory duty in this regard. If they had none, the law or statutory rules thereunder should be amended as found necessary in order to make the District Board responsible for seeing that conditions of the lease are followed and the passengers who pay their fare are carried reasonably, safely and comfortably across.

Question 13.—Should any certificate be dealt with, if so, to what extent?

Answer.—The serang's certificate should be cancelled permanently in view of his incompetence and neglect of duty.

S. SEN,

Chief Presidency Magistrate.

The 24th October 1934.

Assessor's opinion.

I. When "Manoung" left Petua on her last trip, was she properly manned?—Yes.

II. Was she seaworthy and properly equipped with life-saving apparatus?—During her trip down river she was reported to be cranky. She must have been underballasted. The vessel carried six life-buoys instead of double the quantity.

III. What was the number of passengers on board?—Over two hundred.

IV. How many heads of cattle were on board?—Twenty-five.

V. Were any steps taken to ascertain that the number embarked did not exceed the number for which the vessel was certified, if so, what steps?—None.

VI. What reduction was made in the number of passengers to be carried on account of the cattle?—None. Attendants and cattle with passengers were huddled together.

VII. Was there any cargo on board? If so, to what approximate amount and where stowed?—A considerable amount of passengers' luggage and merchandise was stowed on deck, but no freighted cargo in the hold.

VIII. What fuel, water, stores, were on board?—About 3 tons of coal in the bunker *plus* 5 tons of coal stowed in the forehold, as ballast, 6 small water tanks of 40 gallons, and crew's personal belongings.

IX. To what cause or causes do you attribute the accident?—An excessive amount of passengers on both the bridge and main decks *plus* cattle and implements and merchandise rendering the

vessel top-heavy. It has been definitely ascertained that the vessel took one roll while altering her course, with the ebb tide athwart her beam and did not recover, but capsized suddenly.

X. Was there any loss of life, if so, to what extent?—Yes, the number cannot be ascertained.

XI. Did the life-saving appliance carried by the vessel materially contribute to the saving of life? If not, have you any recommendation to make concerning life-saving appliances?—No. Owing to the suddenness of the disaster neither the boats nor the life-buoys proved of any avail. As this class of vessel is not obliged to carry but a limited number of life-buoys, we would recommend that the present number of buoys should be doubled and that at least two bamboo (?) rafts should be carried in the most convenient place on the main deck or roof.

XII. Do you attribute blame to any one? If so, to whom and why?—Yes. In the first instance to the owner or manager of the company for the inadequate and careless manner that arrangements were made to embark and disembark passengers, and secondly for the gross ignorance in allowing the passengers to embark without tickets and in not having a competent supervisor or station master at Petua Ghat.

The serang's certificate should be cancelled for endangering his vessel by overloading and criminal negligence.

REVENUE DEPARTMENT.**Land Revenue.****NOTIFICATION.**

No. 1142L.R.—18th January 1935.—The following report of the Bengal Board of Economic Enquiry on rural indebtedness, together with connected papers, is published for general information. Any public bodies or individuals who desire to make any representations regarding any of the recommendations should submit them to the Secretary to the Government of Bengal, Revenue Department, on or before the 15th of March, 1935.

O. M. MARTIN,

Secy. to the Govt. of Bengal.

Preliminary Report of the Board of Economic Enquiry on rural indebtedness.

The Board was constituted by Government Resolution of 1st December 1933 to conduct inquiries into such economic matters as might be referred to it by the Local Government and to initiate and conduct, subject to the sanction of Government, enquiries into other economic matters.

2. The personnel of the Board was not finally settled till 26th February and the first meeting could not take place till 14th March. In the meantime, however, the note of Government dealing with the indebtedness of the agricultural population of Bengal and discussing the broad aspects of the problem had been circulated to all members. Apart from the question of reconciling the diverse reports of the Jute Committee this is the only subject which has been referred to the Board in accordance with the terms of reference.

3. His Excellency Sir John Anderson was good enough to open the first meeting with a short address which was much appreciated by all the members. A general discussion of the scope of the Board's activities followed and the extent to which it would be necessary for it to make inquiries on its own behalf and the agencies it could employ. It was pointed out that there was a vast volume of statistical information available about the budget and economic condition of agricultural families in Bengal in settlement reports and the publications of the Government of India and the publications of the Agricultural Department of the local Government and the reports of the Banking Committee. The general feeling, however, was to the effect that nothing could be done until this material had been investigated and epitomized and placed before all the members in a convenient form. Arrangements must, therefore, be made for remedying the deficiencies and making supplementary inquiries. It was felt that, if nothing else was necessary, local inquiries must be made as to the extent indebtedness had increased during the last three years of depression.

4. A Statistical Sub-Committee was then selected to undertake these duties. Another sub-committee was appointed to study the legislation which had already been undertaken or suggested in this and other provinces with a view to relieving the problems of usurious interest and growing indebtedness. A third sub-committee was formed to

study the constitution of the new land mortgage banks and other forms of credit societies and to make suggestions for their improvement and development. Both these sub-committees were given the task of studying the financial aspects and considering what sort of staff would be required if a scheme of debt conciliation and rural insolvency proceedings was approved in principle.

5. The Statistical Sub-Committee decided to rely in the first place on the inquiries which had been made in February to March 1934 by the Collectors in two or three villages of each circle in the Province. The information thus gathered as regards 6,359 families in sixteen districts was collated in the statistical laboratory of the Presidency College of Professor Mahalanobis, one of the members of the Board. The object of the analysis was to find out how many families there were in Bengal of the classes with which the Board was chiefly concerned, i.e., those with a stable interest in their lands who were mainly dependent on agriculture for their livelihood who could be classified as solvent, of doubtful solvency, or as insolvent. The test which it was decided to apply was that families whose debt did not exceed twice their present income after deducting the food consumed could be placed in the first class, those whose principal debt did not exceed four years' income in the second class, while those whose debts exceeded the latter figure must be regarded as insolvent. When the forms were devised however the importance of the area which each family cultivated as a *prima facie* indication of its ability to maintain itself in comfort in normal years and to give it reasonable prospects of a surplus wherewith to repay its debts was not realised and the forms did not lend themselves easily to this analysis. There were other defects in the forms also. From the majority of the forms as filled up it was difficult to ascertain the amount of interest that had accumulated and the actual difference between the principal indebtedness in 1928 before the depression and in 1933 after the depression. For this reason the Professor was obliged to base his statistics on the principal indebtedness, ignoring interest. As the scheme recommended by the Board is based on a general belief that the money-lenders are prepared at the present time to sacrifice the greater part of their accrued interest provided they are given sufficient assurances of the repayment of the capital, this defect is not perhaps serious. To some extent it has been neutralised by taking the income at the height of the depression for purpose of comparison with the debt.

More serious defects are the small proportion of the families in each district and therefore in the Province as a whole whose circumstances were investigated and the incurable difficulty of expecting the uneducated tenants of Bengal to remember their outgoings and incomings of three years ago or even to give accurate statements of their present debts, much less of their actual expenditure. The scientists among our members were also much impressed by Professor Bowley's report to the effect that no reliance could be placed on figures based on specimens unless those specimens were selected strictly at random. The instructions to the Circle Officers had been to select typical villages for their enquiries. When, however, the specimens represented so small a portion of the aggregate as they did in the case of these inquiries, most of us thought that the main thing was that no specimen should be abnormal or it must vitiate the results for the district, and this is all that the instruction to the Circle Officer meant in practice.

6. The tests which Professor Mahalanobis was able to apply to the statistics collated for Faridpur, the first district completed, satisfied him that the results were on the whole satisfactory. The general resemblance of the results subsequently placed before them for other districts completely satisfied the other members. The statistical committees were able to present the figures given in Appendix I as a working basis and the Board at their meeting in August accepted them and decided that no further inquiries were essential at this stage, though all additional or supplementary material available should be used for purposes of verification and comparison. Certain inquiries on a revised form were being made in certain districts. They were made under the personal supervision of Babu Nihar Chandra Chakravarty, the Board's Assistant Secretary. They were designed to remedy the defects which experience had disclosed in the previous inquiries, especially those due to varying interpretation by the inquiring officers of the rules laid down for their guidance and hence to eliminate as far as possible the personal element. The results of these supplementary enquiries are summarised in Appendix II. The summary of the results of an economic enquiry made by the Settlement Department in Rangpur is given in Appendix V.

7. On one point of particular importance the inquiries hitherto referred to threw very little light. The purpose of the debt conciliation scheme as outlined in the Government note was to relieve the agricultural debtors. Some members of the Board were inclined to believe that the scheme was almost equally of advantage to the creditors. It was one of the chief assumptions on which we were working that the money-lenders as a whole had failed to collect any interest, much less any part of the capital of their outstanding loans, during the last three years. Some of them might have sued their debtors in the civil courts, but owing to the absence of purchasers at a reasonable price execution proceedings dragged on indefinitely, and if the land was sold it was difficult to get possession or to find other cultivators to take settlement. If the number of cases in which the creditors sold up their debtor, was say 5 per cent. only and in 95 per cent. of cases the debtors paid nothing and remained in possession of their land without any penalty, the consequence in course of time would be that the present indebtedness of the vast majority of agricultural population would be wiped out by limitation and the mahajans would lose their capital. If there was anything in this view, then legislation was as essential in the interests of the mahajans as in the interest of the debtors.

By the courtesy of the Inspector-General of Registration, all the Sub-Registrars in the Province were addressed to make particular inquiries as to the proportion of tenants with decrees recently executed against them or hanging over them, but the results have not yet come in.

8. The material which the Board has accepted may be summarised as follows:—

There are 50 lakhs of agricultural families with a permanent and transferable interest in their lands. They are mainly occupancy raiyats though some tenure-holders who cultivate part of their lands are included and some under-raiyats. Agricultural labourers and temporary under-raiyats or bargadars are excluded.

23 per cent. are not in debt at all.

43 per cent. are in debt less than two years' income (Class A).

Total debt Rs. 27 crores.

16 per cent. are in debt less than 4 years' income (Class B).

Total debt Rs. 23 crores.

The total indebtedness is in the neighbourhood of Rs. 97 crores.

22 per cent. of the 22 lakhs of families in the second class have land less than 2 acres and 21 have more than 8 acres. 21 per cent. of the 8.5 lakhs of families in the third class have less than 2 acres and 11.5 more than 8 acres.

9. While this information was being collected, the other sub-committees and the staff of the Board were considering the legislation and experiments that had been made in other provinces and in certain native states and seeking to find an answer to the questions put before them by Government. It was realised that the problem was immense and that it did not matter for practical purposes whether 40 per cent. or 70 per cent. of the agricultural families were in debt or whether their average debt was Rs. 50 or Rs. 150. The real figures for any individual family would only be ascertained when the actual work of dealing with their debt began if then the work of conciliation could only be undertaken as an experiment and the only practical question was the extent of the experiment. This was dependent not on the programme, but on the resources of Government as regards finances and staff.

9A. One of the questions asked in the Government note was whether the agriculturists had sufficient surplus to repay their existing debts. From the figures given in Appendix I, Table 1, there is an average deficit between income and expenditure of 22 rupees. In Bankura the annual deficit is as much as 83 rupees and the agriculturist spends nearly twice his income. But in Chittagong there was an even heavier deficit according to the figures given by the inquiring officers in 1928 before the depression started. On the other hand, in the districts where the subsequent inquiries were made which are summarised in Appendix II, a surplus is shown in all districts which goes as high as 29 rupees in Dacca in 1928. The Board are of opinion that much importance cannot be placed on the figures for income and expenditure either in 1928 or 1933. The important thing is that the average debt shown in the last column is in all cases considerably less than one year's income in 1928. Expenditure has been shown to have decreased by 40 per cent. between 1928 and 1933. There is no reason why it should not decrease still further. There is a possibility also that income may again approximate the figures of 1928, as the price of rice has already gone up in all districts. The Board are therefore of opinion that all the families whose capital debt does not exceed twice the income of 1933 can repay their debt after the conciliation or adjustment by equated payments spread over a period of from 10 to 15 years.

As regards the families in class B whose debts are between 2 and 4 years of their calculated present income, the position is not so clear, but for similar reasons the Board are of opinion that if excessive interest is ruthlessly cut down, they should be able to pay off all their debts in equated payments spread over 15—25 years. In this class everything depends on the amount of land each family has and we have unfortunately not got the figures of average debt of families with 2, 4, 6, 8 acres of land, respectively. The average debt of this class

is 270 and the average income of all families was 218 in 1928. We see no reason to suppose therefore that all families in this class with more than 2 acres of land are not in possession of the necessary surplus. It is probable that the average debt of families with between 2 and 8 acres is less rather than more than the average.

The idea of the Bill which has been drafted is that an Adjustment Board should take up every case and deal with it as a whole. All the debts of each family must be reported and examined and instalments for payment will then be fixed. The civil courts will have no jurisdiction as regards the debtors who have come under the operation of the Act except as regards debts incurred after the award and decrees for such debts cannot be executed until the awarded debts have all been paid. If the debtor fails to exercise economy and to pay off his instalments, the Certificate Officer will issue certificates, and in case of repeated defaults he will sell all the land and treat the debtor as an insolvent. In fixing the instalments the Board will have regard to the surplus. In adjusting the debts it will be guided by amicable arrangements agreed to by a proportion of the creditors under section 12, or by reasonable offers made by the debtor or creditor under section 14. In either case it will adjust all the debts of that particular debtor and there will be no great difference of principle or system.

As regards insolvents who roughly correspond with the class whose debt exceeds four years' income, there will be a difference of principle. In the case of the classes previously mentioned debts will not ordinarily be reduced below the amount of the principal. In the case of insolvents they will. As far as we know all existing and proposed schemes for rural insolvency proceedings provide for selling up all the property of the debtors with the possible exception of their homesteads, agricultural implements, and cattle. We propose to reduce the debts of the insolvent to the amount it is estimated he can pay in instalments extending up to 20 years provided he exercises rigid economy. Our proposal is not so likely to cause an upheaval in agrarian societies and should not give rise to any new problems. It is far kinder to the debtor because he will be left with his land and given another chance. If, however, he does not take advantage of this chance and if he fails to pay the instalments which may be fixed punctually, he must be sold up ruthlessly. Some of our members are of opinion that even his homestead should be liable to sale. It greatly reduces the value of the land to a purchaser if part of it is occupied as a homestead by the ex-tenant. There is a danger in leaving a large number of families on the land with no land of their own to cultivate. It can at best lead to an extension of the system of barga cultivation, which has generally been held to have a bad economic effect on agricultural conditions. Further it seems desirable to make a distinction between the fate of those debtors who are sold up as insolvents after their debt has been drastically reduced to the amount they can pay and those who have failed for perhaps no fault of their own to pay liabilities not so reduced.

10. The Bill referred to above (Appendix IV) is drafted on the lines of the Central Provinces Act and the Punjab Bill. Its main provisions are as follows:—

(a) A Debt Adjustment Board will be constituted in as many centres as Government finds possible to receive applications both from debtors and creditors of the agricultural classes. [Central Provinces Act, section 4 (I), Bill, section 3 (I).]

(b) It can dismiss any application summarily; if not it can call for detailed statements from both debtors and creditors and fix a date for hearing both parties within one month; the amount of debts not stated by the creditors will be treated as the amount admitted by the debtor. The Board can extend the time for application if it sees good reason, but is not bound to do so. [Central Provinces Act, section 7 (1), Bill, sections 7 (1) and 8 (2).]

(c) The Board, if the creditors and debtors to the extent of 60 per cent. of the debts agree to conciliation, can settle all the debts of that debtor and the award counts as a decree of a civil court. [Central Provinces Act, section 12, Bill, section 12.]

(d) The Board, if it thinks either debtor or creditor has made a reasonable offer, can make an award for all the debts provided the amount awarded is not less than the principal of the debt, otherwise it dismisses the application. [Central Provinces Act, section 15, Bill, section 14.]

(e) If after an award any instalment becomes overdue, it can be recovered by certificate procedure. [Central Provinces Act, section 13, Bill, section 14AA.]

(f) Debts incurred after the award cannot be sued for till all the certificated debts have been realised. [Bill, section 17A.]

P.L.B.—It is thought that this will deter mahajans from lending more to these debtors and that by notices in union boards and sub-registration offices it is possible to give sufficient publicity to the names of the people who have come under the operation of this Act.

(g) Where the Board judges a tenant to be insolvent, it can reduce the debt to the amount he can pay, say 75 per cent. of the value of his land or assets, and fix instalments for its payment. [Bill, section 14(B).]

(h) If the instalments are not paid punctually, the Board can sell up all the property except the homestead itself. It will pay creditors proportionately from proceeds and release the insolvent from any further liability. [Bill, section 15.]

(i) The civil court will have no jurisdiction while proceedings are pending before the Board and cannot interfere with their awards. All the lands which are the security for the awarded debt will be attached as under section 64, Civil Procedure Code. [Bill, section 7A.]

(j) The Board will notify the landlords of the debtor's lands and execution of rent decrees will be postponed for six months. [Bill, sections 14AAA and 17A.]

(k) The awards will be transferable and they can be taken over for collection by any approved credit society. [Bill, section 23 (1).]

The Board are in favour of legislation on these lines being passed at the earliest possible date and there are not many provisions in the Bill on which there are great differences of opinion. The exception is the question of the effect of attachment of the lands of the debtor till the award is discharged on the security of the landlord for his rent and how the payment of the current rent can be ensured. As a possible means of meeting this difficulty, the proviso to section 17A has been drafted for the consideration of Government.

11. The questions which have given rise to controversy and on which full agreement has not been reached are connected with the working of the proposed Act. The first point on which some of the members are not convinced is whether conciliation alone without some attempt at simultaneous part payment in cash or debentures of the

creditors' dues will yield results worthy of the organisation and expenditure involved. In the Government note it was suggested that unless payments in cash were arranged the creditors would have no inducement to agree to substantial reductions of their claim. All the members are in favour of Government starting land mortgage banks in every subdivision as soon as possible, but as it is regarded as an essential feature of such banks that they should not lend more than 50 per cent. of the market value of the debtor's land, it is felt that these banks will not, even if they could be established in great numbers in a short time, be of much help to the ordinary cultivator, the class which represents 70 per cent. of the rural population of Bengal. The essential feature of the existing rural co-operative banks is that each member should be security for all others and even if these banks were available in every village the scheme is too big to be worked on purely co-operative lines. If Government could see its way to raising Rs. 2 crores and distributing it like agricultural loans through its own officers in order to pay to each mahajan one out of 8 or 12 instalments of every awarded debt, the chances of the scheme being a success would be increased enormously. If Government thinks that its natural objection to take upon itself the odium of becoming the direct money-lender of the agriculturist is insuperable, it might be considered whether each union board could become a temporary bank lending money advanced by Government from a public loan. For a year after the first instalment had been advanced there would be no work to do and there would be time to get the account system in working order or to arrange for independent banks to take over the credits and liabilities. Whether any scheme is possible or not with this end in view the members who are doubtful still unhesitatingly recommend that debt conciliation and adjustment should be taken up on as wide a scale as possible. They are of opinion that the fact that the machinery of the Certificate Department will be available for realising their dues instead of the civil court and that the Certificate Officer will himself be responsible on application for taking the initiative and that the lands of the debtors will be attached all the time the instalments are being paid will be sufficient inducement, more especially perhaps to the creditors of families who are deeply in debt and from whom they cannot expect any voluntary payments. Though this is not exactly clear from the Bill some of the members contemplate that the Revenue Officer will be responsible for receiving all monies due to creditors and that the creditors will get nothing direct. This seems to be a heavy burden to put on the Revenue Officer, but it would avoid disputes and the giving of insufficient credit for payments actually made.

12. The next question was how far the working of the Act should be treated as an experiment. This is largely a matter of words because the scheme must be an experiment. It is obviously impossible to deal with the debts of 39 lakhs of families simultaneously. It has been assumed that no Board can deal with more than 600 cases a year and that it would take 680 Boards to cover the Province in three years even if their attention is confined to the 12-30 lakhs of solvent families with between 2 and 8 acres of land. (Appendix III.)

The Board contemplate that as a beginning one Board should be constituted in every Chankidari Circle Officer's jurisdiction at once with the Circle Officer or a Munsif as President and that a second officer, preferably a junior Sub-Deputy Collector or a Settlement

Kanungo should be appointed as his executive officer and Certificate Officer. Two or three retired Government officers or non-officials would be members, and after this Board had acquired some experience each of the original members would go out with new members to work as subsidiary Boards independently. There are at present 179 Circles in Bengal and circles where there were many applications and where the work prospered would gradually be split up into two, each with its own Circle Officer and executive officer. The number of panels or subsidiary Boards in each circle would depend on the quality of the people available as members and the general progress. In order to complete the programme in three years, on an average each Board would have to be divided eventually into 6 or 7 subsidiary Boards working independently. The operation of the Act would be an experiment in the sense that its working would be constantly watched and its system varied as defects became apparent; further, considerable variations would be allowed in different areas to give an opportunity of testing various methods. But to judge the success of an experiment of this nature from the point of view of determining whether it was possible to prevent the agriculturists getting into debt again or whether in reasonable number of cases no loss at all to Government was involved would take 10 or more years. The Board are strongly of opinion that the scheme should not be treated as an experiment from this point of view; they say that similar schemes have been successful in one Indian State and that Government must act on the presumption that it will be a success, because no alternative has been suggested by anybody and there is absolute agreement that the present indebtedness of the agricultural population and the inability of the mahajans to recover their full dues and to lend out more money even in urgent cases call for drastic remedies. It has been argued that as there is no other scheme to fall back on if this is a failure, it must be made a success by profiting from the mistakes and correcting the procedure, and altering the law. A set determination to proceed with the scheme in spite of failures and losses here and there will rally in its favour all workers social and political.

The Board do not, therefore, recommend that the Act should be applied only to a few districts or to one thana or subdivision even in each district.

13. It was the main recommendation of the District Administration Committee that Government should have their own resident officer in units as small as possible. It is the proposal of others including the Indian Chamber of Commerce that there should be in every group of unions resident officers to bring into co-ordination the work of the Agricultural, Industries, Co-operative and other departments. The scheme of our Board would work in with all these proposals of which the object was closer touch between Government and the people in the villages. Circles would become smaller and their Circle Officer would have wider and more diverse duties. With the help of their executive officers they might revise and then maintain the record-of-rights in their circles, they would execute all certificates, inspect co-operative banks and enforce jute restriction and other schemes connected with the economical development of the villages.

14. As regards the cost of the extra staff required, it is proposed that there should be a levy of 1½ per cent. in court-fee stamps on every application for adjustment and that the Circle Officer should

realise all instalments and pay the creditors and that there should be a levy of 3 per cent. on all sums collected and paid. If the creditors eventually paid these fees it would be much cheaper than the costs they would have incurred in civil courts.

15. The Bill as drafted provides for the reduction of the debts of insolvents to the amount they can pay in not more than 20 instalments. If a man's property is only worth 60 per cent. of his total debts, the mahajan by selling him up in the civil court would not realise as much as 60 per cent. of his claims. It is argued therefore that the creditors cannot lose by agreeing to such adjustment and the relief the scheme will give to such people is far more valuable than the relief solvent debtors will obtain. Sir M. Benthall after first being in favour of taking up the easier cases first is now of opinion that the definite objective should be to deal with the more difficult cases first. The majority of the Board are not in favour of limiting the operation of the Act as drafted to any particular class of debtors either in the first stage or eventually. In every area the class of cases given preferential treatment will depend on circumstances, e.g., if funds were available for paying instalments, then the money available should be used to benefit as many individuals as possible and cases of indebtedness of less than Rs. 200 might be taken up first: If any restriction is imposed the Board suggests that no cases of indebtedness exceeding Rs. 1,000 should be taken up and that families with more than 8 acres should be left out on the ground that such people could sell some of their land and look after themselves. If further restriction is necessary families with less than 2 acres could be left out because it is doubtful if such families can ever support themselves on the proceeds of their land alone. If their mahajans are willing to leave them alone and to get what they can gradually, Government would be doing the debtors no good by interfering. If they are in debt to any great extent it is impossible to prevent them becoming landless labourers sooner or later because they have no surplus wherewith to pay interest or principal of any debt.

16. One of the points raised in the Government note was the prevention of future borrowing. Mr. N. Sarkar was very anxious that future borrowing should not be restricted too drastically. A man might want to buy more land and temporary borrowings to buy seeds, etc., might be necessary in many cases. The Board are of opinion that when say 6 out of 8 instalments have been paid there is no reason why the debtors should not be able to borrow again for productive purposes and they do not think that the provisions of the Bill as drafted will prevent it.

On the other hand the Bill seems to go far enough in preventing further borrowing. Until the awarded debt is discharged, the would-be lender will have no security except the ornaments or personal credit of his borrowers. Proceedings of the magnitude contemplated cannot go on anywhere in secret and the money-lenders should not be allowed to plead ignorance if before issuing a loan they have failed to ascertain whether the borrower has taken advantage of the Act or not.

17. All the members have agreed that arrear rents except those barred by limitation should be included in the certificated award and that possibly they should be given priority of payment; nearly all the members have agreed that the different tenancies of the debtor should

be attached on the analogy of section 64 of the Civil Procedure Code, until the awarded debt is paid off. But there are great difficulties in providing for the regular payment of current rent. The award will not be of much use to the creditors if in the meantime the tenant defaults and the landlord sells the holding under the Tenancy Act. But the landlords will resist the proposals vigorously if they think that their long admitted right to treat rent as a first charge is being encroached on. At first it was proposed that section 168 of the Tenancy Act should apply but this merely means that if the first sale subject to the encumbrance of the awarded debts fails, another sale free of this encumbrance will take place. The next proposal was that the debtors should be responsible for producing their rent receipts before the Revenue Officer each year, and that if they failed to do so he should take action under the Certificate Act, as if an instalment had not been paid. The proposal in the Bill is that the landlord can bring a suit for current rent, but he must give six months' notice before proceeding to execution. That would, it is thought, give time for the creditors to arrange for payment.

18. During the past few years there have been combinations of raiyats not to take settlement of purchased holdings and it is well known that certificates against the members of bankrupt co-operative banks filed by a liquidator are seldom successful. Past experience shows that there is a considerable danger that if defaults are common in any neighbourhood and many villagers are sold up, nobody will buy the land for fear of litigation and that the creditor, whether he be Government or a land mortgage bank or a private individual if he has to purchase, will not be able to settle the land. It was suggested that in the case of sales under this Act the purchaser should acquire the land with a clear title and only be responsible for money claims as compensation to any co-sharer who declared that he was not a party to the proceedings. Opinions are divided, but it seems doubtful if the general public would at present consent to any such special provision. If the Collector has the power to deliver possession to the purchaser by ejecting the old tenant or his sub-lessees, pending the decision of title in a regular civil suit, it is possible that if the public approve the principles and are satisfied that the instalments fixed for payment were well within the capacity of the debtor to pay, they will have no sympathy with defaulters and that the difficulty will not often arise. Section 14AAA as incorporated in the Bill for the consideration of Government may suggest lines on which a solution of the difficulty may be found.

19. The members are practically unanimous that interest on the awarded debt should not exceed 6 per cent. Whether it will be necessary to calculate this annually and to add it to the instalments is not certain. If Government or a bank advanced the amount it would be convenient if they could wait till all the instalments had been paid and then collect an extra instalment when the debtor was otherwise free from debt to cover all interest and expenses.

20. When the Bill was first drafted it was assumed on the analogy of the Central Provinces Bill that all awards would be registered. Most of the members are now of opinion that the registration will be unnecessarily expensive and troublesome. The awards will be filed in the office of the Conciliation Board or when the Board ceases to function in the office of the Revenue Officer who will carry on the executive functions of the Board. Record in this office should be given the effect of registration by the Act.

Explanatory Statement to Appendix III.

Estimate for Debt Conciliation work in Faridpur.

(The total number of families of the raiyats with occupancy rights in land has been taken from the total number of earners of the cultivating class shown in the Census Tables. Probably this is an overestimate because some families have more than one "Earner".)

Number of families of classes A, B and C debtors are 145,000, 57,000 and 60,000, respectively.

Progress of work—

600 cases per Board per year for whole-time Board.

Disposal of work in 3 years—

81, 32 and 33 Boards in all 146 Boards would be required for A, B and C classes, respectively.

Cost for each Board—

	Per mensem.
	Rs.
One Revenue Officer	200
„ Orderly	1
„ Clerk Peshkar	50
„ Enquiry Agent	30
Fixed travelling allowance for Enquiry Agent	10
Peon	12
Boat hire, etc., for non-official members of Board	20
Contingencies	8
Total ..	320

There are 9 circles in the district, each on an average with one Sub-Registrar, one Circle Officer, one Sub-Inspector of Schools and one Co-operative Auditor. Altogether they will give 18 officers' work if they work half time. If only one Revenue Officer be given for each circle and the works of the Boards are done to a large extent by non-official agency, the actual extra cost incurred by Government on gazetted officers will be the pay of these 9 Revenue Officers only. Each Subsidiary Board will, however, require its own clerk and peons and Enquiry Agent. Assuming, however, that half the pay of all existing Government officers proposed to be employed on this work should be included in the scheme. The calculation of cost is as follows:—

	Rs.
9 Revenue Officers for three years, 36 half-time officers or 18 officers, i.e., 27 officers in all for three years at Rs. 200 per mensem	1,94,400

(2) Such Board shall consist of a Chairman and as many more members as the Local Government may appoint. The Local Government may, for reasons to be recorded in writing, cancel the appointment of any member or dissolve any Board.

(2A) After the dissolution of any Board, the Local Government shall have power to appoint an officer to exercise all or any of the powers conferred under this Act on a Board as may be determined and notified by the Local Government.

(3) The Chairman and every member of a Board so established shall be appointed for a term not exceeding three years, but shall be eligible for reappointment on the expiry of his term.

(4) The Local Government shall have powers to delegate its powers under this section to the Commissioner of a Division.

(5) The quorum of a Board shall be prescribed by the Local Government.

(6) Where the Chairman and members of a Board are not unanimous, the opinion of the majority shall prevail, and if the Board is equally divided, the Chairman shall exercise a casting vote.

Procedure on receipt of application.

7. (1) On receipt of an application under section 6, the Board shall pass an order fixing a date and place for hearing the application :

(2) Notices of the order under sub-section (1) shall be delivered to creditors and where the debtor is not the applicant notice of the order under sub-section (1) shall be delivered to him in such manner and in such form as may be prescribed in this behalf by the Local Government.

Attachment of debtor's property.

7A. At the time of making an order admitting an application under section 4 of this Act or at any subsequent time before final disposal under any of the provisions in the Act, notwithstanding anything contained in any enactment for the time being in force, the Board may, either of its own motion or on the application of any creditor, order the attachment of the whole or any part of the property in the possession or under the control of the debtor in his own right.

N.B.—The question was raised whether a clause similar to rules 58-61 of Order XXI of the Civil Procedure Code should be inserted here to provide for the summary adjudication of claims against the debtor, whose property was being attached. Section 19 might give the Board the necessary power to review its order of attachment on good cause being shown, but it was doubtful. If the words "in his own right" do not serve the desired purpose, it might be necessary to qualify possession as "legal" possession.

78. Where an attachment has been made any private transfer or delivery of the property attached or any interest therein shall be void as against all claims enforceable under the attachment.

Private transfer or delivery of attached property void.

79. (1) Where the property is immovable, the attachment shall be made by an order prohibiting the debtor from transferring or charging the property in any way and all persons from taking any benefit from such transfer or charge.

Order of attachment and its publication.

(2) The order shall be published in any manner the Local Government may prescribe.

8. (1) If, after examining the debtor or the creditor, the Board is of opinion that it is desirable to effect a settlement it shall deliver, send or publish in such manner as may be prescribed, a notice calling upon every creditor in case of an application under section 6, sub-section (1) or the debtor in case of an application under section 6, sub-section (2) to submit a statement as prescribed in section 6 and shall post a copy of the same in the Union Board office where the creditor or debtor as the case may be resides. Such statements should be submitted to the Board in writing within a month from the date of posting the copy in the Union Board office.

Notice calling upon debtor or creditors to submit statements of debts.

In case of an application by a creditor under section 6(2), the Board shall in manner prescribed on receipt of the debtor's statement call upon his other creditors as disclosed from the statement to submit a statement as prescribed in section 6(2):

Provided that, if the Board is satisfied that any creditor or the debtor was for good and sufficient cause, unable to comply with such directions within the time fixed, it may extend the period for the submission of his statement of the debts owed to or by him.

(2) Every debt, of which a statement is not submitted by a creditor to the Board in compliance with the provisions of sub-section (1) shall be deemed to be the amount as stated in the debtor's application subject to the provisions of sections 12, 14 or 14A.

9. Every creditor submitting in compliance with a notice issued under sub-section (1) of section 8 a statement as prescribed in sub-section (2) of section 6 shall furnish, along with such statement, full particulars of all such debts and shall at the same time produce all documents (including entries in books of account) on which he relies to support his claims, together with a true copy of every such document:

Procedure on submission of statement of debts.

Provided that a decree or order of a Civil Court shall be conclusive evidence as to the amount of the debt to which the decree relates, but the amount may be reduced in accordance with the provisions of sections 12 (1), 14 and 14B.

(2) The Board shall, after marking for the purpose of identification every original document so produced and verifying the correctness of the copy, retain the copy and return the original to the creditor.

(3) If any document which is in the possession or under the control of the creditor is not produced by him as required by sub-section (1), the document shall not be admissible in evidence against the debtor in any suit by the creditor or by any person claiming under him.

(4) The Board shall disallow any debt which may be found to be collusive and set forth to defraud other creditors. The reasons for such finding shall be recorded in writing.

Board to attempt amicable settlement.

10. The Board shall call upon the debtor and each creditor to explain his case regarding each debt, and shall use its best endeavours to induce them to arrive at an amicable settlement.

Power of Board to require attendance of persons and production of documents and to receive evidence.

11. (1) Any Board empowered under this Act may exercise all such powers connected with the summoning and examining of parties and witnesses and with the production of documents as are conferred on Civil Courts by the Code of Civil Procedure, and every proceeding before the Board shall be deemed a judicial proceeding.

(2) Any person present may be required by a Board to give evidence or to produce any document then and there in his possession or power.

Power of the Board to dismiss application.

11A. If no award is made under sections 12, 14 or 14B, or if in the opinion of the Board any applicant fails to pursue his application with due diligence, the Board shall dismiss the application.

Award in case of amicable settlement of 60 per cent. of debts, its registration and effect.

12. (1) If the debtor and creditors to whom not less than sixty per cent. of the total amount of the debtor's debts are due come to an amicable settlement, the Board may, following the same principles to the extent it considers equitable, make a settlement of all the debts in writing in the form of an award recording the amounts payable to each creditor and the manner in which and the times at which they are to be paid and the rates of interest payable till the awarded amount is liquidated. Such award shall be read out and explained to the parties present, and shall be signed or otherwise authenticated by the Board.

(2) An award made under section 12(1) shall be registered in the office of the Board and the effects shall be the same as if it had been registered under the Indian Registration Act 1918, and it shall then take effect as it were a decree of the Civil Court.

13. (Omitted.)

14. (1) If for any reason no settlement is made under section 12, but the Board is of opinion that the debtor or any of the creditors has made a fair offer, it may frame an award covering all the debts of such debtor following the principles of fair offers made by certain creditors as regards the dues of the remaining creditors. The award shall contain the same particulars regarding the amounts payable to each creditor and the manner in which and the time at which they are to be paid and the rates of interest payable till the awarded debts are liquidated as provided for in the preceding section.

Award in case of fair offer by any of the parties.

(2) In no case under this section shall a loan be reduced to an amount less than the original principal, except with the consent of the particular creditor concerned.

14A. (1) Notwithstanding anything contained in this Act in all proceedings before a Board, it shall give priority to secured debts, and the mortgage or any lien on a debtor's property shall subsist till the whole of the amount, for which an award has been made in respect of such debt, has been duly discharged.

Priority of secured debts.

(2) All questions of priority between secured creditors shall be determined by the Board in accordance with the priority of the dates on which the instruments creating such securities were executed.

(3) The Board shall arrange the creditors in such order of priority as it thinks fit having regard to the date on which the debts were incurred, and other circumstances which the Board considers relevant and shall make an order for the allocation among the creditors according to their priority as determined and in proportion to the amounts shown against each and shall specify in each case the latest date upon which the instalment is to be paid commencing from the next agricultural year. The Board shall assign payment of the amount of each instalment as far as practicable to two or three creditors to avoid multiplicity of payments.

14AA. (1) If a debtor defaults in paying any amount due in accordance with the terms of an award registered under sub-section (2) of section 12, or under sub-section (1) of section 14, such amount shall be recoverable as a public demand on the application of the creditor made within ninety days from the date of default.

Recovery of sums due under award.

(2) Where the Collector fails to recover as a public demand any part of such amount, he shall certify that it is irrecoverable and thereupon the award shall cease to subsist.

(3) Where an award ceases to subsist, any amount which was payable under such award, but has not been paid shall be recoverable as if a decree of a Civil Court had then been passed for its payment.

List of landed properties of debtors to be circulated and published.

Effect of sale on default.

Adjustment of an insolvent's debt, and award for the same.

Failure to pay instalment by an insolvent.

14AAA. (1) When an award has been made and registered, a list of the landed properties which are the security for the debt will be published by circulation to the landlords of the same and by affixing in the Union Board office.

(2) Notwithstanding anything contained in any enactment for the time being in force, if no objection to the title or possession of the debtor is filed before the Board within 12 months, or if an objection is filed and disallowed and no civil suit is filed against the decision within 3 months and subsequently the property is sold for default of the debtor to pay his due instalments, the property shall vest in the purchaser.

14B. Notwithstanding anything contained in the Provincial Insolvency Act, 1920, when a Board after consideration of a debtor's properties and income from other sources and all his debts records a finding that there is no prospect of the debtor being able to repay the whole of his debts even if instalments are spread over 20 years, the Board may reduce the debts with due regard to the value of the debtor's property and other income and fix instalments for the payment of the same according to the paying capacity of the debtor and make an award to such effect. The award shall be drawn up signed, authenticated and registered in the same manner and shall contain the same particulars as laid down in section 12. It shall have the same effect as an award under the same section.

15. (1) When an award has been made under the foregoing section if the debtor fails to pay the instalments as fixed in the award and the Board does not think fit to grant extension of time for payment it shall be lawful for the Board to sell the property excluding only that area of land which is actually in use by the debtor for the purpose of his dwelling-house and owned by such debtor, in such manner and after such time as may be prescribed in this behalf by the Local Government.

(2) When all the assets of the debtor have been realised under sub-section (1), arrears of rent shall be a first charge; if there are any secured creditors the Board shall first pay to each secured creditor, the proceeds of any assets held as security up to the secured debt due to him as adjusted by the Board. Where the amount of such proceeds is insufficient to meet the total amount of such debt, the creditor shall rank in respect of the balance of such debt as an unsecured creditor. The remaining sale-proceeds will be distributed rateably.

(3) The Board shall then grant a certificate to the debtor discharging him from any further liabilities with respect to the debts so liquidated.

16. Notwithstanding anything provided for in the preceding sections 12, 14 and 14B no application shall be entertained by the Board regarding any debtor who is a member of a Co-operative Credit Society without the previous approval in writing of the Registrar of Co-operative Societies.

- (d) any debt disallowed by the Board under section 9 (4).

(2) When an application has been made to a Board under section 4, any suit or other proceeding then pending before a Court in respect of any debt for the settlement of which application has been made shall be stayed, until the Board had dismissed the application or made an award. If an award has been made, the suit shall be struck off with permission to file a new suit, if the award ceases to subsist before the claim as adjusted by the Board is paid.

APPENDIX V.

Extract from Notes on Economic Enquiry in the Rangpur District by the Settlement Department.

An enquiry was made of the economic condition in 11 villages of 508 families with 3,272 persons giving an average of 6.4 persons per family.

The classification of families according to standard of living is difficult and there was no uniformity. However from the figures as they stand one-ninth of the villagers are living in starvation, i.e., they have just sufficient to keep themselves alive and no more or of whom it can be said that there is definite evidence of under-feeding or real lack of clothing. This probably represents a fairly pessimistic view of the standard of the country. Against this, between one-third and one-quarter of the families representing one-third of the persons can on any view be described as in comfort.

Those who have less than 1 acre of khas land may be styled landless. They can have little land besides their homesteads. They amount to a quarter of families and a little less than one-fifth of the individuals.

The compilation of figures shows that 29 per cent. of the families are free from debt. This is a more serious condition of indebtedness than that found in Faridpur by Mr. Jack. In that district about 1906-07, 55 per cent. of families of cultivators and 59 per cent. of all families were found to be free from debt.

Debt in some measure is determined by credit. The fact that in every village except one the proportion of families free of debt exceeds the proportion of individuals show that the "free of debt" class contains more than a proportionate share of small families while although the landless class form only one-quarter of the total families they form three-eighths of the families free of debt. Only four out of the twenty-six big family groups possessing 10 or more acres of khas land are free of debt.

Any opinions as to why indebtedness is now more widespread in south-east Rangpur than it was in Faridpur 25 years ago, must necessarily be based on mere speculation. One may surmise that the present enquiry took place at a time when debt was very prevalent. A period of high prices has been followed by three or four years of low prices; prices of jute and paddy being only a third of what they were five or six years ago. Before cultivators adapted themselves to the new low level of prices they certainly took recourse to loans to maintain their expenditure and in the first two years of falling prices there was still ample cash in the hand of money-lenders, available for lending.

The total debt is really an artificial figure. Villagers were asked what loans they had taken. Then after learning the rate of interest and the amount said to have been repaid, the present value of the debt was worked out by simple arithmetic. By this method, a sum of Rs. 40 borrowed in 1928 at 48 per cent. per annum and Rs. 25 repaid, is calculated at Rs. 130, and Rs. 50 borrowed in 1928 at 37½ per cent., and Rs. 18 repaid, as Rs. 143. These rates of interest, which ordinarily vary from 3 per cent. per month to 1 anna in the rupee per month (36 per cent. to 75 per cent. per annum) can only be regarded as nominal. It is unlikely that any Court would decree such

sums as are due according to the strict letter of the bonds, and Mahajans certainly compound with their debtors for much smaller sums. The original principal of outstanding loans was Rs. 66,000; while even after deducting sums repaid the present nominal value is Rs. 1,10,000. Probably the effective debt—what the money-lenders reasonably expect to receive—is not much more than half this sum.

One small matter calls for note. When calculating the present value of debts, the outstanding value of complete usufructuary mortgages was calculated at a share of the capital sum borrowed, proportionate to the outstanding period of the mortgage. Thus if Rs. 50 was borrowed on complete usufructuary mortgage for ten years from 1336 to 1345, the present value was shown as Rs. 25, i.e., $5/10 \times 50$.

Causes of debt.—Circle Officers were asked to find out the reason for borrowing each loan. It is well known that many loans, or rather acknowledgments of debts, are not new money, but only renewal of old loans. Officers were asked to discover the causes of the original loan; and this instruction was usually followed. For loans totalling about one-eighth of the present value, no cause was given, or the reason was "to pay off old loans." Of the rest, more than a third is described as incurred for purchase of food, clothing or household expenses. More than a fifth is said to have been borrowed because of marriages. Purchase of land or payment of nazar, and purchase of cattle are the next largest classes of debt and these four groups together account for four-fifths of the total debt. Immediately the query arises, "can we trust the villagers' own statements about the reason for borrowing?" It is not possible to obtain any evidence to check their statements and it can only be said that at any rate they have given consistent statements about the cause of debt to five different officers. The biggest cause of debt "food, clothing, and household expenses" calls for comment. One Circle Officer thinks that this is a reason for borrowing, which does not occasion any shame; and such debts are mentioned freely, where others may be concealed. But such borrowing is bound up with the agricultural system of the area. This is a paddy importing area. Jute is sold, and articles purchased when there is cash in hand. Paddy, however, is bought on credit throughout the year, and if the cultivator has not the cash to pay off the debt, he takes the easy course of executing a hand-note. This is another reason for believing that much of the rural debt, although expressed in cash values, is not really borrowing in cash. It is also likely that the sums so borrowed by account with mahajans include some loans taken for other purposes, such as payment for rent. But it is not suggested that all the borrowing is in kind; and for reasons given later, it seems likely that at any rate before the slump, or in the early days of falling prices, there was considerable cash borrowing. Articles such as oil, dal, and clothes have to be bought for cash down. In days of prosperity, much of the expenditure on these must have been done with borrowed money. Figures show how frequently marriage ceremonies occasion debt, and also that litigation considered in relation to the country as a whole is of no particular importance as a cause of debt, though individual families may be ruined by litigation. In all, only 38 families out of 508 which formed the subject of the enquiry, said they had ever incurred any expenditure for litigation. Seventeen of the 38 lived in the two villages which were nearest to Gaibandha.

Of the outstanding debts, the greater part was borrowed in the three years 1928, 1929 and 1930. Since then the amount of borrowing has slackened off. The villagers were asked to give their debts. They naturally described the debt as it stands after the last hand-note executed, or after the latest composition with their creditors. It is never possible to distinguish how much debt is new money and how much is in satisfaction of existing debts by execution of fresh hand-notes, but from what is known of the amount of money available in different years it is reasonable to assume that many of the loans taken between 1928 and 1931 were new money. Loans incurred before 1928 seem to have been nearly all satisfied, and since 1931 there has been little borrowing. The debt which must now be settled is that incurred in the period 1928 to 1931. This is not likely to be liquidated by fresh borrowing from the mahajans and rural banks which were the main sources of credit in the past. Leaving aside the possibility of any large scale debt relief under Government auspices, it is probable that creditors will compound the debts on terms which are fair and equitable to both parties. Sigus are not wanting that this is actually being done. A fair proportion of the loans which were stated to have incurred in 1934 are known to be compoundings of previous debts,—commonly on the "Kistibandi" principle. In a "Kistibandi" settlement the debt is fixed at a certain sum which is to be paid off in so many instalments without further interest. This indeed, is not always a method of settling loans; sometimes a new loan is given on terms that it will be paid off in instalments. There is no provision for interest, but the sum mentioned in the bond is greatly in excess of the actual sum borrowed. However Rs. 3,411 out of the Rs. 4,521 said to have been borrowed in 1934, is fairly certainly settlement of old loans.

The Rent-situation.—Figures average out at 2½ years' rent in arrears at the end of 1340 (rents for 1340, if unpaid were classed as arrears). But it must not be understood that no rent has been paid for the last 2½ years. These are arrears which have accumulated gradually, and rent is still paid in part.

Again, it is certain that many cultivators are even, in the best of times, in arrears with their rent. During field work, or attestation one commonly finds receipts given in 1335 for rent due in 1333 or even earlier, and this at a time when the prices of agricultural produce were the highest ever recorded.

In mouza Manmanthapur the sum nominally payable on debts was Rs. 1,097, but only Rs. 200 were paid in 1340 B.S. In Kachua, out of Rs. 2,379 due, only Rs. 154 is reported to have been paid. This shows that if the sums payable on debts according to the stipulation in the bonds were actually paid, cultivators would pay more to mahajans in interest, than they pay to their landlords in rent. Actually, they are now paying their landlords much more than they are paying their mahajans.

Family budgets.—Figures given for family budgets must be accepted with caution. Compilation is beset with traps for the unwary, but all officers worked on the same principle. They endeavoured to find out the family consumption of rice, and then entered the value, in current prices, of the paddy equivalent. Dal, mustard oil, spices, salt, tobacco, clothing and kerosine are normally bought for cash. Here the usual, and safest method of proceeding was to find out how much was spent

at every hat, and then to multiply until the annual expenditure was found. This method lends itself to magnifying every error, but produced notably consistent results by the different officers. For fish, meat, vegetables, milk and betel nuts it was tried to proceed on the principle of asking how much was bought at every hat, and for how many months. Then it was tried to find out how much was obtained by own production, or how much fish was caught by the family, and then was assigned a value to the quantity, adopting current market prices. This may not be strictly accurate, but is the best possible. In Faridpur Mr. Jack thought it impossible to give a cash value to the fish caught and consumed by the family. The officers have done the best they could by asking what would have been the price of the fish if bought; or for how many months in the year fish was bought and then giving a proportionate value to the fish caught.

The importance of rice in the cultivators' diet is apparent. The cash value of rice consumed is everywhere (except one mouza) given at from two-thirds to three quarters of the cash value of the total food stuffs consumed.

Excepting rice, the expenditure on other items of recurring expenditure, clothing is evidently the biggest item. Tax has been shown as a recurring charge as even now unlike rent and interest it is paid regularly. If in any village there is much unpaid or irregular payment the cause will certainly be not economic difficulty, but slackness among the collecting authorities. At an average of 4 annas per head per year, the Union Board rate only amounts to about "1/64" to "1/80" of the expenditure on food.

The article which shows the most consistent level of consumption is salt. The consumption works out at 9 or 10 kutchas seers per head per year (including salt for cattle). The demand is completely inelastic.

No figures have been given for item of "spasmodic" expenditure, such as cost of births, marriages and deaths, and cost of house building and repairs. The Faridpur method was followed, when averaging these costs to one year. It was assumed that one birth, one marriage and one death would occur to every member of the family in 30 years, and the aggregate cost of one of each class of ceremony for each member was divided by 30 to give an annual figure. The method cannot be vouchsafed to be actuarially sound; but it was peculiarly liable to error in the circumstances of the present, when standards of expenditure have fallen heavily in the last 5 years. People are at best vague when giving the cost of a wedding. Some may give the amount which they would like to spend or think ought to be spent, and others are guided by their ideas of what was spent in the last wedding in the family. This may have been 5 years ago, when there was much more money available.

Similarly no total of "income" or expenditure has been given. Figures show a consistent excess of expenditure over income; even if allowance be made for non-payment of the rent and interest which is due according to the record-of-rights and the terms of bonds.

It is believed that villagers consistently tend to underestimate their income and some of the richer may for "prestige" exaggerate their expenditure.

Note for the Statistical Sub-Committee by the Secretary to the Board of Economic Enquiry.

Regarding the problem of rural indebtedness, Government have referred under paragraph 4 (i) of Resolution No. 6159-Com., dated the 1st December 1933, concrete suggestions in broad outlines for conducting enquiries by the Board of Economic Enquiry in the Note for the Board, which has been circulated.

These are—

- (1) Prevention of extravagance in new borrowing.
- (2) The liquidation of existing debt by—
 - (a) Debt conciliation on voluntary basis of debts up to Rs. 1,000.
 - (b) Compulsory adjustment of accumulated interest.
 - (c) Rural Insolvency Act.
- (3) Reorganisation and expansion of co-operative societies including land mortgage banks on paper lines, and setting up of other approved credit institutions to take over adjusted debts.

It has been pointed out that the schemes suggested above will depend entirely on two essential features, viz.,—

- (a) Existence of sufficient surplus to pay off the adjusted debt.
- (b) Existence of co-operative banks, or other approved credit institutions to take over the adjusted debt.

The Sub-Committee is concerned with enquiry under (a).

Statistical Registers, Reports and Lists containing general information.

There are registers in each district office based on the Revenue Survey in the middle of the last century showing the villages under each pargana and the area appertaining to each separate estate within the village as also the villages or portions of them appertaining to each estate, the area of each estate lying within each village, the land revenue for each estate. In the Land Revenue Administration Reports published annually by the Government the total number of estates permanently and temporarily settled and also under direct management in each district, the land revenue and road and public works cess payable, the amounts paid, the amount of arrears, the prices fetched at public auction and various other information is given. The reports on the management of the Court of Wards also published annually give the rentals, collections and arrears, debts and repayment of each estate under its management. The Annual Report of the working of Co-operative Societies in Bengal gives information regarding (1) number of societies, (2) number of members, (3) amount of loans, (4) loans due by individuals, (5) overdues and (6) repayment by members and other details.

Various laws have been passed for codifying the rights and status of cultivators, the latest amendment of the Bengal Tenancy Act gives them right to transfer their lands without the consent of landlords. The provisions for enhancements of rents of cultivators are mainly on the basis of higher rates prevailing for similar lands in the neighbourhood

and in consideration of the rise in prices of the staple food during the currency of the present rent. For the investigation of the latter by Courts a Statutory Price List of Staple Food-crops in the Local Areas of Bengal is published quarterly and an annual compilation made therefrom by Government in the Revenue Department under section 39 of the Bengal Tenancy Act. This is only for "rice" which is the staple food-crop of Bengal.

The Director of Agriculture publishes weekly with the Weather and Crop Reports the price of common rice for the subdivisional stations of districts. He also publishes a fortnightly Prices Current (retail) of common rice and salt in some specified marts of every district. A fortnightly Prices Current (wholesale) is also published by him of some important marts in the Presidency of the prices of paddy (unhusked rice)—best and common, rice—best and common, wheat, raw cotton, coal, raw jute, and gur (sugarcane). All these prices are published in the Government *Calcutta Gazette*. The Season and Crop Report gives the harvest prices of the following crops for each district, viz., winter and autumn rice, wheat, barley, gram, gur (unrefined), cotton, linseed, rope and mustard, jute and tobacco leaf.

The agency employed for the collection of statistics is the same for both departments, who are responsible local officers. Their duty requires them to visit every mart personally and ascertain the information from respectable shopkeepers.

To safeguard the interests especially of cultivators, who generally hold no leases for their lands, a record-of-rights, district by district, was undertaken to be prepared by Government since 1900 and these will be completed within the next 3 or 4 years. The record-of-rights involves a survey and enquiry of each plot of land, preparation of a record showing the fields appertaining to each tenancy, the classification of land of each plot, the rent paid to the landlord, the rights under which the tenancy is held and other details of the tenancy. Similar record is prepared for every tenure-holder under a proprietor and for the proprietor as well, thus giving a comprehensive record of all interested in land. During the course of preparation of record-of-rights of a district various items of statistical information have been collected, for the district as a whole.

These are mainly (1) the different classifications of lands and the area under each, (2) the area under different crops, (3) the statistics of land tenure, i.e., the distribution of land under different classes of owners, the incidence of rent and cess, (4) Agricultural stock statement showing the number of ploughs, carts, boats, etc., and the live-stock.

Report and Enquiries regarding economic position with special reference to indebtedness.

In some of the earlier operations, detailed statistics have been collected regarding the economic condition of the people of the districts—the most detailed of these is that of Faridpur the main results of which have been collected in Major Jack's book "Economic Life of a Bengal District." Most of the original statistical forms and the detailed tabulation from which the tables in the book have been compiled covering over one hundred volumes are in the Record-room of the Faridpur Collectorate. Detailed enquiries regarding indebtedness were

also made in Dacca and Jessore districts. Settlement Reports of Dacca, Mymensingh, Midnapore and Jessore of the three districts of East, West and Central Bengal will show the estimate of the economic position by the Settlement Officers. Crop-cutting experiments were conducted by officers for ascertaining the yield and the results further verified by reliable enquiries from cultivators themselves. Typical family budgets of cultivators were also prepared in course of preparation of record-of-rights. All these informations have been incorporated in the Final Reports of Settlement Operations of districts. It is not possible to enumerate the different heads of subjects dealt with in these reports, which are all printed. At present the Final Reports of following districts with years of operation are available:—

- (1) Bakarganj (1900-08),
- (2) Faridpur (1904-14),
- (3) Dacca (1910-17),
- (4) Mymensingh (1908-19),
- (5) Midnapur (1911-17),
- (6) Bankura (1917-24),
- (7) Noakhali (1914-19),
- (8) Tippera (1915-19),
- (9) Jalpaiguri (1906-16),
- (10) Rajshahi (1912-22),
- (11) Pabna (1920-29),
- (12) Bogra (1920-29),
- (13) Nadia (1918-26),
- (14) Jessore (1920-24) and
- (15) Khulna (1920-26).

The Settlement Reports of Murshidabad, Birbhum and Chittagong are under preparation and that of the 24-Parganas has not yet been published. Settlement Operations are in progress in the districts of Burdwan, Malda, Hooghly and Rangpur and Dinajpur and Howrah will be taken up next year.

Information regarding economic position has been collected from time to time.

In 1926, Mr. Burrows, the then Collector of Faridpur, made an intensive enquiry of a village in Faridpur district at the instance of the Royal Commission on Agriculture. An extract from his report regarding indebtedness is appended to the Report of the Commission.

The Bengal Banking Enquiry Committee had an intensive enquiry in 1929 through non-official and official agencies about the economic position of agriculturists, in selected areas of certain districts. The forms filled in by the enquirers are available. Apparently the Committee did not make much use of the results as they "suffered somewhat in precision and thoroughness." The results of the intensive enquiry in one village Karimpur of the Bogra district have been utilised in the Report of the Committee.

An enquiry was made by the Collectors in November of 1933 and March of 1934 regarding the stocks of crops held by cultivators and generally into their economic position.

The latest enquiry on a detailed basis have been called for in Form No. 1 and No. 2 which were circulated to all the members of the Board at the first meeting. It has been arranged that for the 25 plains districts in Bengal, there will be enquiries made in about 200 villages. The enquiry will be limited to the families of persons paying fixed rents or having rights of occupancy in land as these classes of people form the major portion of the agricultural population and also they have good security to offer on which mortgaged loans may be given.

It will be for the Sub-Committee to consider which of the information contained in statistical Registers, Reports, Lists and Forms may be utilised directly or indirectly for the purposes of their enquiries regarding the proportion of cultivators with the requisite margin. The Sub-Committee may indicate the lines on which any of these should be tabulated and collated and devise the form for such tabulation and collation. If, however, the available materials are found to be insufficient to form an estimate of the proportion referred to in the Government Note, the Sub-Committee may indicate if further investigations are necessary. Also if the materials available will not serve the purpose of arriving at the required estimate, it may suggest in what other form information should be collected and the agency for conducting the enquiry.

Note for the Sub-Committee to investigate the possibility of debt conciliation and liquidation amongst agricultural population (by the Secretary, Board of Economic Enquiry).

The object of this note is to summarise the legislations and the administrative measures introduced from time to time for dealing with indebtedness in general, and of agriculturists in particular. The executive measures undertaken have also been dealt with. Their defects and shortcomings have been prominently brought forward in paragraphs 12 to 19 with a view that the Sub-Committee may, in devising legislative and executive measures for dealing with the question, advise as to the means by which they can be avoided or rectified.

(A) General Legislations.

I.—History and legislation regarding Money-lending.

2. *Rule of Damdupat.*—According to Hindu Law, the rule of damdupat is that the interest exceeding the amount of the principal cannot be recovered *at a time*, though the total amount paid from time to time may far exceed the capital. This rule of law is not now applied to the whole of India. It is applied to the Presidency of Bombay, the Provinces of Berar and Sindh, Santal Parganas and the portion of the City of Calcutta within the jurisdiction of the Original Side of the High Court. But it does not apply to the Presidency of Bengal outside the area mentioned above. This rule is not applicable in Madras.

The rule of damdupat only exists so long as the relationship of debtor and creditor exists but not when the contractual relation has come to an end by reason of a decree.

The principle of damdupat is not applicable to a decree for paise mortgage nor to interest accruing after the institution of the suit. The interest on arrears may be capitalised by subsequent agreement, but prospective interest cannot be capitalised. The rule of damdupat is not affected by the Transfer of Property Act and the Indian Contract Act or the Acts relating to interests.

But it is so restricted that there is no limit to the amount of interest if the interest be paid in smaller sum than the principal. In this view, a judicial officer urged before the Provincial Banking Enquiry Committee that the rule to be really effective a creditor shall never be able to receive more than double the amount advanced and it should be made a Statutory Act (*vide* Replies to Special Questionnaires at page 27 of the Bengal Provincial Banking Enquiry Committee's Report, Volume III—Evidence).

The rule of damdupat was accepted in principle in enacting the Bengal Money-lenders' Act, 1933. In section 4 it is enacted that in case of loan prior to the commencement of the Act, the Court shall limit the amount of arrears of interest to the amount of principal unless there be satisfactory reasons for not enforcing the claim earlier. Section 6 of the Act, which comes into force throughout the Presidency from the first of July 1934, enacts that no Court shall, in respect of any loan made after the commencement of the Act decree on account of arrears of interest a sum greater than the principal of the loan and an amendment to insert "together with interest already paid" was rejected.

3. *Rule for adjustment of debt in 1772.*—Even at the beginning of the British Rule we find that prevalent usury in the province caused concern to the administrators. On taking over the administration of the province, Warren Hastings saw its evil effects and in 1772 the Committee of Circuit framed the following rule regarding adjustment of debts and rates of interest:—

"That in adjusting the claims of old debts it shall be observed as a rule that they bear no further interest after such adjustment but that the amount shall be payable by *kistibundee* (instalment) according to the circumstances of the party, and as the rates of interest hitherto authorised by custom have amounted to the most exorbitant usury, the following rates are now established to be received and paid as well for past debts as on future loans of money, viz., on sums not exceeding 100 rupees principal, an interest of 3 rupees 2 annas per cent. per mensem or $\frac{1}{2}$ anna in the rupee. On sums above 100 rupees principal, an interest of 2 rupees per cent. per mensem. The principal and interest to be discharged according to the conditions of the bond and all compound interest arising from an intermediate adjustment of accounts to be deemed unlawful and prohibited; when a debt is sued for upon a bond which shall be found to specify a higher rate of interest than the established rates, the interest shall be wholly forfeited to the debtor and the principal only recoverable; and that all attempts to elude the law by deductions from the original loan under whatever denomination shall be punished by a forfeiture of one moiety of the amount of the bond to the Government and the other half to the debtor."

4. *Regulating Act of 1774.*—By a Regulating Act of 1774 (13 Geo. Ch. 63), the maximum rate of interest as applicable to European British subjects in India was fixed at 12 per cent.

5. *Bengal Regulation of 1780*.—The rates of interest were reduced to twelve per cent. and twenty-four per cent. by a regulation of 1780. The regulation fixed the rate of interest irrespective of stipulation of higher or lesser rates of interest. The full advantage of the regulation for the purpose of adjustment of debts was, however, only taken by land-owners who prayed for adjustment and we find British officers deputed in the district of Mymensingh to adjust debts between zemindars and money-lending Sannyasis. One noticeable point in these adjustments is the simplicity of procedure by which they were arrived at. The officers called for accounts from both parties and after hearing them and examining the papers produced, recorded their decisions in a tabular statement showing the claims of the creditor and debtors and the decision which was a decree.

The compulsory adjustments were, however, only of the interest in cases where it exceeded the rate laid down in the Regulation. The Regulation was embodied in one of the series of Regulations passed in 1793.

6. *Act XXVIII of 1855*.—The laws against usury were repealed in England in the middle of the nineteenth century and following its wake the usury laws in India were repealed in 1855 by Act XXVIII of 1855. The law of damdupat remained in force in the localities mentioned before.

7. *Indian Contract (Amendment) Act of 1879*.—Subsequently, however, the unrestricted usury attracted the attention of Government. By the Indian Contract (Amendment) Act of 1899, the courts could give relief to debtors in cases of unconscionable bargains on proof of undue influence or where the bargain was by way of penalty.

8. *Usurious Loans Act of 1918*.—The Usurious Loans Act of 1918 empowered a court, where there is reasonable ground to believe that the rate of interest was excessive and the transaction was substantially unfair, to reopen the transaction and relieve the debtor of excessive interest even though there is an agreement to close previous dealings and open a new account.

9. *Usurious Loans (Amendment) Act of 1926*.—The Usurious Loans (Amendment) Act of 1926 empowered suits by debtors and for redemption of securities. The period of limitation was extended to twelve years. These are the all-India legislations directed against usury.

(B) Provincial Legislation.

10. Provincial Legislations against usury and regularisation of money-lending are summarised below:—

(1) *The Punjab Regulation of Accounts Act, 1930*.—It prescribes the keeping of accounts by creditors and the supply of statements of these accounts every six months to individual debtors.

(2) *The Bengal Money-lenders' Act, 1933*.—The Act applies the rule of damdupat as stated before. It lays down that rates of interest above 15 per cent. in case of secured loans and 25 per cent. in case of unsecured loans or where there is a stipulation of rest at intervals of less than six months are to be presumed to be excessive under Usurious Loans Act. It prohibits the recovery of compound interest at rate of more than 10 per cent. This Act enables the debtor to obtain full particulars of his debt from his creditor.

(3) *The Usurious Loans Central Provinces (Amendment) Act, 1931.*—It follows the Bengal Act.—It lays down that where the rate of interest is more than 18 per cent. in cases of unsecured loan or more than 12 per cent. in case of secured loans or where there is a stipulation for rests at intervals of less than six months the rate of interest may be deemed to be excessive. The rate for future loans has been put at 10 per cent.

(4) *The Assam Money-lenders' Act of 1934.*—The Assam Money-lenders' Act of 1934 has been recently passed. It is on the lines of the Bengal Act but the rates of interest have been reduced.

Similar provincial legislations are in contemplation in the Central Provinces, Bombay and the Punjab.

(C) Special Legislation for Agriculturists.

11. Special Legislations have also been undertaken from time to time in other provinces to protect agriculturists. The most important of these are the Deccan Agriculturists' Relief Act of 1879 and the Punjab Land Alienation Act of 1900.

The Deccan Agriculturists' Relief Act of 1879.—As to the working and amendments of the former, a reference is invited to Enclosure A which contains extracts from the Report of the Royal Commission on Agriculture.

The following extract from the report of the Committee appointed by the Bombay Government in 1920, to consider the repeal of the Deccan Agriculturists' Relief Act is interesting:—

"It must be acknowledged that since 1912 the economic condition of agriculturists as a class has much improved and it promises to improve still more as the country advances in industrial development. We think, therefore, that the time has come for bringing agriculturists under the provisions of the law which apply to other classes."

12. *The Punjab Land Alienation Act of 1900.*—The Punjab Land Alienation Act of 1900 came into force in 1901. Its main object was to prevent the small peasant proprietor being expropriated by the village money-lender. By it the non-agriculturists classes have been greatly restricted in the acquisition of land, they are not allowed to buy land from a member of the agriculturist tribe nor may they take it in mortgage from the latter for more than twenty years. At the end of the period the mortgage automatically lapses without payment and so the nominal value of a debt secured by mortgage varies with the age of the mortgage. Mr. Darling remarks that there is general agreement that this form of mortgage is disliked by all but the idler cultivators as it involves parting with land for a long period and debars an owner from taking advantage of the rising value of land to redeem a portion of it in a year or two. But it has given opportunity to agriculturist money-lender. The *Sahukar* deprived by the Act of the security of the land can only lend up to the limit of what can be repaid from the produce; but the agriculturist money-lender to whom the Act does not apply can afford to lend up to the value of the land. The latter is therefore in a stronger position of the two; and ultimately he is the more formidable for his object is the land and to obtain it he will press his client till he is compelled to sell. On the other hand the *Sahukar* depending solely on the produce hesitates to drive a client to extremes lest he should give up producing. At first after the passing of the Act, there was restriction of loan and consequent decrease of debt (from

Rs. 16 crores to Rs. 9 crores decades 1893-1902 to 1903-12) but with advance in prices and owing to the growth of agriculturist money-lenders the situation adjusted itself and the debt rose to Rs. 30 crores in the decade 1913-22. Thus "with the tendency of all protective legislations to defeat its own object, the Act fostered the growth of the agriculturists money-lender and borrowing soon became easy as ever."

13. *Restriction of transfer of land under Chapter VIIA of the Bengal Tenancy Act.*—Restriction against lease or transfer of land by aboriginal tribes as contemplated in Chapter VIIA of the Bengal Tenancy Act was enacted in 1918 but it affords no real protection. The evasion is effected by the aboriginal leaving the land under pressure of the money-lender and executing a deed of relinquishment in favour of the landlord and then the money-lender or the intending purchaser gets settlement from the landlords. So in the end the value which could have been secured by open sale is not obtained. In Malda, the application of the Chapter amongst the Santals and the Oraons has failed because to save distraint of their crops on account of debts, the Collector had to agree to usufructuary mortgages.

14. *The United Provinces Agriculturists' Relief Act, 1934.*—The United Provinces Agriculturists' Relief Bill, 1934, has been passed by the Legislative Council but has not yet received the assent of His Excellency the Governor. Its main provisions are:—

- (i) To empower courts when passing decrees against agriculturists to fix instalments payable on fixed dates which may extend over a period of four years in the case of small agriculturists and over twenty years in other cases
- (ii) To limit the rate of interest admissible after a decree has been passed to 2 per cent. in certain cases and 3 per cent. in other cases.
- (iii) To empower courts to fix instalments even in cases in which decrees have been passed before the passage of the Bill.
- (iv) To restrict mortgages with possession made after the passage of the Bill to mortgages which give possession with the right to all the profits of the land for a fixed period not exceeding twenty years on the condition that that period of possession will satisfy the debt.
- (v) To facilitate the redemption of mortgages.
- (vi) To limit the rates of interest on loans taken after the passage of the Bill to rates notified by the local Government as the prevailing rates. The rates to be so notified will be based on, though they will exceed, the rate at which of the local Government of India.
- (vii) To limit the rates of interest recoverable on loans taken since 1st January 1917.
- (viii) To prescribe rates of interest recoverable on loans after a sum equal to 100 per cent. of the principal in the case of secured loans and 150 per cent. in the case of unsecured loans has been realised or has accrued as interest.
- (ix) To empower courts to reopen decrees passed on loans incurred since 1st January 1917, and to pass amended decrees for the amount payable if the interest were limited as in (vi) above.
- (x) To require creditors to maintain a correct account for each agriculturist debtor for each loan separately and to supply the debtor annually with a statement of such account.

15. As has been stated in paragraph 2 of the Government Note, these legislations cannot afford a complete solution of the problem of rural indebtedness, although they should relieve some of the worst evils of uncontrolled usury.

Paragraph 4 of the Government Note regarding prevention of extravagance in new borrowing is for prohibition by legislation, recovery of any charges in regard to new debts by the legal process of the sale of the land and crops belonging to the debtor. But the provisions of such restrictions are not to apply to new loans granted by Co-operative Credit Societies, Land Mortgage Banks and other approved organisations. It is presumed that the principle underlying the suggestion is that while restrictions are to be imposed on new loans from outsiders, the credit of cultivators which has been enlarged greatly by the transferability of holdings is not to be decreased in any way and they will be able to take loans for legitimate and necessary purposes from approved credit organisations at fair rates of interest. It is the restriction of improvident borrowing from unscrupulous money-lenders which is to be aimed at by legislation.

16. Inculcation of the principles of thrift by co-operative organisations had not any marked effect on the members of the Rural Co-operative Societies as will be seen from the following summary of replies of some of the Central Co-operative Banks regarding their constituent rural societies.

In the case of Khulna Central Co-operative Bank, 'as regards the total amount of indebtedness of the members of the rural societies whereas the outside debt had been reduced, the total indebtedness has not been reduced.' This is said to be due to the fact that 'the landed properties on the whole have been increased.' But at the same it is remarked that although the Central Bank does not allow members of affiliated societies to raise loans from outside they do it surreptitiously.

The Nalhati Central Bank reported that all debts of 41 rural societies were paid off by Central Bank in different periods, but a regrettable feature was that all of these societies had incurred debt again.

The Dacca Central Bank reported to have reduced the debts of 6,685 individual members of rural societies to outside creditors from Rs. 7,65,299 to Rs. 4,91,894. The Comilla Central Bank reported to have minimised borrowing by members.

It is for the Sub-Committee to consider on what lines legislation should be undertaken—either by the amendment of present legislation or by new legislation—for restriction of new borrowing generally or supplementary to any legislation for debt adjustment.

II.—*Debt Conciliation on a voluntary basis.*

17. In paragraph 6 of the Government Note, debt conciliation on voluntary basis has been dealt with. The operation hitherto undertaken in the different provinces has been like ordinary arbitration except that it is carried on by Government officials; the proceedings have no support or authority from any legislative enactment. An account of such operations in the Central Provinces is given in the Indian Banking Enquiry Committee's Report. It will be seen that creditors often repented of their generosity but probably owing to Government officers making the settlement did not renege from the settlement.

18. *Settlement with money-lenders by the Co-operative Department.*—An interesting note on "Settlement with Mahajans" in the Pabna district is given in the Bengal Co-operative Journal, 1919. The principal was Rs. 13,406-5-9, interest Rs. 12,152-11-9, total Rs. 25,559-1-6. By settlement the creditors accepted Rs. 10,136 in cash, Rs. 5,658-15-6 to be paid by instalment. The writer remarked:—"The co-operative worker finds the Mahajan quite content sometimes to accept the original principal in cash either in one sum or by the instalment system, because it gives him fresh ready money for investment."

19. *Redemption of mortgages amongst the Mundas.*—Redemption of mortgages was once undertaken by the Bengal Government for the Mundas. An account of this from the Bihar and Orissa Banking Enquiry Committee's Report is summarised below:—

In 1904, an enquiry was undertaken by Government of Bengal regarding usufructuary mortgages by Mundas in the Ranchi district. They were classified under two heads—

- (a) mortgages, the amounts of which are less than the value of the lands mortgaged;
- (b) mortgages the amounts of which exceed the value of lands mortgaged.

No action was proposed to be taken against (b), as regards (a), Government proposed to distribute loans under the Agriculturists' Relief Act. The Deputy Commissioner did not recommend the scrutiny of debts with a view to reducing those which were found to be exaggerated on the ground that legislation would be required and the general result would be unsatisfactory. In actual working the cases in which debt exceeded the value of land and in which the term of mortgages expired or was about to expire were taken up. The lands were mortgaged to Government and the recovery was by annual instalment, the period of repayment varying with the proportion that the debt bears to the value of the holding.

It was found that for an area 1,250 square miles, the total amount of the mortgages was Rs. 4,73,580. In cases involving Rs. 85,505 the estimated value of land exceeded the amount of the mortgage.

During the first year (1906) Rs. 70,191 was distributed as loans. During the next year Rs. 36,000 was distributed. During the third year Rs. 17,178 was advanced. In 1910, only Rs. 4,112 was actually distributed. In 1910, the Deputy Commissioner doubted the value of the scheme. He pointed out that Rs. 1,48,368 had been advanced. Out of the total amount due in repayment and interest over 41 per cent. stood unrecovered. The collection was mostly by certificate procedure. The Subdivisional Officer of Khunti reported that the loans have entirely failed in their object.

20. *The Central Provinces Debt Conciliation Act, 1933.*—Copy of the Central Provinces Debt Conciliation Act is given in Enclosure.

21. *The Madras Debt Conciliation Bill.*—The Madras Debt Conciliation Bill is intended to apply to agriculturists whose debts exceed Rs. 150 and is to be restricted in the first instance to debtors whose debts aggregate to below Rs. 25,000. Leave to introduce this Bill was granted by the Legislative Council on the 18th March 1934. It follows generally the lines of the Central Provinces Debt Conciliation Act.

22. Several points have been suggested in the Government Note in this connection for the consideration of the Board. These are:—

- (1) The desirability of such legislation.

It may be stated that necessity for legislation is to give powers to the agency employed for the purpose of debt conciliation to bring together the parties, to have their statements as also of witnesses and lastly to record the agreement arrived at and register it so as to give it validity.

- (2) The agency for such conciliation.

The agency in the Central Provinces is a debt Conciliation Board set up by Government. Some competent authorities in this province are, of opinion, that instead of a Board the work can be done more expeditiously by itinerant Revenue Officers of the status of Sub-Deputy Collectors conversant with local conditions.

- (3) The amount of debt that should be taken up by the conciliation authority.

The ~~proposal~~ proposal is to restrict conciliation of debt up to Rs. 1,000.

- (4) The area that should be selected for the operation of the Act.

III.—*Compulsory Reduction of Interest.*

23. In paragraph 7 of the Note, Government have referred the question of compulsory reduction of interest. The scheme set forth provides for legislation under items (c) and (d). It is for the Sub-Committee to consider the lines on which legislation shall be undertaken. The Central Provinces Debt Conciliation Act provides for certification of debt in case there be no voluntary agreement between the parties, and the amount of debt so certified is to be recovered like voluntarily adjusted debts through Civil Courts. The Government scheme, however, contemplates under (a) the taking over of such debts by Co-operative Credit Societies, Land Mortgage Banks or other approved credit institutions, and so consequently the necessity of enquiry about surplus income as in (b) arises. In the circumstances, it is perhaps necessary for the Sub-Committee to consider on what lines legislation under (c) and (d) should be based to safeguard the institutions under (a). In view of the fact that the creditors will get back the amount of adjusted debt either in cash or its equivalent in good securities, it may be contemplated that the adjustment should be on liberal basis from the debtor's standpoint.

IV.—*Rural Insolvency Act.*

24. In paragraph 8 of the Government Note, the Board has been asked for opinion as to legislation for a Rural Insolvency Act. In the Reports of the Royal Commission on Labour and the Civil Justices

Committee there are references to insolvency regulations. It will be for the Sub-Committee to decide the form of Rural Insolvency Act suitable for the province.

The points for consideration and decision of the Sub-Committee may be summarised as follows:—

1. What class or classes of agriculturists (according to the definition of the Bengal Tenancy Act) may be considered as having good security to offer or whose credit is reasonably good?

2. Taking the classification under 1, what is the proportion of such class of agriculturists in debt who (a) cannot meet their existing debt obligations given the present level of prices of agricultural produce or (b) are unable through existing ordinary credit organisations to raise money on reasonable terms. (The decision will be mainly based on the report of the statistical Sub-Committee.)

3. Are any measures desirable and practicable:—

(a) For the reduction of debt of such class of agriculturists in the first instance?

(b) For restraining them from borrowing from outsiders in the future, if their present debts are reduced and transferred to a recognised credit society.

4. Is legislation of an emergency or a permanent character necessary to create statutory powers—

(a) For the carrying out of debt conciliation schemes on a voluntary basis?

(b) For the compulsory reduction of interest?

(c) For the compulsory recording of debts or licensing of money-lenders.

(d) In the form of a Special Rural Insolvency Act?

(e) For restraining fresh borrowing except for valid reasons?

5. If legislation is decided on, is it desirable to have a Special Sub-Committee from the member of the Sub-Committee to frame the scheme of such legislation?

6. If so, what should be the personnel of such Special Committee and the terms of reference and the time by which it should report? (The terms of reference may be for drafting in the form of Bills on the different items as in 4.)

3. (1) *Establishment of Debt Conciliation Board.*—The local Government may establish a Debt Conciliation Board for any district or part of a district. Such Board shall consist of a Chairman and two or more members, not exceeding five, including the Chairman, to be appointed by the local Government which may, for reasons to be recorded in writing, cancel any appointment and dissolve any Board.

(2) The Chairman and every member of a Board so established shall be appointed for a term not exceeding one year. Such Chairman or member may, on the expiration of the period for which he has been appointed, be again appointed for a further term not exceeding one year.

(3) A Board shall have such quorum as may be prescribed.

(4) Where the Chairman and members of a Board are unable to agree, the opinion of the majority shall prevail. Where the Board is equally divided the Chairman shall have a casting vote.

4. (1) *Application for settlement between debtor and his creditors.*—A debtor or any of his creditors may apply to the Board appointed for the area in which any holding, land or village of the debtor or any part thereof, is situate, to effect a settlement between the debtor and his creditors:

Provided that no application shall be made if the debtor's debts exceed twenty-five thousand rupees or such larger amount as may be prescribed for each area.

(2) No debtor or creditor shall simultaneously make more than one application, and where applications have been made by the debtor and any of his creditors, the applications made by the creditors shall be merged in the application made by the debtor.

5. *Verification of applications.*—Every application to a Board shall be in writing and shall be signed and verified in the manner prescribed by the Code of Civil Procedure, 1908 (V of 1908), for signing and verifying plaints.

6. (1) *Particulars to be stated in application.*—Every application presented by a debtor to a Board shall contain the following particulars, namely:—

- (a) a statement that the debtor is unable to pay his debts;
- (b) the place where he resides;

(2) Every application presented by a creditor shall contain the following particulars, namely:—

- (a) the place where the debtor resides; and
- (b) the amount and particulars of his claim against such debtor.

7. (1) *Procedure on application.*—On receipt of an application under section 4, the Board shall pass an order fixing a date and place for hearing the application:

Provided that the Board may at any time dismiss the application if, for reasons to be stated in writing, it does not consider it desirable to attempt to effect a settlement between the debtor and his creditors.

(2) Notice of the order under sub-section (1) shall be sent by registered post to the debtor or creditors, as the case may be.

8. (1) *Notice calling upon creditors to submit statement of debts.*—If, after examining the debtor, it is in the opinion of the Board desirable to attempt to effect a settlement between him and his creditors, a notice shall be issued and served or published in the manner prescribed calling upon every creditor of the debtor to submit a statement of debts owed to such creditor by the debtor. Such statement shall be submitted to the Board in writing within two months from the date of service or publication of the notice, as the case may be:

Provided that, if the Board is satisfied that any creditor was, for good and sufficient cause, unable to comply with such directions, it may extend the period for the submission of his statement of the debt owed to him.

(2) Every debt of which a statement is not submitted to the Board in compliance with the provisions of sub-section (1) shall be deemed for all purposes and all occasions to have been duly discharged:

Provided that, if a creditor proves to the satisfaction of the Board or a civil court that the notice was not served on him and that he had no knowledge of its publication, the Board or Court may revive the debt.

9. (1) *Procedure on submission of statement of debts.*—Every creditor submitting a statement of the debts owed to him in compliance with a notice issued under sub-section (1) of section 8 shall furnish, along with such statement, full particulars of all such debts and shall at the same time produce all documents, including entries in books of account, on which he relies to support his claims, together with a true copy of every such document.

(2) The Board shall, after marking for the purpose of identification every original document so produced and verifying the correctness of the copy, retain the copy and return the original to the creditor.

(3) If any document which is in the possession or under the control of the creditor is not produced by him as required by sub-section (1), the document shall not be admissible in evidence against the debtor in any suit brought by the creditor or by any person claiming under him.

10. *Board to endeavour amicable settlement.*—The Board shall call upon the debtor and each creditor, respectively, to explain his case regarding each debt and shall endeavour to induce them to arrive at an amicable settlement.

11. (1) *Power of Board to require attendance of persons and production of documents and receive evidence.*—Subject to the provisions of sections 132 and 133 of the Code of Civil Procedure, 1908 (V of 1908), and to rules made under section 25 a Board shall have power to summon any person whose attendance it considers necessary either to be examined as a party or to give evidence as a witness or to produce any document for the purposes of any inquiry under this Act.

11. (2) Any person present may be required by a Board to give evidence or to produce any document then and there in his possession or power.

12. (1) *Agreement of amicable settlement, its registration and effect.*—If the creditors to whom not less than forty per cent. of the total amount of the debtor's debts are owing come to an amicable settlement with the debtor, such settlement shall forthwith be reduced to writing in the form of an agreement recording the amounts payable to such creditors and the manner in which and the times at which they are to be paid. Such agreement shall be read out and explained to the parties concerned, and shall be signed or otherwise authenticated by the Board and the parties:

Provided that, when a co-operative society is one of such creditors, no settlement, in so far as it affects the debts owing to such society, shall be valid without the previous approval in writing of the Registrar of Co-operative Societies.

(2) An agreement thus made shall, within fourteen days from the date of its making, be registered under the Indian Registration Act, 1908 (XVI of 1908), by the Chairman of the Board in such manner as may be prescribed and it shall then take effect as if it were a decree of a civil court.

(3) For the purpose of the registration of an agreement under sub-section (2), the Chairman of the Board shall be deemed to be an officer of Government empowered to execute such agreement within the meaning of section 88 of the Indian Registration Act, 1908 (XVI of 1908).

13. (1) *Recovery of sums due under agreement.*—If a debtor defaults in paying any amount due in accordance with the terms of an agreement registered under sub-section (2) of section 12, such amount shall be recoverable as an arrear of land revenue on the application of the creditor made within ninety days from the date of default.

(2) Where the Deputy Commissioner fails to recover as an arrear of land revenue any part of such amount, he shall certify that it is irrecoverable and thereupon the agreement shall cease to subsist.

(3) Where an agreement ceases to subsist, any amount which was payable under such agreement but has not been paid shall be recoverable as if a decree of a civil court had then been passed for its payment.

14. *Power of Board to dismiss application.*—If no amicable settlement is arrived at under sub-section (1) of section 12, the Board shall dismiss the application.

15. (1) *Grant of certificate by Board in respect of certain debts.*—Where, during the hearing of any application made under section 4, any creditor refuses to agree to an amicable settlement, the Board may, if it is of opinion that the debtor has made such creditor a fair offer which the creditor ought reasonably to accept, grant the debtor a certificate, in such form as may be prescribed, in respect of the debts owed by him to such creditor.

(2) *Power of Court to disallow costs or interest.*—Where any creditor sues in a civil court for the recovery of a debt in respect of which a certificate has been granted under sub-section (1), the Court shall, notwithstanding the provisions of any law for the time being in force, not allow the plaintiff any costs in such suit, or any interest on the debt after the date of such certificate in excess of simple interest at six per cent. per annum on the amount due on the date of such certificate.

(3) Where, after the registration of an agreement under sub-section (2) of section 12, any unsecured creditor sues for the recovery of a debt, other than a debt incurred subsequent to such agreement, in respect of which a certificate has been granted under sub-section (1) or any creditor sues for the recovery of a debt incurred after the date of such registration, any decree passed in such suit shall, notwithstanding anything contained in the Code of Civil Procedure, 1908 (V of 1908), not be executed until all amounts recorded as payable under such agreement have been paid or such agreement has ceased to subsist.

16 *Bar of civil suits.*—No civil court shall entertain—

(a) any suit in respect of—

(i) any matter pending before a Board, or

(ii) the validity of any procedure or the legality of any agreement made under this Act, or

(iii) the recovery of any debt recovered as wholly or partly payable under an agreement registered under sub-section (2) of section 12 from any person who, as a debtor, was party to such agreement, whether such agreement is subsisting or not, or

(iv) the recovery of any debt which has been deemed to have been duly discharged under sub-section (2) of section 8, except a debt which is revived under the proviso to that sub-section;

(b) any application to execute a decree, the execution of which is suspended under sub-section (3) of section 15.

17. *Avoidance of certain transfers of debtor's property.*—Every transfer of property made, with intent to defeat or delay the creditors of the debtor, after an application has been made to a Board under section 4 and until the agreement registered in respect of such application has ceased to subsist, shall be voidable at the option of any creditor so defeated or delayed.

18. *Bar of appeal or revision.*—No appeal or application for revision shall lie against any order passed by a Board.

19. *Power of Board to review its order.*—A Board may, on the application from any person interested made within ninety days of the passing of an order, review any order passed by it and pass such order in reference thereto as it thinks fit:

Provided that no order shall be varied or reversed unless notice has been given to the persons interested to appear and be heard in support of such order.

20. *Appearance of party before Board by agent but not by legal practitioner.*—In any proceedings before a Board any party may be permitted to appear by an agent authorized in writing, but not by a legal practitioner.

21. *Suspension of pending application or suit.*—When an application has been made to a Board under section 4, any suit or other proceedings then pending before a civil court in respect of any debt for the settlement of which application has been made shall be suspended until the Board has dismissed the application or an agreement registered under sub-section (2) of section 12 has ceased to subsist.

22. *Submission of reports by Boards regarding sums due to Government.*—Where in the course of an inquiry into an application made under section 4 a Board finds that there is any sum owing to Government on account of loans advanced under the Agriculturists' Loans Act, 1884 (XII of 1884), or the Land Improvement Loans Act, 1883 (XIX of 1883), or otherwise, the Board shall report this fact through the Deputy Commissioner to the Commissioner.

23. *Allowance of time for limitation.*—In calculating the period of limitation for any suit filed in, or proceeding before, a civil court for the recovery of a debt which was the subject of any proceedings under this Act, the time during which such proceedings had continued shall be excluded.

24. *Members of Board deemed to be public servants.*—The members of a Board shall be deemed to be public servants within the meaning of the Indian Penal Code (XIV of 1860).

25. *Power to make rules.*—In addition to any power specially conferred by this Act, the local Government may make rules—

- (a) prescribing the quorum for, and regulating the procedure before, a Board;
- (b) prescribing the manner in which notices shall be issued and served or published under sub-section (1) of section 8;
- (c) prescribing the charges to be made by a Board for anything done under this Act and the persons by whom and the manner in which such charges shall be paid;
- (d) prescribing the records to be kept and the returns to be made by a Board;
- (e) prescribing the allowances, if any, to be paid to the Chairman and members of a Board;
- (f) regulating the power of a Board to summon parties and witnesses under section 11 and the grant of expenses to witnesses;
- (g) prescribing the place at which and the manner in which an agreement shall be registered under sub-section (2) of section 12;
- (h) prescribing the form of certificate to be granted under sub-section (2) of section 13 or sub-section (1) of section 15; and
- (i) generally, for the purpose of carrying into effect the provisions of this Act.

26. (1) *General provision regarding rules.*—All rules for which provision is made in this Act shall be made by the Local Government and shall be consistent with this Act.

(2) All rules shall be subject to the condition of previous publication.

(3) In making any rule the Local Government may direct that a breach thereof shall be punishable with fine which may extend to fifty rupees, and, where the breach is a continuing one, with further fine which may extend to ten rupees for every day after the first during which the breach has been persisted in.

Note for the Sub-Committee on the organisation and provision of financial machinery for the purpose of liquidating agricultural debt (by Secretary, Board of Economic Enquiry).

This note is a rough attempt to review the respective tasks before the Statistical Sub-Committee and the Financial Sub-Committee. To a great extent it appears their work will overlap.

The Statistical Sub-Committee will examine all the information bearing on the extent of the indebtedness of the agricultural population and the resources at their command for paying interest and their prospects of clearing it. The intensive enquiries of over 7,000 families are being analysed and figures of income, expenditure and debt, will be supplied separately for those families whose debts (a) exceed 2 years' income, (b) are between one and two years' income, and (c) are below one year's income. It is hoped that the Statisticians will be able to advise how far these figures can be taken as representative of different parts of the province by comparing and testing items of information which have been previously collected for the whole province, e.g., the average number of persons in a family, the average amount of land held, the average amount of rent paid, the average produce of different crops. The Sub-Committee as a whole may then be in a position to recommend that the Government scheme of reducing the debt by conciliation and transferring the balance to Land Mortgage Banks, Co-operative Banks, or any other similar institution should be tried in respect of say 40 per cent. of the agricultural families in the province or in certain districts or subdivisions.

2. *Control.*—It has been pointed out in the Government Note that the co-operative movement in Bengal has suffered from inadequate control and guidance. It may, perhaps, be mentioned that Mr. Wolff has often emphasised the need of a considerable measure of Government control in view of the special circumstances of India. The word control represents in all—three different processes, supervision, audit and inspection. Although audit and inspection are provided for in the Co-operative Societies Act of 1912, there is no specific provision dealing with supervision.

The foremost point of importance for decision of the Sub-Committee would, perhaps, be as to the form and nature of control, viz., administrative and financial, that should be exercised by Government with regard to the suggested machineries for taking over the adjusted loans. Because on it will depend the whole structure of the organisation.

If the Sub-Committee decides on a close control and supervision by the Government the nature of control and the approximate strength and cost of the supervising and audit staff required would have to be considered by the Sub-Committee to judge of the feasibility of the proposal.

3. *Finance.*—The next point that may be considered by the Sub-Committee is regarding the financing of the suggested organisations. The defect in the present type of Co-operative Societies, as has been stated in the Government Note, is that they are financed by short-term deposits which is unsuitable to supply the long-term loans required by agriculturists for redemption of debts. The Central Banking Enquiry Committee has suggested that in such cases financing should be by means of debentures as will appear from the scheme of the Committee

in the Statement. The Sub-Committee will be in a position to form an idea of the indebtedness of the different main areas of the province on the estimate of the statistical Sub-Committee.

It may be stated for the consideration of the Sub-Committee that under a properly organised system controlled and regulated by Government, the necessary finances can be raised on more favourable terms. In this connection the possibilities of securing help and advice from the agricultural credit department of the Reserve Bank may be considered coupled with the question of what security can be offered.

After dealing with the two main common points regarding the credit organisation, the Sub-Committee may, perhaps, consider the types of the different organisations that would be suitable to meet the needs of different areas or different classes of debtors.

4. (1) *Co-operative Societies*.—The defects in the present type of Co-operative Societies have been dealt with in the Government Note. It will be for the Sub-Committee to suggest a suitable type of Co-operative Credit Society that can be organised under the existing Act or an amended Act to meet the purpose.

(2) *Land Mortgage Banks*.—In the Statement the schemes for organisation of the Land Mortgage Banks as suggested by the Central Banking Enquiry Committee and that for the experimental banks referred to in paragraph 9 of the Government Note have been shown.

It will be for the Sub-Committee to consider the type that will be suitable in the special conditions prevailing in the province, and if any modifications are necessary.

5. *Approved Credit Organisation*.—Approved credit organisation is a very wide term. It is presumed by some competent observers that they may be institutions financed through Government, e.g., by debentures with interest guaranteed by Government as in case of land mortgage banks or from funds under the control and management of Government or they may be quite independent of the financial help from Government, subject, however, to the close supervision and audit of Government as contemplated before. It has been stated in paragraph 4 of the Government Note that the proposed organisations would be exempt from any restrictions contemplated to be imposed on private money-lenders and in the scheme suggested in paragraph 7, it has been stated that the adjusted debt would be transferred to the credit organisations. It has, however, been strongly emphasised that the credit organisation would require careful supervision, it would not be just to the original creditor to compel him to accept a smaller amount that was due unless it were possible to give him the assurance that his new debtor (the creditor organisation) would not default.

In the case of the first type of approved credit organisations, there is no danger of the assurance being wanting. But considering the vastness of rural indebtedness, which has been estimated by the Provincial Banking Enquiry Committee at rupees one hundred crores, some think it to be worth while to consider the possibilities of utilising the existing credit organisations of individual money-lenders and joint stock companies carrying on loan business. Some restriction has been imposed regarding the keeping of proper accounts and furnishing of the same to a debtor and penalty for non-compliance under sections 7 and 8 of the

Bengal Money-lenders' Act. But if the existing organisations are to take a share in the responsibilities and privileges of the suggested approved credit institutions, they must subject themselves to far greater and closer restriction and supervision.

6. If any scheme for the transference of debt to Government controlled banks is approved, it may be necessary to suggest legislative measures not only for preventing the debtors borrowing outside their own re-organised banks, but to ensure that if the debtors default in payment of interest without very good cause their lands should pass to the Bank without expensive and protracted litigation—the apprehension of which might prevent the bank from being able to sell the lands or settle them with other persons, in which case the banks would be bankrupt in a few years.

Consideration of this difficulty may not be primarily the duty of the Finance Sub-Committee but its ideas on the subject will certainly be welcomed.

7. A statement comparing the schemes for Land Mortgage Banks as suggested by the Indian Central Banking Enquiry Committee and the one adopted by the Co-operative Department, Bengal, is attached.

8. The points for decision of the Sub-Committee may be summarised as below:—

(1) To what extent is it desirable or practicable that adjusted debts should be taken over:

- (a) by Co-operative Credit Societies;
- (b) by Land Mortgage Banks; and
- (c) by approved credit organisations.

(2) In case of 1(a), (i) what should be the scheme of these societies and (ii) what kinds of loans should be financed by them.

(3) In case of 1(b), (i) should these Land Mortgage Banks be formed with direct Government support or through Co-operative Organisations; (ii) what kinds of loans should be financed by them, and (iii) what should be the general scheme of these Banks.

(4) In case of 1(c), what shall be the scheme of approved credit organisations managed directly by Government.

(5) In case of 1(c), if other Credit Organisations managed by private individuals or by joint stock companies are to be approved, (i) what should be the scheme of control and supervision of the organisations by Government, and (ii) what should be the scheme of their management.

(6) In the schemes of different organisations recommended in what cases legislation would be necessary and the frame of such legislation.

(7) In case of legislation should any provision be made in particular for enforcement of mortgage security by any summary procedure for foreclosure and sale.

**Note on the Punjab Bill on relief of indebtedness as modified by
Select Committee**

The Punjab Bill on relief of indebtedness as modified by the Select Committee is divided into 8 parts, viz.—

- (1) Preliminary.
- (2) Insolvency Procedure.
- (3) Usurious Loans.
- (4) Debt Conciliation Board.
- (5) Damdupat.
- (6) Deposit in Courts.
- (7) Amendment of the Punjab Redemption Mortgages Act.
- (8) Miscellaneous amendments of the civil law.

This note summarises the main points on which the Punjab Bill differs from the Bill for the relief of indebtedness drafted for the Board of Economic Enquiry, which is referred to here as "Bengal Bill" for the purpose of brevity.

2. The definition of "Loan" in part I of the Punjab Bill does not differ much from that in the Bengal Bill as they now stand.

3. Part II of the Punjab Bill amends the Provincial Insolvency Act (a) by adding a clause in section 10(1), which has the effect of reducing the minimum assets of an insolvent to Rs. 250 from Rs. 500 and (b) by substituting in section 74 "Rs. 15,000" for "Rs. 5,000" and thus raising the jurisdiction for summary administration of a debtor's property.

It may be noted that there is no minimum proposed in the Bengal Bill which provides in clause 14B for the reduction of an insolvent's debt to his paying capacity by an order of adjustment and for the fixing of instalments for payment accordingly: if there is default in an instalment it provides (in clause 15) for the sale of the insolvent's property excluding his homestead for the rateable distribution of sale proceeds and for granting of a discharge certificate.

4. In part III of the Punjab Bill several amendments of the Usurious Loans Act are contemplated. The main amendment is to the effect that all compound interest shall be deemed to be excessive except on loans from and deposits with Government, local bodies, joint stock companies and co-operative societies and in mortgages by any person other than an agriculturist.

The provisions are to have retrospective effect. There is nothing similar in the Bengal Bill as the Bengal Money Lenders' Act covers them.

5. It is in part IV of the Punjab Bill that the comparison with the Bengal Bill is most interesting.

The definition of "Debt" in the clause 7(1) of the Punjab Bill excludes—

- (a) "Land Revenue" just as "rent" was excluded in the original draft of Bengal Bill. (The Board is now of opinion that "rent" should not be excluded but should be the subject of conciliation just like other debts);
- (b) Debts barred by limitation: This is not of much importance as a time-barred debt is *ipso facto* legally in effective;
- (c) Debts due to co-operative banks and societies, and
- (d) to commercial banks.

There is much controversy as regards exclusion of debts to co-operative societies. The Bengal Bill does not exclude such debts but provides that proceedings which affect them are to be initiated subject to the approval of the Registrar of Co-operative Societies (clause 16). The minority of the Punjab Select Committee notes that the wisdom of excluding co-operative banks is open to question particularly as the Directors of these banks are of the borrowing class: and they hold that these banks require no special protection particularly if as is represented, their dealings are such as to show the utmost consideration for the borrowers.

The Punjab Bill defines "Agriculture" in clause 7(3) as in the English Small Holdings' Act, 1892, 55 and 56 V.C. 31. The Bengal Bill [clause 2(1)] would give it the same meaning as in the Bengal Tenancy Act, where, although it is not defined, it has been interpreted by judicial decisions to include horticulture, etc., "Creditor" and "supplementary income" are defined in the Bengal Bill but not in the Punjab Bill.

The Punjab Bill clause 8(3) provides for fixing the pecuniary limit of a Board's jurisdiction. The Bengal Bill does not fix any limit.

The Punjab Bill (clause 12) does not include a proviso empowering the Board to dismiss an application such as appears in the Bengal Bill (clause 11A).

Consequently the Punjab Bill clause 13(1) makes it obligatory on the Board to issue notices on creditors which the Bengal Bill clause 8(1) provides for issue of notices only if it is thought necessary after examination of the applicant.

The Punjab Bill lays down that if a creditor does not submit a statement of debt after receiving notice, the debt shall be deemed duly discharged [clause 13(2)], but the Bengal Bill [clause 8(2)] provides only that, in such a case, the debt shall be deemed to be the amount stated by the debtor in his application, subject to reduction under debt conciliation.

The Bengal Bill [clause 12(1)] provides for making an award when 60 per cent. of the debtor's debt is amicably settled between him and his creditors, whereas the Punjab Bill [clause 17(1)] provides for an authenticating agreement if "all or any of the creditors" agree (The minority of the Select Committee opposes this on the ground that it is fatal to the whole idea of conciliation. It would be open under the modified provision for a single creditor to effect the rights of other creditors.)

The Punjab Bill clause 17(3) omits provision of registration of an agreement or award such as appears in the Bengal Bill [clause 12(2)], as the Select Committee decided unanimously that the procedure for registration was complex and unnecessary.

Clause 19 of the Punjab Bill deals with the procedure when a creditor refuses a reasonable offer by a debtor: this corresponds to clause 14 of the Bengal Bill but differs fundamentally from it. Both Bills provide for the issue of a certificate or award by the Board in respect of the debts covered by the offer: but in the Punjab Bill the result is merely that a civil court will allow no costs in a suit for these debts and will not allow interest at more than 6 per cent. from the date of the certificate; while the award proposed by the Bengal Bill would have the effect of a decree and would actually reduce the debt though not to a figure below the original principal.

6. There is nothing in the Punjab Bill corresponding to the following clauses of the Bengal Bill:—

- (a) realisation of an amount settled amicably or awarded under clause 14 under the Public Demands Recovery Act, in case of failure to pay instalments as fixed in the award;
- (b) clause 17A(ii) barring execution of a decree for a loan incurred after an award till the amounts covered by them have been paid;
- (c) clause 14A which provides that secured debts should have priority and that the mortgage or lien on the property will subsist till the awarded or certificated debts are paid; and
- (d) clause 23 which provides that an award shall be negotiable and may be transferred to an approved credit organisation.

7. Part V (Damdupat) of the Punjab Bill is not necessary for Bengal in view of the Bengal Money-Lenders' Act.

8. There is nothing in the Bengal Bill to correspond with the following items in the Punjab Bill:—

- (a) Part VI—Deposit in Court.
- (b) Part VII—Amendment of the Punjab Redemption of Mortgages Act.
- (c) Part VIII—Miscellaneous amendments of the civil law. The important provision is clause 33, prohibiting arrest of a debtor except under certain circumstances, one of which is refusing or neglecting to pay the amount of a decree in spite of having the means of paying it.

Clause 34 of the Punjab Bill restricts the prohibition contained in section 60(1) of the Civil Procedure Code against attachment of house or other buildings belonging to and occupied by an agriculturist, by adding the words "not let out on rent or let to others or left vacant for a period of a year or more."

Clause 35 omits rule 2(3) in Order XXI of the Civil Procedure Code, which is to the effect that no payment out of court will be recognised if not certified by a court.

Clause 36 amends section 48 of Civil Procedure Code by making the period of limitation for recovery under a decree six years instead of twelve.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 17th January 1935.

First Forecast of the Wheat Crop of Bengal, 1934-35.

(Note.—On an average of the five years ending 1932-33, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1932-33, averaged (a) 41·4 and (b) 10·8 per cent., respectively.)

Explanatory.—Four forecasts of wheat crop are published. The present forecast deals only with the estimated area sown and the

general condition of the crop in the early stages.

Acreage.—According to the estimates of the District Officers, the total area sown amounts to 151,600 acres this year as against 145,400 and 145,500 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—Rainfall in October and November was sufficient for the preparatory tillage and for the sowings of the crop which generally took place at the usual time. Subsequent weather was helpful for germination and growth. The present outlook is promising, on the whole.

K. McLEAN,

Director of Agriculture, Bengal (offy.).

57. (1) The axle-weight of a heavy motor car shall not exceed the registered axle-weight.

(2) The registered axle-weight of an axle of a heavy motor car shall not exceed eight tons, and the sum of the registered axle-weights of all the axles of a heavy motor car shall not exceed twelve tons:—

Provided that if a heavy motor car—

- (a) draws a trailer which is so partially superimposed upon and attached to the heavy motor car that at all times the weight upon the rear axle of the heavy motor car shall exceed the weight upon the axle of the trailer or
- (b) is provided with six road wheels mounted on three separate axles under a rigid frame and that the distance between the middle axle and the rear axle is not greater than 4 feet 6 inches and is not less than the exterior diameter of the tyre of the largest wheel,

the sum of the registered axle-weights shall not exceed sixteen tons, or

- (c) is provided with six road wheels of which two are mounted on the front axle and four on the rear axle, the latter wheels on each side being mounted one in front of and one behind the axle, the registered axle-weight on the rear axle shall not exceed twelve tons and the sum of the registered axle-weights shall not exceed sixteen tons.

Tyres.

58. No heavy motor car shall be registered unless the car is fitted with pneumatic tyres on all wheels:

Provided that this rule shall not apply to tractors nor to any heavy motor cars which are in use or in stock with dealers or importers on the date on which these rules come into force:

Provided also that the Government may prohibit the driving of a heavy motor vehicle in any public place when in the opinion of the Government the driving of such vehicle would be likely to cause damage to the roadway or danger or inconvenience to the public.

Length.

59. The maximum overall length of a heavy motor car measured from the dumb irons, or, if there are no dumb irons, from the foremost part of the vehicle exclusive of the starting handle must not exceed twenty-seven feet six inches in the case of a four-wheeled vehicle and thirty feet in the case of a rigid frame six-wheeled vehicle:

Provided that if a heavy motor car draws a trailer which is so partially imposed upon and attached to the heavy motor car that at all times the weight upon the rear axle of the heavy motor car shall exceed the weight upon the axle of the trailer, the maximum overall length of the heavy motor car and the trailer so attached shall not exceed thirty-three feet.

Overhang of a heavy motor car.

60. The overhang of a heavy motor car shall not exceed—

- (a) in the case of a heavy motor car not being a tractor, seven twenty-fourths of the overall length of the heavy motor car, and
- (b) in the case of a heavy motor car being a tractor, six feet.

For the purposes of this rule, the expression "overhang" means the distance measured horizontally and parallel to the longitudinal axis of the heavy motor car between two vertical planes at right angles to such axis the one passing through that point of the heavy motor car (exclusive of any hood when down) which projects furthest to the rear and the other passing—

- (i) in the case of a heavy motor car having two axles, one of which is not a steering axle, through the centre point of that axle, and
- (ii) in the case of a heavy motor car having three axles—
 - (a) where the front axle is the only steering axle, through a point four inches in rear of the centre of a straight line joining the centre points of the rear and middle axles, and

 - (c) where all the axles but one are steering axles, through the centre point of the rearmost axle which is not a steering axle, and
- (iii) in the case of a heavy motor car (whether having two axles or having three axles) where all the axles are steering axles, through a point situated on the longitudinal axis of the vehicle and such that a line drawn from it at right angles to that axis will pass through the centre of the minimum turning circle of the vehicle.

Brakes of heavy motor cars.

61. (a) Brakes must be of sufficient strength and be capable of stopping and holding the vehicle under all conditions.

(b) There must be two entirely independent and efficient braking systems or one efficient braking system having two independent means of operation in each case so designed and constructed that notwithstanding the failure of any part of any braking system there shall still be available for application by the driver to not less than half the number of the wheels of the vehicle brakes sufficient under the most adverse conditions to bring the vehicle to rest within a reasonable distance.

In all cases the brakes operated by one of the means of operation shall be capable of being applied by direct mechanical action without the intervention of any hydraulic, electric or pneumatic device.

Where one braking system only is fitted—

- (i) all the wheels of the vehicle shall be fitted with brakes all of which are operated by one of the means of operation; and
- (ii) one at least of the means of operation shall cause brakes to be applied by direct mechanical means, and not through the transmission gear, to not less than half the number of wheels of the vehicle.

Where two independent braking systems are fitted the brakes of at least one of the braking systems shall act directly and not through the transmission gear on at least half the number of wheels of the vehicle.

For the purpose of this rule—

- (i) not more than one front wheel shall be taken into account in reckoning half the number of the wheels of the vehicle;
 - (ii) braking systems shall not be deemed to be entirely independent if they are capable of being applied by the same means of operation;
 - (iii) any shaft, fixed or moving, to which any part of a braking system or any means of operation thereof is connected or by which it is supported shall be deemed to be part of that system.
- (c) The brakes of one of the braking systems shall be applied by a pedal.
- (d) The operation of either brake must not in any case declutch the engine from the transmission gear:

Provided that this clause shall not apply to motor vehicles already registered and in use nor to the motor vehicles in stock with dealers or importers on the date on which these rules come into force.

(e) The brake gear must be properly adjusted and nothing shall be placed on the vehicle which will prevent easy access to the brakes for adjustment.

(f) All brake connections secured with bolts or pins must have such bolts threaded and fitted with nuts, which latter must be locked or pinned.

- Mechanical signalling device.

62. Every heavy motor vehicle including a motor lorry or a motor omnibus shall be fitted with a mechanical signalling device. Such device must fulfil the following conditions, that is to say—

- (a) It shall signal a stop or change of direction in sufficient time to prevent danger to other traffic and in a clear and unmistakable manner by day and night.
- (b) When it signals a change of direction, such signal shall be visible both from the front and the rear on the side to which the vehicle is about to turn, that is to say, on the inner side of the turn.
- (c) It shall be such that the driver can at all times operate and control it from his seat.

Use of heavy motor cars upon bridges.

63. (1) When any authority which is liable for the repair of a bridge affixes or sets up in suitable and conspicuous positions on the bridge and on each approach to the bridge notices stating that the bridge is insufficient to carry a heavy motor car, the registered axle-weight of any axle of which exceeds such weight as may be specified in such notices, the owner of any such car shall not cause or suffer the car to be driven and the person driving or in charge of any such car shall not drive the car upon the bridge.

(2) No owner of a heavy motor car, the axle-weight of any axle of which exceeds six tons, shall cause or suffer the car to be driven, and no person driving or in charge of any such car shall drive the car upon any bridge at any time while another heavy motor car is on the bridge.

Trailers.

64. (1) No trailer shall be used unless it is fitted with pneumatic or resilient tyres of a soft and elastic material:

Provided that the District Magistrate may, for special reasons to be recorded in writing, permit non-resilient tyres if he is satisfied that their width and diameter is such that the vehicle will not damage road surfaces.

(2) The maximum length of a trailer excluding the coupling shall be 14 feet:

Provided that the District Magistrate may by order for special reasons to be recorded by him permit a trailer to be used whose length is in excess of 14 feet upon such conditions as may be specified in the order.

(3) The coupling shall not be more than 4 feet in length; it must be rigid and so constructed as to bear the strain put on it.

(4) Every trailer must be provided with suitable springs between each axle and the frame:

Provided that the District Magistrate may by order for special reasons to be recorded by him permit a trailer to be used without springs between the axle and the frame upon such conditions as may be specified in the order.

(5) No heavy motor car which is used either as a motor omnibus or otherwise for the conveyance of passengers for remuneration or hire shall draw a trailer.

(6) Not more than one trailer shall be drawn by any motor car:

Provided that the District Magistrate may by order for special reasons to be recorded by him permit more than one trailer to be drawn by any such car upon such conditions as may be specified in such order.

(7) A heavy motor car which exceeds twenty-six feet in overall length or which has more than four road wheels shall not draw a trailer.

Marking of trailers.

65. The owner of every trailer shall cause to be painted or otherwise plainly marked on a conspicuous part of the right or off-side of the trailer in letters and figures not less than one inch in height and of such

shape and colour as to be clearly legible and clearly distinguishable from the colour of the ground whereon the said marking is made—

- (a) the weight of the trailer when unladen, and
- (b) the axle-weight of each axle of the trailer and shall cause the said marking to be from time to time repaired or renewed, as often as may be necessary, to keep the said letters and figures clearly legible and clearly distinguishable.

Axle-weight of trailers.

66. The axle-weight of an axle of a trailer shall not exceed four tons:

Provided that if a heavy motor car draws a trailer which is so partially super-imposed upon and attached to the heavy motor car that at all times the weight upon the rear axle of the heavy motor car shall exceed the weight upon the axle of the trailer, the axle-weight of the axle of the trailer shall not exceed $6\frac{1}{2}$ tons.

Determination of axle-weights.

67. (1) Whenever the District Magistrate, or any other officer duly authorised by him in this behalf, has reasonable grounds for suspecting that the axle-weight for the time being of any axle of any heavy motor car or trailer drawn thereby exceeds the registered or marked axle-weight of that axle, he may—

- (a) require the person driving or in charge of the car to drive the car or cause it to be drawn with or without the trailer to a weighing machine, and
- (b) cause the axle-weight for the time being of any such axle to be ascertained.

(2) The person driving or in charge of such car shall comply with any such requirements and shall to the best of his ability afford all such facilities as may reasonably be necessary for the purpose of ascertaining the axle-weight as aforesaid.

Height of load.

68. The load of a heavy motor car or trailer shall not exceed 10 feet from the roadway in height, or overlap the extreme width of the vehicle:

Provided that the District Magistrate may by order for special reasons to be recorded permit the height of a load to exceed 10 feet and/or to overlap the width of the vehicle upon such conditions as may be specified in the order.

Part IV.—Special rules governing Public Service Vehicles.

Limit of Public Service Vehicles.

69. The District Magistrate shall not sanction an application for the registration of a public service vehicle if he is satisfied—

- (a) that there are already an adequate number of public service vehicles in the district; or
- (b) that the plying of a public service vehicle on the route or any addition to the number of public service vehicles on the route on which the applicant intends that the public service vehicle shall ply would involve danger, injury or annoyance to the public.

70. There shall be one appeal to the Divisional Commissioner against an order of the District Magistrate refusing to sanction an application for registration of a public service vehicle. The orders of the Divisional Commissioner shall be final:

Provided that no such appeal shall be entertained unless it is presented within one month from the date of the order appealed against.

Routes.

71. The District Magistrate may, with the view to securing the public safety and the convenience of traffic, define, by reference to terminal points and to the course to be followed between those points, the routes upon which regular services of omnibuses may be established. Any person who proposes to establish a regular service of omnibuses upon a route which is not an approved route may apply to the District Magistrate to define that route as an approved route.

72. When licensing an omnibus to ply for hire, the District Magistrate may attach to any such licence, the following conditions:—

- (a) a condition that the omnibus shall maintain a regular public service on the approved route or routes.
- (b) a condition that the omnibus shall not ply for hire other than on the approval route or routes for which it is licensed,
- (c) a condition that the omnibus shall not be withdrawn from public hire except with the permission of the District Magistrate.

73. (1) The District Magistrate may call on all persons to whom a public service vehicle licence for an omnibus has been granted to deposit, within 14 days of such order, with the District Magistrate, a schedule in such form and identified in such manner as he may require showing—

- (a) the approved routes upon which a regular service of omnibus is maintained,
- (b) the time at which the service on each route is to commence and end on each day,
- (c) the service to be maintained on each such route, distinguishing, if the service to be maintained on different days or at different hours is to vary, the service to be maintained on the several days or at the several hours,
- (d) the maximum number of omnibuses to be used to maintain such service on each such route distinguishing, if the service is to vary on different days, the maximum number to be so used on the several days,
- (e) the stages into which he intends to divide each route and the fares which he intends to charge in respect of such stages, distinguishing, if the stages and fares are to vary on different days or at different hours, the stages and fares on the several days and at the several hours and shall supply to the District Magistrate such number of copies of the deposited schedule as the District Magistrate may require.

(2) With a view to public convenience the District Magistrate may direct that such schedule shall be amended in such respect as he thinks fit.

(3) On the order of the District Magistrate such schedule or amended schedule shall come into force.

The holder of such a licence may, at any time but only at intervals of not less than four weeks, amend any such schedule or substitute a new schedule therefor by depositing with the District Magistrate the proposed amended or new schedule in such form and identified in such manner as the District Magistrate may require, and after the deposit of the amended or new schedule with the concurrence of the District Magistrate, the amended schedule or new schedule, as the case may be, shall come into force.

75. A person to whom a licence for an omnibus has been granted subject to the condition that it shall not ply for hire except in maintaining a regular service, shall, except when prevented by accident or other unavoidable cause, or when otherwise authorised by the District Magistrate establish and maintain a service in accordance with the schedule for the time being in force with respect to his omnibus and shall not use for the maintenance of any service omnibuses other than those specified in such schedule, and shall not charge different fare or fares with respect to different stages from those specified in the schedule.

76. Where, as respects any route or part of a route, the Governor in Council is of opinion that by reason—

- (a) of the width of the road or part of the road or the density of traffic thereon, or
- (b) of the existence of alternative facilities for the conveyance of passengers along that route or part of the route or in proximity thereto, or of the omnibus accommodation on the route or part of the route being excessive,

it is desirable that an order under this rule shall be made, he may by order declare the route or part of the route to be a route in which the plying for hire by omnibuses and motor cabs shall be prohibited or restricted either generally or during particular hours, and a route or part of a route with respect to which such an order is made is hereinafter referred to as a "restricted route".

77. The District Magistrate shall record in writing the reasons for the withdrawal or suspension of such approval.

(6) A public service vehicle licence shall, unless suspended or revoked or rendered null and void in the meantime, continue in force up to the date on which the registration of the vehicle expires but not for a longer period than one year.

The rear springs must be attached to, or bear upon, the back axle or axle casing as near to the road wheels as possible, and the distance between the outsides must not be less than 40 inches. Where a cross spring is used, it must be so applied that it shall not cause or increase side-sway. The front springs must be as wide apart as possible and not less than 26 inches from outside to outside:

In all cases the brakes operated by one of the means of operation shall be capable of being applied by direct mechanical action without the intervention of any hydraulic, electric or pneumatic device.

Where one braking system only is fitted—

(i) all the wheels of the vehicle shall be fitted with brakes all of which are operated by one of the means of operation; and

(ii) one at least of the means of operation shall cause brakes to be applied by direct mechanical means, and not through the transmission gear, to not less than half the number of wheels of the vehicle.

Where two independent braking systems are fitted the brakes of at least one of the braking systems shall act directly and not through the transmission gear on at least half the number of wheels of the vehicle.

For the purpose of this rule—

- (i) not more than one front wheel shall be taken into account in reckoning half the number of the wheels of the vehicle;
- (ii) braking systems shall not be deemed to be entirely independent if they are capable of being applied by the same means of operation;

(c) The brakes of one of the braking systems shall be applied by a pedal.

(d) The operation of either brake must not in any case declutch the engine from the transmission gear:

Provided that this clause shall not apply to motor vehicles already registered and in use nor to the motor vehicles in stock with dealers or importers on the date on which these rules come into force.

(e) The brake gear must be properly adjusted and nothing shall be placed on the vehicle which will prevent easy access to the brakes for adjustment.

(f) All brake connections secured with bolts or pins must have such bolts threaded and fitted with nuts, which latter must be locked or pinned.

120. *Horn*.—An approved pattern hand bulb horn having a single deep toned note for giving audible warning of approach of the vehicle must be provided.

121. *Steering arms and connections*.—(a) The steering mechanism must be so constructed or arranged as to avoid the possibility of overlock.

(b) The ball and socket joints of steering connections, when such are used, should not be pendant, but the longitudinal or transverse rods must be carried upon the ball.

123. *Vibration or noise*.—Any vehicle with lamp brackets or other fittings loose, and likely to cause unnecessary noise, will be regarded as unfit for public service.

The machinery and all parts of the vehicle must be so constructed that no undue noise or vibration arises from its use. Exhaust silencer "cut outs" are not to be fitted.

124. *Emission of smoke from exhaust.*—The lubrication of the engine and the carburation must be so controlled that smoke shall not be emitted with the exhaust or from any other part.

127. *Fuel tanks.*—(a) Fuel tanks must be so placed that they are not liable to be readily damaged by collision and that any overflow shall not fall upon any wood-work or accumulate where it can be readily ignited.

(b) In cases of gravity feed, the petrol supply pipe must be so led that a cock can be provided which shall be visible and readily accessible at all times from outside the vehicle to shut off the main supply.

(c) Special care must be taken that the filler caps of all petrol tanks are tightly fixed in position. The vent hole (if any) must be protected from fire penetration and must be designed to prevent petrol being splashed over.

128. *Exhaust pipe.*—The exhaust pipe must not be fixed in such a position that oil, or any vaporisable or inflammable material is likely to be dropped upon it.

Effective means shall be adopted to prevent the heat of the motor, generator or the exhaust pipe and its connections from injuriously affecting any parts of the vehicle or the comfort of the passengers.

129. *Fire extinguishers.*—Suitable and approved appliances for extinguishing fire must be carried in such a position and condition as to be readily available for use.

130. *Grease dropping.*—The chassis must be so constructed as to prevent oil or grease from the bearings or other parts dropping on to the roadway.

208. Notwithstanding anything contained in any other rule, no person shall drive a motor vehicle in the hill portion of the district of Darjeeling at a speed exceeding 20 miles per hour or at a speed exceeding 10 miles per hour within the limits of any municipality or in any bazar or round blind projecting corners within the said district.

NOTE.—The following areas, roads and portions of roads shall, among other places, be deemed to be bazars for the purpose of this rule, namely:—

- (1) From the railway engine shed, Kurseong, to the Clarendon Hotel.
- (2) From the railway engine shed, Kurseong, to the entrance to Constantia.
- (3) From the Peshok Road turning (Jorebungalow) to the Ghum Post Office.
- (4) The Cart Road between Darjeeling railway station and the Hospital Jhora.

- (5) The whole of the Cart Road within the limits of the Jalapahar and Katapahar Cantonments.
- (6) From the Mess House, Takdah, to the end of Takdah Cart Road.
- (7) Darjeeling Chowk, Waddell Road and Mackenzie Road.
- (8) Siliguri Union Board area.

209. The registered owner of a heavy motor vehicle kept in the district of Darjeeling, or of a motor vehicle which ordinarily plies for hire for the conveyance of passengers in that district, shall cause such vehicle to be produced before the Deputy Commissioner, or an officer designated by him in this behalf, at intervals of not more than three months.

210. When two motor vehicles meet, the down vehicle shall be brought to a standstill on the left hand side of the road on the first information of the approach of the other vehicle and shall not proceed on its journey until the up vehicle has passed:

Provided that this rule shall not apply to motor-cycles without side-cars.

211. In the hill portion of the district of Darjeeling and the Teesta Valley motor cars shall not carry luggage in excess of the following scale:—

No. of persons travelling.	Maximum amount, lbs.
7	120
6	160
5	200
4	240
3	280
2 or less	320

These restrictions are additional to the restrictions imposed as regards maximum laden weight.

II.—Rules applicable to the Darjeeling Hill Cart Road between Sukna and Ghum.

The following rules shall apply to the Darjeeling Hill Cart Road between Sukna and Ghum:—

212. All motor vehicles passing Sukna shall be liable to be weighed according to the procedure laid down below:—

- (1) Any motor vehicle which appears to exceed 40 cwts. in weight or to have a heavy load whether of passengers or goods or both shall be stopped at Sukna and weighed on behalf of the Public Works Department by the Darjeeling-Himalayan Railway. No passenger may leave the vehicle and no article may be unloaded from the vehicle until it has been weighed.

- (2) The station master or the assistant station master, Sukna, or any police officer on duty at Sukna, is authorised to weigh any motor vehicle or to allow it to proceed without being weighed. Vehicles shall be weighed without unnecessary delay.
- (3) If any motor vehicle is found to have a gross weight in excess of that permitted by these rules or by any special permission or exemption granted under the proviso to rule 204 (iii) the weighing officer will take full particulars of the vehicle and the driver's licence and will report the matter to the Superintendent of Police, Darjeeling. The certificate of the station master shall accompany such reports. In the case of an upward vehicle no such report shall be made if the driver or person in charge reduces the weight within the permissible limit and continues his journey at the reduced weight.
- (4) No upward vehicle which does not exceed 45 cwts. shall be refused a proceed order issuable under rule 213 on the ground of excess weight, provided that the driver or the person in charge signs the counterfoil of the proceed order and acknowledges thereon the gross weight of his vehicle.

213. (1) Every driver of a motor vehicle shall stop at each railway station (including Sukna and Ghum), and before proceeding to the next station shall ascertain from the station master, who shall give him the information in writing, whether any train or motor vehicle has left the said next station on its way to the station where he is stopping and shall also inform the station master whether he intends to go as far as the next station or whether he intends to halt on the way, and, in the latter event, to state the time when he expects to pass the next station. The driver of the vehicle shall acknowledge the receipt of the information in a book to be kept for the purpose. To avoid delay at Ghum downward cars should inform Darjeeling Railway Station of their departure: upward cars should inform Panchanai Railway Station to avoid delay at Sukna.

(2) At the starting station of a motor vehicle no proceed order shall be issued over any section until all trains and motor vehicles proceeding in the opposite direction, which have not been warned, have arrived at the starting station of the motor vehicle:

Provided that at any station a motor vehicle shall not be detained more than 25 minutes in expectation of the arrival of unwarned trains and motor vehicles proceeding in the opposite direction. After the lapse of this period, the vehicle should be allowed to proceed with the necessary warning. If no train is on its way from the next station the driver may proceed, and on his so doing the station-master shall take steps immediately to advise the next two stations ahead of having started in order that drivers of subsequent trains and motor vehicles may be made aware of the presence of a motor vehicle on the section. This rule applies to all motor vehicles and motor cycles with or without side cars:

Provided that if a train proceeding in the same direction as the car gets line-clear to a certain point, the car may also proceed to that point to await the train crossing from the opposite direction.

(3) The driver of every down-going motor vehicle when taking "proceed orders" at Tung Railway Station shall state whether or not he is going past Kurseong. The driver of every up-going vehicle shall give similar information at Mahanadi Railway Station.

(4) No proceed order is required—

(a) between 7-30 p.m. and 6-30 a.m., from the 1st April to the 15th October; and

(b) between 6 p.m. and 6-30 a.m., during the rest of the year.

III.—Rules applicable to motor lorries for use on the Darjeeling Hill Cart Road between Sukna and Ghum.

214. Until further orders, the number of motor lorries, that is to say, motor vehicles specially adapted and used for the conveyance of goods, shall be limited to forty including motor mail vans for the purpose of plying on the Darjeeling Hill Cart Road between Sukna and Ghum.

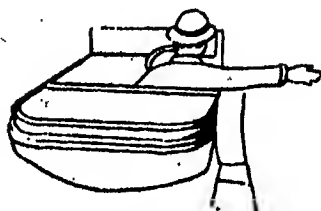

215. (1) The Deputy Commissioner, after consulting the General Manager, Darjeeling-Himalayan Railway, and such other interested persons as he may deem necessary to consult, may, with the approval of the Commissioner of the Rajshahi Division, regulate the times during which motor lorries may ply between Ghum and Sukna or any intermediate points on the road.

(2) Except in case of emergency, the nature of which shall be recorded, such timings shall not be altered without fresh consultation of the persons mentioned in sub-rule (1), and any such alterations shall be subject to the approval of the Commissioner of the Rajshahi Division.

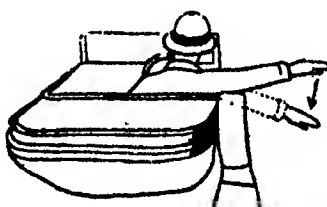

(3) The times so fixed or altered will be published by posting notices in conspicuous places in Siliguri, Darjeeling and all intermediate railway stations.

[See rule 48 (2).]

The designs of signs in Appendix B have been prescribed by the Government of India. The designs in Part I are of warning signs, that is to say, of danger signs erected merely for the information of the public. The first design shows how these warning signs are to be erected.

The designs in Part II are prohibitory or mandatory signs drawing attention to local restrictions or limits and have force of law. Design No. 1 shows how these signs are to be erected.

The design in Part III merely indicates where parking is to be allowed.

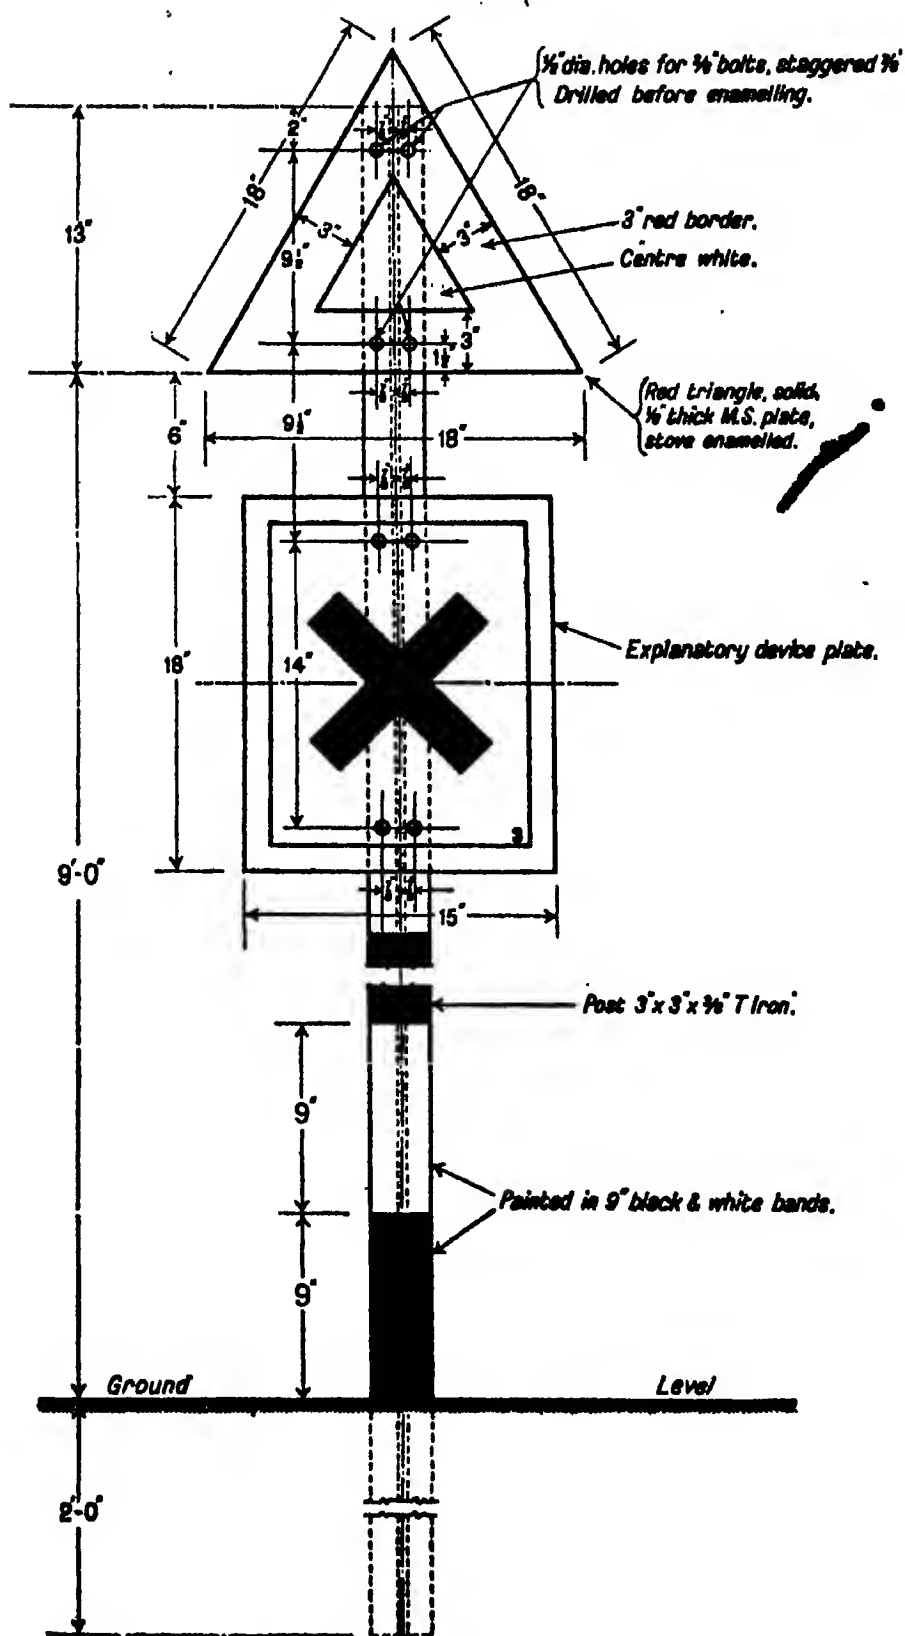

While there is no necessity to adopt standard specifications in respect of the posts upon which road signs are to be erected, the following points should be borne in mind—

- (a) that they should be rigid and that the height from the ground to the bottom of the triangle should not be more than 9 feet for country roads, or 8 feet if in towns and particularly if reflecting devices are to be used on the signs;
- (b) that a space of 6 inches should be left between the bottom of the triangle and the top of the explanatory plate below it;
- (c) that the posts should be painted in black and white bands, 9 inches deep; and
- (d) that the road signs should always be on the left of the road approaching the object of which they give notice.

RESOLUTION—No. 754M.

Calcutta, the 28th January 1935.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

The mal-administration of the South Suburban Municipality (in the district of the 24-Parganas), particularly in respect of the Collection Department, has been under the notice of Government for some time past. In the year 1933-34 a case of embezzlement by a tax collector during the previous year was brought to light. On detailed scrutiny by the auditors the amount embezzled was found to be Rs. 9,789. The defalcation appears to have gone on during 1932-33, and up to the middle of January 1934, and it appears that this was rendered possible by inadequate supervision and by non-observance of the Municipal Account Rules regarding collection on the part of those in charge of the Collection Department. Contrary to the usual practice prevailing in other municipalities in the province, the Collection Department of the municipality was not placed in charge of the Vice-Chairman, nor were any powers delegated to the Vice-Chairman, under section 52 of the Bengal Municipal Act, although the Municipal Account Rules require that some powers should be exercised by the Vice-Chairman for the proper supervision of the Collection Department. In fact the Chairman of the South Suburban Municipality chose to keep all powers to himself, with the result that important checks and verifications provided by the rules were neglected, and this greatly facilitated the defalcation referred to above.

2. The Audit Report for the year 1933-34 estimates the unrealised taxes at Rs. 61,845. The statement below* shows the percentage of current collections in the municipality during the last six years. It will be observed that the rate of collection has been falling below the standard of 95 per cent., fixed by Government, since the year 1931-32, when the present body of Municipal Commissioners came to office. No effective measures appear to have been taken to collect arrears of taxes. It is reported that as many as 637 warrants, issued during the years 1932-33 and 1933-34, were not executed at all and there was no order of the municipal executive either for the cancellation of these warrants or for further action regarding them. The Audit Report also mentions that out of 381 warrants issued during the year 1933-34 only 146 were executed, and no orders for remission could be pointed out in cases where the warrant fees were not realised. The Audit Report further reveals that very little control is exercised by the municipal executive over the proper maintenance of the stock account of the receipt books issued to the tax collectors—

*1928-29	..	97.3	per cent.
1929-30	..	97.2	„
1930-31	..	95.4	„
1931-32	..	80.2	„
1932-33	..	77.5	„
1933-34	..	77.5	„

As a result of the poor collection of taxes, the financial condition of the municipality has become precarious. The actual cash position of the municipal fund at the end of the year 1933-34 was one of deficit to the extent of Rs. 17,887 as shown below:—

	Rs.
Cash-book balance	.. 16,189
Unpaid bills	.. 23,064
Refundable deposits and balances of subsidiary funds and unspent contributions	.. 11,012
Real cash-book balance	.. 17,887

The amount of unpaid bills rose from Rs. 8,161 to Rs. 23,064 during the three years ending 1933-34. In August 1934 the Subdivisional Officer of Alipore made a personal enquiry into the affairs of the municipality and his report revealed various irregularities and abuses of power in the administration of the municipality, particularly in respect of the Collection Department.

3. In view of the above state of affairs, Government called upon the Municipal Commissioners under section 550, sub-section (1) of the Bengal Municipal Act to show cause why steps should not be taken to appoint a suitable person to take charge of the Collection Department of the municipality. In reply, the Municipal Commissioners have stated that they have no objection to the action proposed to be taken by Government, and that they have no views to offer to the contrary.

The Government of Bengal (Ministry of Local Self-Government) have come to the conclusion that the Commissioners of the South Suburban Municipality have, in respect of the Collection Department of the municipality, abused their powers and persistently made default in the performance of duties imposed on them by the Municipal Act. In exercise of the power conferred by section 550, sub-section (2) of the Bengal Municipal Act, 1932, they accordingly direct that the Sadar Subdivisional Officer, 24-Parganas, will take charge of the above department for a period of one year with effect from the date of publication of this resolution in the *Calcutta Gazette*.

4. Ordered that this resolution be published in the *Calcutta Gazette*.

No. 1854G.—The following rules making amendments to the Rules in the First Schedule to the Code of Civil Procedure, 1908, having been framed by the High Court of Judicature at Fort William in Bengal, in exercise of the power vested in it by section 122 of the Code, and sanctioned by the Governor-General in Council under section 126 of the Code, are published for general information.

The rules will come into force with effect from the 1st March 1935:—

Rules.

Add the following after Rule 46, Order XXI:—

46 (A).—The Court may in case of a debt, other than a debt secured by a mortgage or a charge or by a negotiable instrument, which has been attached under rule 46 or 51 of this order, upon the application of the attaching creditor, issue notice to the garnishee liable to pay such debt calling upon him either to pay

into Court the debt due from him to the judgment-debtor or so much thereof as may be sufficient to satisfy the decree and costs of execution, or to appear and show cause why he should not do so.

Provided that if the debt in respect of which the application aforesaid is made is in respect of a sum of money beyond the pecuniary jurisdiction of the Court, the Court shall send the execution case to the Court of the District Judge to which the said Court is subordinate, and thereupon the Court of the District Judge or any other competent Court to which it may be transferred by the District Judge will deal with it in the same manner as if the case had been originally instituted in that Court.

Such application shall be made on affidavit verifying the facts alleged and stating that in the belief of the deponent the garnishee is indebted to the judgment-debtor.

46 (B).—Where the garnishee does not forthwith pay into Court the amount due from him to the judgment-debtor or so much thereof as is sufficient to satisfy the decree and the costs of execution or does not appear and show cause in answer to the notice, the Court may order the garnishee to comply with the terms of such notice, and on such order execution may issue as though such order were a decree against him.

46 (C).—Where the garnishee disputes liability, the Court may order that any issue or question necessary for the determination of liability shall be tried as if it were an issue in a suit, and upon the determination of such issue shall make such order or orders upon the parties as may seem just.

46 (D).—Where it is suggested or appears to be probable that the debt belongs to some third person or that any third person has a lien or charge on, or other interest in, such debt, the Court may order such third person to appear and state the nature and particulars of his claim (if any) to such debt and prove the same.

46 (E).—After hearing such third person and any other person or persons who may subsequently be ordered to appear, or where such third or other person or persons do not appear when so ordered, the Court may make such order as is hereinbefore provided, or such other order or orders upon such terms, if any, with respect to the lien, charge or interest if any of such third or other person as may seem fit and proper.

46 (F).—Payment made by the garnishee on a notice under rule 46 (A) or under any such order as aforesaid shall be valid discharge to him as against the judgment-debtor and any other person ordered to appear as aforesaid for the amount paid or levied although such judgment may be set aside or reversed.

46 (G).—The costs of any application made under rule 46 (A) and of any proceeding arising therefrom or incidental thereto, shall be in the discretion of the Court.

46 (H).—An order made under rules 46 (B), 46 (C) or 46 (E) shall be appealable as a decree.

By order of the High Court,

N. L. HINDLEY, Registrar.
